

mechanical tubing, if such products are not produced to A-335, A-106, A-53 or API 5L specifications and are not used in standard, line or pressure applications. In addition, finished and unfinished OCTG are excluded from the scope of this order, if covered by the scope of another antidumping duty order from the same country. If not covered by such an OCTG review, finished and unfinished OCTG are included in the scope of this order when used in standard, line or pressure applications. Finally, also excluded from the scope of this order are redraw hollows for cold-drawing when used in the production of cold-drawn pipe or tube.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this order (amended as indicated below) is dispositive. Excluded from the scope of this order, as a result of a changed circumstances review (63 FR 37338 (July 10, 1998)) are the following: Shipments of seamless carbon and alloy (other than stainless) steel pipes, of circular cross-section, not more than 114.3 mm (4.5 inches) in outside diameter, regardless of wall thickness or manufacturing process (hot-finished or cold-drawn) that (1) has been cut into lengths of six to 120 inches, (2) has had the inside bore ground to a smooth surface, (3) has had multiple layers of specially formulated corrosion resistant glass permanently baked on at temperatures of 1,440 to 1,700 degrees Fahrenheit in thicknesses from 0.032 to 0.085 inch (40 to 80 mils), and (4) has flanges or other forged stub ends welded on both ends of the pipe. The special corrosion resistant glass referred to in this definition may be glass containing by weight (1) 70 to 80 percent of an oxide of silicone, zirconium, titanium or cerium (Oxide Group RO sub2), (2) 10 to 15 percent of an oxide of sodium, potassium, or lithium (Oxide Group RO), (3) from a trace amount to 5 percent of an oxide of either aluminum, cobalt, iron, vanadium, or boron (Oxide Group R sub2 O sub3), or (4) from a trace amount to 5 percent of a fluorine compound in which fluorine replaces the oxygen in any one of the previously listed oxide groups. These glass-lined pressure pipes are commonly manufactured for use in glass-lined equipment systems for processing corrosive or reactive chemicals, including acrylates, alkanolamines, herbicides, pesticides, pharmaceuticals and solvents. The glass-lined pressure pipes subject to the changed circumstances review are currently

classifiable under subheadings 7304.39.0020, 7304.39.0024 and 7304.39.0028 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs' purposes only. The written description of the excluded products remains dispositive.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration [C-357-815]

Final Affirmative Countervailing Duty Determination: Certain Hot-Rolled Carbon Steel Flat Products From Argentina

AGENCY: Import Administration, International Trade Administration Department of Commerce.

ACTION: Notice of final affirmative countervailing duty investigation.

SUMMARY: On February 21, 2001, the Department of Commerce (the Department) published in the **Federal Register** its preliminary affirmative determination in the countervailing duty investigation of certain hot-rolled carbon steel flat products from Argentina for the period January 1, 1999 through December 31, 1999.

The net subsidy rates in the *Final Determination* differ from those of the *Preliminary Determination*. The revised final net subsidy rate for the investigated company is listed below in the "Suspension of Liquidation" section of this notice.

EFFECTIVE DATE: July 16, 2001.

FOR FURTHER INFORMATION CONTACT: Eric B. Greynolds at (202) 482-6071 or Darla Brown at (202) 482-2849, Office of AD/CVD Enforcement VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, Room 4012, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations codified at 19 CFR part 351 (2000).

Background

On February 21, 2001, the Department published the results of its preliminary determination in the investigation of certain hot-rolled carbon steel flat products from Argentina. See *Notice of Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Countervailing Duty Determination With Final Antidumping Duty Determination: Certain Hot-Rolled Carbon Steel Flat Products from Argentina*, 66 FR 10990 (February 21, 2001) (*Preliminary Determination*). We invited interested parties to comment on the *Preliminary Determination*. On March 8, 2001, we received comments from petitioners. We received no other comments.

This investigation covers a single producer/exporter, Siderar Sociedad Anonima Industrial & Commercial (Siderar) for the period January 1, 1999 through December 31, 1999.

Scope of the Investigation

The merchandise subject to this investigation is certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this investigation.

Specifically included within the scope of this investigation are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this investigation, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this investigation unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this investigation:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTS.
- Tool steels, as defined in the HTS.
- Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.

The merchandise subject to this investigation is classified in the HTS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30,

7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled flat-rolled carbon-quality steel covered by this investigation, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTS subheadings are provided for convenience and U.S. Customs purposes, the Department's written description of the merchandise under investigation is dispositive.

Analysis of Comments Received

All issues raised in the sole brief submitted in this countervailing duty investigation are addressed in the "Issues and Decision Memorandum" (Decision Memorandum) from Bernard T. Carreau, Deputy Assistant Secretary, AD/CVD Enforcement II, to Faryar Shirzad, Assistant Secretary for Import Administration, dated July 9, 2001, which is hereby adopted by this notice. The Department's responses to issues petitioners raised are included in the Decision Memorandum, which is attached to this notice as Appendix I. This public memorandum, which is on file in room B-099 of the Main Commerce Building, also contains a complete discussion of the issues raised in this investigation and the corresponding recommendations. In addition, a complete version of the Decision Memorandum can be accessed directly on the World Wide Web at <http://ia.ita.doc.gov>, under the heading "Federal Register Notices." The paper copy and electronic version of the Decision Memorandum are identical in content.

