The conference also will include presentations on Sustainable Wastewater Management Within the Tri-State Middle Delaware Region and Cooperative Inter-Agency Development of a Delaware River Water Trail.

The subjects of the public hearing to be held during the 1:00 p.m. business meeting include, in addition to the dockets listed below, a resolution

confirming the appointment of Acting General Counsel to the Commission.

The dockets scheduled for public hearing are as follows:

1. *North Wales Water Authority D-90-6 CP (Revision)*. An application for the revision of a ground water withdrawal project to reallocate the existing 210 million gallons (mg)/30 days to 195 mg/30 days for the applicant's public water distribution system from Wells Nos. 1, 4B, 8, 9, 10, 11, 14, 17, 21, 22, 25, 31 and 34 in the Stockton, Lockatong and Brunswick Formations. 2. *Walnutport Authority D-90-87 CP RENEWAL*. An application for the renewal of a ground water withdrawal project to supply up to 8 mg/30 days of water to the applicant's public water distribution system from existing Wells Nos. 1 through 5 in the Martinsburg Formation. No increase in maximum allocation is proposed. The project is located in Walnutport Borough and Lehigh Township, Northampton County, Pennsylvania.

3. *Yardley Country Club D-2000-32*. An application for approval of a ground water withdrawal project to supply up to 15 mg/30 days of water to the applicant's golf course irrigation system from new Well No. 1 in the Stockton Formation and to limit the withdrawal from all sources to 15 mg/30 days. The project is located in Yardley Borough, Bucks County, Pennsylvania.

4. *Kimberton Golf Club D-2001-4*. An application for approval of a ground water withdrawal project to supply up to 4.2 mg/30 days of water to the applicant's golf course irrigation system from newly redeveloped Well No. PW-1. The project well is located in the Stockton Formation in East Vincent Township, Chester County in the Southeastern Pennsylvania Ground Water Protected Area.

The STP serves only the correctional facilities and will continue to discharge through the existing outfall to Riggins Ditch, a tributary of Delaware Bay. The project is located just west of Delsea Drive (State Route 47) in Maurice River Township, Cumberland County, New Jersey.

7. *S.W.E.C. LLC D-2001-28*. An application to provide a non-utility electric power generator with an average of 8.5 mgd of water diverted via the USX Fairless Works intake on the Delaware River. The proposed natural gas-fired combustion turbines and steam turbine generators are designed to produce 1,190 megawatts (MW) of electric power for the Pennsylvania-Jersey-Maryland (PJM) grid. The project will be constructed on a 45 acre site within the USX Industrial Park off Bordentown Road in Falls Township, Bucks County, Pennsylvania. Following average consumptive losses of 6.15 mgd to evaporation and drift, approximately 2.35 mgd of wastewater will be routed to the USX wastewater treatment facility prior to discharge to the Delaware River in Delaware River Basin Commission Water Quality Zone 2.

The plant is located just south of State Route 10, about 1 mile west of State Route 28 in the Town of Delhi, Delaware County, New York. The project will continue to serve the residents of Delhi Village and will be rerated after the upgrade to receive and process the pretreated waste from two small industries, which will discontinue their own existing discharge. The STP effluent will continue to be discharged via the existing outfall to the West Branch Delaware River, about 22 river miles upstream from the Cannonsville Reservoir in Delaware River Basin Commission Water Quality Zone W1.

In addition to the public hearing, the Commission will address the following at its 1:00 p.m. business meeting: minutes of the June 6, 2001 business meeting; announcements; report on hydrologic conditions; reports by the Executive Director and Acting General Counsel; public dialogue; and resolutions (1) authorizing the continued procurement of services for the Commission's Estuary Model Peer Review Team; (2) authorizing the Executive Director to issue an RFP for sample collection and analysis to support the development of TMDLs for PCBs, chlorinated pesticides and metals in the Delaware Estuary; (3) approving an investment policy for the Commission; and (4) authorizing the Executive Director to contract with two asset management firms.
