

collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed revision of the Report of Construction Contractor's Wage Rates (WD-10).

DATES: Written comments must be submitted to the office listed in the addressee section below no later than September 17, 2001.

ADDRESSES: Ms. Patricia A. Forkel, U.S. Department of Labor, 200 Constitution Ave., N.W., Room S-3201, Washington, D.C. 20210, telephone (202) 693-0339 (this is not a toll-free number), fax (202) 693-1451.

SUPPLEMENTARY INFORMATION:

I. Background

The Davis-Bacon Act provides that every government contract in excess of \$2,000 which involves the employment of mechanics and/or laborers, contain a provision stating the minimum wages to be paid, which are based on the prevailing wage rate in the area for corresponding classes of mechanics and laborers employed on similar projects. Further, Section 1.3 of 29 CFR part I provides that the Wage and Hour Administrator will conduct a continuing program for the obtaining and compiling of wage rate information for the purpose of making wage determinations.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Wage and Hour Division seeks the approval of the revision of the

currently approved information collection WD-10. The form has been revised in format to allow information to fit on legal size paper (8½ x 14). Instructions have been provided on a second page. The WD-10 form has been revised to be user friendly and machine readable. Electronic imaging of WD-10 forms will expedite data transfer from hard copy to the supporting database. The form redesign is necessary for character recognition software to work effectively. An electronic WD-10 form is being developed which mirrors the paper form and will make it easier for respondents to provide information. The revision of the paper WD-10 and electronic submission of Form WD-10 will expedite data transfer to the supporting database. The use of the electronic WD-10 will expedite the survey process to allow more accurate and timely wage determinations. It is anticipated that completion and electronic submission capability of the WD-10 over the Internet will occur in 2002.

Type of Review: Revision.

Agency: Employment Standards Administration.

Title: Report of Construction Contractor's Wage Rates.

OMB Number: 1215-0046.

Agency Number: WD-10.

Affected Public: Businesses or other for-profit.

Frequency: On occasion.

Total Respondents: 37,500.

Total Responses: 75,000.

Time per Response: 20 minutes.

Estimated Total Burden Hours: 25,000.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: June 25, 2001.

Margaret J. Sherrill,

Chief, Branch of Management Review and Internal Control, Division of Financial Management, Office of Management, Administration and Planning, Employment Standards Administration.

BILLING CODE 7537-01-M

NUCLEAR REGULATORY COMMISSION

Atomic Safety and Licensing Board Panel

[Docket No. 50-213-OLA ASLBP No. 01-787-02-OLA]

Before Administrative Judges: Ann Marshall Young, Chair, Dr. Peter S. Lam, Thomas D. Murphy; In the Matter of Connecticut Yankee Atomic Power Company (Haddam Neck Plant); Notice of Hearing

July 12, 2001.

This proceeding concerns a license amendment application of Connecticut Yankee Atomic Power Company (CYAPCO), seeking to add a new license condition to approve a License Termination Plan (LTP) for its Haddam Neck Plant pursuant to 10 CFR 50.82(a)(9), (10), and allow CYAPCO to make changes to the approved LTP without prior NRC approval if certain criteria specified in the license condition are met. After a public meeting held October 17, 2000, NRC

Staff proposed to determine that the amendment request involves no significant hazards consideration under 10 CFR 50.92(c), and provided notice of this finding and of the opportunity for a hearing with regard to the amendment request. 65 FR 77913 (Dec. 13, 2000). In response to this notice, the Citizens Awareness Network (CAN) and the Connecticut Department of Public Utility Control (CDPUC) filed requests for hearing dated January 11 and 17, 2001, respectively. On January 31, 2001, an Atomic Safety and Licensing Board, consisting of the members listed above, was established to preside over this proceeding. 66 FR 9111 (Feb. 6, 2001).

Notice is hereby given that, by Memorandum and Order dated July 9, 2001, the Board granted Petitioners CAN and CDPUC a hearing, after holding oral argument in a series of prehearing conferences on the contentions and arguments of the Petitioners, CYAPCO and the NRC Staff. In this Memorandum and Order, the Board found that both CAN and CDPUC have standing to proceed, and admitted contentions relating to adequacy of the site characterization, scope of work required to meet the requirements of the rules, dose calculations, and water contamination.

This proceeding will be conducted under the Commission's hearing procedures set forth in 10 CFR part 2, subpart G. During the course of the proceeding, the Board may conduct additional oral argument as provided in 10 CFR 2.755, hold additional prehearing conferences pursuant to 10 CFR 2.752, and conduct an evidentiary hearing in accordance with 10 CFR 2.750-751. The time and place of these sessions will be announced in Licensing Board Orders. Except as limited by the parameters of telephone conferences (which will in any event be transcribed), members of the public are invited to attend any such sessions.

Additionally, as provided in 10 CFR 2.715(a), any person not a party to the proceeding may submit a written limited appearance statement setting forth his or her position on the issues in the proceeding. Persons wishing to submit a written limited appearance statement should send it to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Rulemakings and Adjudications Staff. A copy of the statement should also be served on the Chairman of the Atomic Safety and Licensing Board. At a later date, the Board will entertain oral limited appearance statements at a location or locations in the vicinity of the Haddam Neck Plant, which is located
