Establishment of Class E Airspace: Hagerstown, MD

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Hagerstown, MD. Controlled airspace extending upward from the surface is needed to accommodate operations under Instrument Flight Rules (IFR) at the airport when the Air Traffic Control Tower (ATCT) is not in operation.

EFFECTIVE DATE: 0901 UTC July 12, 2001.

FOR FURTHER INFORMATION CONTACT: Mr. Francis Jordan, Airspace Specialist, Airspace Branch, AEA–520, Air Traffic Division, Eastern Region, Federal Aviation Administration, 1 Aviation Plaza, Jamaica, New York 11434–4809, telephone: (718) 553–4521.

SUPPLEMENTARY INFORMATION:

History

On February 28, 2001, a notice of proposed rulemaking to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing Class E airspace extending upward from the surface to and including 3200 feet MSL within a 4.1 mile radius of Washington County Regional Airport was published in the **Federal Register** (66 FR 12741–12742). The Class E2 airspace area is effective during the specific dates and times when the Class D airspace is not in effect.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA on or before March 30, 2001. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83.

Class E airspace areas designations for airspace extending upward from the surface of the earth are published in paragraph 6002 of FAA Order 7400.9H, dated September 1, 2000 and effective September 16, 2000, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published in the order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) provides controlled Class E airspace extending upward from the surface for aircraft conducting IFR operations at the Washington County Regional Airport, Hagerstown, MD at times when the ATCT is closed.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air

traffic procedures and air navigation, it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
