

voluntary, any payments and expenditures States make or incur on behalf of the program that are not reimbursed by the Federal government are made voluntarily. This notice will not create an unfunded mandate on States, tribal, or local governments. Therefore, we are not required to perform an assessment of the costs and benefits of these regulations.

Under Executive Order 12612, Federalism, we have reviewed this notice and determined that it does not significantly affect States' rights, roles, and responsibilities.

Low-income children will benefit from payments under this program through increased opportunities for health insurance coverage.

We believe this notice will have an overall positive impact by informing States, the District of Columbia, and U.S. Territories and Commonwealths of the extent to which they are permitted to expend funds under their child health plans using their FY 2001 allotments.

In accordance with the provisions of Executive Order 12866, this notice was reviewed by the Office of Management and Budget.

Federal Land Managers' Air Quality Related Values Work Group (FLAG)

AGENCY: National Park Service, Interior.

ACTION: Notice of availability of final report.

SUMMARY: The National Park Service, in cooperation with the U.S. Fish and Wildlife Service and the U.S. Department of Agriculture Forest Service, is announcing the availability of the final FLAG Phase I Report, and the accompanying Response to Public Comments document.

At the request of permit applicants and State and Federal permit review authorities, the Federal Land Managers (FLMs) (*i.e.*, National Park Service, U.S. Fish and Wildlife Service, and U.S. Department of Agriculture Forest Service) formed the Federal Land Managers' Air Quality Related Values Work Group (FLAG) to develop a more consistent approach for evaluating air pollution effects on their resources. The FLAG effort focused on how air pollutants, such as ozone, particulate matter, nitrogen dioxide, sulfur dioxide, nitrates, and sulfates, could affect the health and status of resources in areas managed by the three agencies. FLAG formed subgroups that concentrated on four issues: (1) Terrestrial effects of ozone; (2) aquatic and terrestrial effects of wet and dry pollutant deposition; (3) visibility; and (4) process and policy issues. The final report contains issue-specific technical and policy analyses, recommendations for evaluating air quality related values, and guidelines for completing and evaluating new source review permit applications. In developing the final recommendations and guidelines, the FLMs considered public comments received at a public meeting and during a 90-day public comment period. The FLMs have prepared a companion report that summarizes and responds to the public comments received.

The FLMs recognize that permit applications may be at various stages of preparation, and may be based on previous guidance provided by the FLMs. Therefore, to "grandfather" those
