ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO 119-1119a; FRL-7015-8]

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the state of Missouri. This approval pertains to revisions to a rule which controls emissions from aluminum foil rolling sources in the St. Louis, Missouri, nonattainment area. The effect of this approval is to ensure Federal enforceability of the state air program rules and to maintain consistency between the state-adopted rules and the approved SIP.

DATES: This direct final rule will be effective on September 18, 2001 unless EPA receives adverse comments by August 20, 2001. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

Copies of documents relative to this action are available for public inspection during normal business hours at the above listed Region 7 location. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551–7603.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we, us, or our" is used, we mean EPA. This section provides additional information by addressing the following questions:

What Is a SIP?

What Is the Federal Approval Process for a SIP?

What Does Federal Approval of a State Regulation Mean to Me?

What Is Being Addressed in this Document?

Have the Requirements for Approval of a SIP Revision Been Met? What Action Is EPA Taking?

What Is a SIP?

Section 110 of the Clean Air Act (CAA) requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each state must submit these regulations and control strategies to EPA for approval and incorporation into the Federally enforceable SIP.

Each Federally approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

What Is the Federal Approval Process for a SIP?

In order for state regulations to be incorporated into the Federally enforceable SIP, states must formally adopt the regulations and control strategies consistent with state and Federal requirements. This process generally includes a public notice, public hearing, public comment period, and a formal adoption by a stateauthorized rulemaking body.

Once a state rule, regulation, or control strategy is adopted, the state submits it to us for inclusion into the SIP. We must provide public notice and seek additional public comment regarding the proposed Federal action on the state submission. If adverse comments are received, they must be addressed prior to any final Federal action by us.

All state regulations and supporting information approved by EPA under section 110 of the CAA are incorporated into the Federally approved SIP. Records of such SIP actions are maintained in the Code of Federal Regulations (CFR) at Title 40, Part 52, entitled "Approval and Promulgation of Implementation Plans." The actual state regulations which are approved are not reproduced in their entirety in the CFR outright but are "incorporated by reference," which means that we have approved a given state regulation with a specific effective date.

What Does Federal Approval of a State Regulation Mean to Me?

Enforcement of the state regulation before and after it is incorporated into the Federally approved SIP is primarily a state responsibility. However, after the regulation is Federally approved, we are authorized to take enforcement action against violators. Citizens are also offered legal recourse to address violations as described in section 304 of the CAA.

What Is Being Addressed in This Document?

On October 25, 2000, we received a request from the Missouri Department of Natural Resources to approve as a SIP revision amendments to rule 10 CSR 10–5.451, "Control of Emissions From Aluminum Foil Rolling."

This rule specifies operating procedures, materials requirements, and control equipment specifications for the reduction of volatile organic compounds from aluminum foil rolling mills in the St. Louis ozone nonattainment area. There is only one source subject to this rule.

Revisions to the rule were minor. References to the final boiling point of the rolling lubricants in sections (3)(A)(1)(B) and (3)(A)(2)(B) were revised for clarification. Section (5)(A) was revised to refer to the most current American Society for Testing and Materials test method, and to add clarifying language regarding the emissions standards to which the test method applies. A minor typographical correction was made to section (3)(A)(2)(A).

This rule was adopted by the Missouri Air Conservation Commission and became state effective on September 30, 2000.

Have the Requirements for Approval of a SIP Revision Been Met?

The state submittal has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submittal also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, as explained above and in more detail in the technical support document which is part of this document, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

What Action Is EPA Taking?

We are processing this action as a final action because the revisions make routine changes to the existing rules, which are noncontroversial. Therefore, we do not anticipate any adverse comments.

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant

economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). Because this rule approves preexisting requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). For the same reason, this rule also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). This rule will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the CAA. This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, our role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), we have no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, we have taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the Executive Order. This rule does not impose an information collection burden under the provisions of the

Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small **Business Regulatory Enforcement** Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. We will submit a report containing this rule and other required information to the United States Senate, the United States House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by September 18, 2001. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements.