Suspension of Liquidation

In accordance with section 705(c)(1)(B)(i)(I) of the Act, we have calculated an individual rate for the company under investigation, Siderar.

With respect to the "all others" rate, section 705(c)(5)(A)(ii) of the Act provides that if the countervailable subsidy rates established for all exporters and producers individually investigated are determined entirely under section 776 of the Act, the Department may use any reasonable method to establish an "all others" rate for exporters and producers not individually investigated. In this case, although the rate for the only other investigated company is based entirely on facts available under section 776 of the Act, there is no other information on the record upon which we could determine an "all others" rate. As a result, we have used the rate for Siderar as the "all others" rate.

Producer/exporter	Net subsidy rate
Siderar	41.69% <i>Ad Valorem</i> .
All Others	41.69 % <i>Ad Valorem</i> .

In accordance with our preliminary affirmative determination, we instructed the U.S. Customs Service to suspend liquidation of all entries of certain hot-rolled carbon steel flat products from Argentina, which were entered or withdrawn from warehouse, for consumption on or after February 21, 2001, the date of the publication of our preliminary determination in the **Federal Register**. In accordance with section 703(d) of the Act, we instructed the U.S. Customs Service to discontinue the suspension of liquidation for merchandise entered on or after June 21, 2001, but to continue the suspension of liquidation of entries made between February 21, 2001 and June 20, 2001.

We will reinstate suspension of liquidation under section 706(a) of the Act for all entries if the ITC issues a final affirmative injury determination and will require a cash deposit of estimated countervailing duties for such entries of merchandise in the amounts indicated above. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated and all estimated duties deposited or securities posted as a result of the suspension of liquidation will be refunded or canceled.

ITC Notification

In accordance with section 705(d) of the Act, we will notify the ITC of our determination. In addition, we are making available to the ITC all non-privileged and non-proprietary information related to this investigation. We will allow the ITC access to all privileged and business proprietary information in our files, provided that the ITC confirms that it will not disclose

such information, either publically or under an administrative protective order (APO), without the written consent of the Assistant Secretary for Import Administration.

If the ITC determines that material injury, or threat of material injury, does not exist, these proceedings will be terminated. If however, the ITC determines that such injury does exist, we will issue a countervailing duty order.

Return or Destruction of Proprietary Information

In the event that the ITC issues a final negative injury determination, this notice will serve as the only reminder to parties subject to APO of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 705(d) and 777(i) of the Act.

Dated: July 9, 2001.

Faryar Shirzad,

Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Availability of Alternate Member Seats for the Hawaiian Islands Humpback Whale National Marine Sanctuary Advisory Council

AGENCY: National Marine Sanctuary Program (NMSP), National Ocean Service (NOS), National Oceanic and Atmospheric Administration, Department of Commerce (DOC).

ACTION: Notice and request for applications.

SUMMARY: The Hawaiian Islands Humpback Whale National Marine Sanctuary (HIHWNMS or Sanctuary) is seeking applicants for the following three vacant alternate member seats on its Sanctuary Advisory Council (Council): Hawaii County, Research, and Whale Watching. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are applying; community and professional affiliations; philosophy regarding the conservation and management of marine resources; and the length of residence in the area affected by the Sanctuary. Applicants will serve as alternate members, fulfilling the duties of their member in his/her absence. Applicants who are chosen as alternate members should expect to serve two-year terms, pursuant to the Council's Charter.

DATES: Applications are due by July 31, 2001.

ADDRESSES: Application kits may be obtained from Kellie Cheung at the Hawaiian Islands Humpback Whale National Marine Sanctuary, 6700 Kalaniana'ole Hwy, Suite 104, Honolulu, Hawaii 96825. Completed applications should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Kellie Cheung at (808) 397-2651, or Kellie.Cheung@noaa.gov.

SUPPLEMENTARY INFORMATION: The HIHWNMS Advisory Council was established in March 1996 (the current Council has served since July 1998) to assure continued public participation in the management of the Sanctuary. Since its establishment, the Council has played a vital role in the decisions affecting the Sanctuary surrounding the main Hawaiian Islands.

The Council's twenty-three voting members represent a variety of local user groups, as well as the general public, plus ten local, state, and federal governmental jurisdictions.

The Council is supported by three working groups: the Research

Subcommittee chaired by the Research Representative, the Education Subcommittee chaired by the Education Representative, and the Conservation Subcommittee chaired by the Conservation Representative, each respectively dealing with matters concerning research, education and resource protection.

The Council represents the coordination link between the Sanctuary and the state and federal management agencies, user groups, researchers, educators, policy makers, and other various groups that help to focus efforts and attention on the humpback whale and its habitat around the main Hawaiian Islands.

The Council functions in an advisory capacity to the Sanctuary Manager and is instrumental in helping to develop policies and program goals, and to identify education, outreach, research, long-term monitoring, resource protection and revenue enhancement priorities. The Council works in concert with the Sanctuary Manager by keeping him or her informed about issues of concern throughout the Sanctuary, offering recommendations on specific issues, and aiding the Manager in achieving the goals of the Sanctuary program within the context of Hawaii's marine programs and policies.

Authority: 16 U.S.C. Section 1431 *et seq.* (Federal Domestic Assistance Catalog Number 11.429 Marine Sanctuary Program)

Dated: July 11, 2001.

Ted I. Lillestolen,

Deputy Assistant Administrator for Oceans and Coastal Zone Management.
