After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and services and impact of the additions on the current or most recent contractors, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

In response to numerous public comments, the Census Bureau is reopening the comment period for 30 days. In addition, the Census Bureau is including corrections, clarifications, and additional information to its original notice.

DATES: Comments must be received by August 27, 2001.

ADDRESSES: Address all written comments to the Director, U.S. Census Bureau, Room 2049, Federal Building 3, Washington, DC 20233-0001.

SUPPLEMENTARY INFORMATION: On March 28, 2001 (66 FR 17018), the Census Bureau published a Notice of Proposed Criteria and Request for Public Comment concerning its proposed criteria for defining urban and rural population. In response to numerous public comments, the Census Bureau is reopening the comment period for 30 days. In addition, the Census Bureau is including corrections, clarifications, and additional information to its original notice.

Note: None of the following information represents a substantive change to the original proposed criteria.

Corrections

The Census Bureau is providing the following corrections to the original notice.

Page 17018, Column 3, Section I.A.3., fourth line of that section: “* * * that are contiguous with the census BGs and census blocks identified * * *.” is corrected to read “* * * that are contiguous with the census BGs identified * * *.” This correction is being made to correct an error that referenced census blocks.

Page 17019, Column 1, Section I.B., first line of that section: “Census BGs and/or census blocks adjacent to a UA or UC core consists of the following:” is corrected to read, “Census BGs and/or census blocks that are noncontiguous to the interim core of a UA or UC (area defined by criteria I.A.1. through 7.) may be added to the UA or UC as follows:” This correction is being made to clarify the spatial relationship of nearby BGs and census blocks to UA and UC cores by using the term “noncontiguous” instead of “adjacent,” and also to provide a better identification of the version of the UA and UC cores at this stage of delineation.

Page 17019, Column 2, Section I.B.2.a.(1), first line of that section: “adjacent to” is corrected to read “conjoint with.” This is to clarify the spatial relationship of a qualifying area to a road connection.

Page 17019, Column 2, Section I.B.2.a.(3), fifteenth line of that section: “I.B.1.b.” is corrected to read “I.B.2.a.” This is to correct a typographical error.

Page 17019, Column 2, Section I.B.2.b.(2), ninth line of that section: “I.B.1.b.” is corrected to read “I.B.2.b.” This is to correct a typographical error.

Page 17019, Column 2, Section I.B.2.c., first line of that section: “The Census Bureau will include uninhabitable territory to the main body of the core or adjacent qualifying territory if the area to connect it is within 5 road miles, and as long as the

5 miles include no more than 2.5 miles of otherwise habitable territory” is corrected to read, “The Census Bureau will include additional densely settled noncontiguous area in a UA or UC using a connection of up to 5 road miles, provided that the connection contains uninhabitable territory and that no more than 2.5 miles of the road connection is across habitable territory.” This correction is provided to clarify the criteria for linking a qualifying area to a UA or UC core via a jump that includes uninhabitable territory.

Page 17019, Column 2, footnote 6, first line of that footnote:

“Uninhabitable territory is defined as territory in which residential development is not possible; that is, it consists of bodies of water, national parks and monuments, and military installations’ is corrected to read, “Uninhabitable territory is defined as territory within bodies of water, national parks and monuments, and military bases where residential development is not possible.” This correction is provided to clarify the definition of uninhabitable territory.

Page 17019, Column 3, Section I.B.2.c.(2), eighth line of that section: “I.B.1.a.” is corrected to read “I.B.2.b.” This is to correct a typographical error.

Page 17022, Column 1, Section VII.C., first data line in the table: “Bristol, VA” is corrected to read “Bristol, TN—Bristol, VA.” This is to correct a typographical error.

Page 17022, Column 1, Section VII.C., second data line in the table: “47,282” is corrected to read “37,720.” This is to correct a computation error that mistakenly included population from the St. Simons area.

Page 17022, Column 2, Section VII.A., first line of that section: “A.” is corrected to read “D.” This is to correct a typographical error.

Clarifications

In response to many questions regarding the application of the criteria, the Census Bureau is providing the following clarifications of the proposed criteria.

Page 17019, Column 1, Section I.A.4.: This section applies to building the initial core of a UA or UC by adding blocks with a minimum population density of 500 people per square mile (ppsm) to those areas that qualify based on the criteria in Sections I.A.1. through 3. To clarify, all blocks that have the minimum density of 500 ppsm and are contiguous to each other are added in their entirety to the initial core, as long as one of these blocks is contiguous to a block or BG that qualifies based on the criteria in Sections I.A.1. through 3.
