

year, the program is supported by the Rockefeller Foundation and the MOHCW. In the eight years of its operation, the MPH program has trained approximately 40 personnel and currently has 15 trainees in their two-year course. It has recently been tasked to train up to 300 district health team members in health information for district management over 2 years leading to a Certificate in Health Information for District Management (CHIDM).

The UZ/DCM MPH program is the only MPH program in the country. The purpose of this agreement is to build upon the success of the program and allow it to expand without compromising the quality of the training.

There is urgency to putting this award in place. Zimbabwe is among the countries in the world most affected by HIV/AIDS: HIV prevalence is estimated to be at least 27 percent, there has been 10-fold increase in the number of TB cases, and up to 35 percent of the children may be orphaned by AIDS at the end of this decade. At the same time, the public health response to the epidemic in Zimbabwe is inadequate due in part to insufficient manpower in the Zimbabwe public health system. This training program will enable Zimbabwe to develop and place epidemiologists who are better equipped to address epidemics.

C. Availability of Funds

Approximately \$500,000 is available in FY 2001 to fund one award. It is expected that this level of funding will be available each year. It is expected that the awards will begin on or about September 2001 and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may change, based on

performance and the availability of funds.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Title: TANF Time Limits Questionnaire.

OMB No: New Collection.

Description: The imposition of federally imposed time limits on the receipt of cash assistance under the Temporary Assistance to Needy Families (TANF) program was a central and major part of welfare reform. The earliest that TANF recipients could be affected by the 60-month federal limit will be in the last quarter of 2001. The purpose of the TANF Time Limits project is to document what is known about this important element of welfare reform as the period for TANF re-authorization approaches. The proposed survey instrument is intended to obtain "real-time" information from those states in which TANF recipients could have reached the 60 month limit on receipt of federally funded assistance in the last quarter of calendar year 2001. The instrument is designed to gather preliminary information about the number of families accumulating 60 months of benefits, the outcomes for such families (*e.g.*, cases closed, benefits extended with Federal funds, benefits extended with State funds), and the policies and practices of states to work with families approaching or reaching the federal time limit.

Respondents: The primary respondents for the questionnaire are those States that implemented TANF before February 1997. States that implemented TANF later may also be surveyed.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses	Average burden hours per response	Total burden hours
TANF time limits	35	1	8	280
Estimated Total Annual Burden Hours				280

In compliance with the requirements of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of

information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests

should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have

practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.