Dated: June 29, 2001.

William Rice,

 $Acting \ Regional \ Administrator, \ Region \ 7.$

Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart AA—Missouri

2. In § 52.1320(c) the table is amended under Chapter 5 by revising the entry for "10–5.451" to read as follows:

§ 52.1320 Identification of plan.

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Control of VOCs From Wood Furniture Manufacturing, Surface Coating Processes and Other Miscellaneous Revisions

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving revisions to the Commonwealth of Pennsylvania State Implementation Plan (SIP) submitted on October 4, 2000 by the Pennsylvania Department of Environmental Protection (DEP). The revisions include the adoption of new VOC regulations for wood furniture manufacturing operations. These revisions also add new definitions, and amend or delete certain existing definitions for terms used in regulations pertaining to volatile organic compound (VOC) sources. The revisions also clarify the requirements Pennsylvania's surface coating regulations. Lastly, the revisions include minor amendments to Pennsylvania's regulations pertaining to sampling and testing methods. EPA is approving these revisions to the Commonwealth of Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: This rule is effective on September 18, 2001 without further notice, unless EPA receives adverse written comment by August 20, 2001. If EPA receives such comments, it will publish a timely withdrawal of the direct final rule in the **Federal Register**

and inform the public that the rule will not take effect.

ADDRESSES: Written comments should be mailed to David L. Arnold, Chief, Air Quality Planning & Information Services Branch, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103, the Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, and the Pennsylvania Department of Environmental Protection, Bureau of Air Quality, P.O. Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: Rose Quinto, (215) 814–2182 or Ellen Wentworth, (215) 814–2034, at the EPA Region III address above, or by e-mail at quinto.rose@epa.gov or wentworth.ellen@epa.gov

SUPPLEMENTARY INFORMATION:

I. Description of the SIP Revision and EPA's Action

The information in this section is organized as follows:

- A. What Action Is EPA Taking Today?
- B. What Are the Provisions of the New and Revised Regulations?
- C. Why Is EPA Approving These SIP Revisions?
- D. What Is the Process for EPA Approval?

A. What Action Is EPA Taking Today?

EPA is approving revisions to the Commonwealth of Pennsylvania SIP which were submitted on October 4, 2000 by the Pennsylvania DEP. These SIP revisions amend 25 PA Code, Chapter 121, General Provisions, section 121.1, Definitions, to include the addition of new definitions, and the revision or deletion of certain existing definitions used in Chapter 129.

We are also approving revisions to 25 PA Code, Chapter 129, Standards for Sources, to add new sections, 129.101–129.107, Wood Furniture Manufacturing Operations, which establish presumptive reasonably available control technology (RACT) for wood manufacturing operations.

We are also approving revisions to 25 PA Code, Chapter 129, Standards for Sources, section 129.52, Surface Coating Processes, which clarifies which wood furniture manufacturing facilities are subject to section 129.52 and sections 129.101–129.107.

Finally, we are approving revisions to 25 PA Code, Chapter 139, Sampling and Testing, section 139.4, References, to reflect the correct name and address for the Pennsylvania Department of Environmental Protection and the Bureau of Air Quality, and section 139.14, Emissions of VOCs, to require that the test methods and procedures for the content of total volatiles, solids and exempt solvents be equivalent to those found at subsection 139.4(1) and (5).

B. What Are the New and Revised Regulations?

Chapter 121, General Provisions— Additions, Revisions, Deletions to Section 121.1, Definitions

This SIP revision adds definitions and revises or deletes certain existing definitions to Chapter 121, General Provisions, section 121.1 Definitions, for terms used in the substantive provisions of Chapter 129, Pennsylvania's regulations which contain VOC emission standards.

Additional definitions are provided for the following: Adhesive, Alternative method, As applied, As Supplied, Basecoat, CPDS—Certified Product Data Sheet, Coating, Coating solids or solids, Compliant coating, Continuous coater, Conventional air spray, Cosmetic
