

2. In § 989.173, paragraph (d)(1)(iii) is revised, paragraphs (g), (h), and (i) are redesignated as paragraphs (h), (i), and (j), and a new paragraph (g) is added to read as follows:

§ 989.173 Reports.

* * * * *

(d) * * *

(1) * * *

(iii) The varietal type of raisin, with organically produced raisins as specified in paragraph (g) of this section separated out, net weight, and condition of the raisins transferred; and

* * * * *

(g) *Organically produced raisins.* For purposes of this section, organically produced raisins means raisins that have been certified by an organic certification organization currently registered with the California Department of Food and Agriculture, or such certifying organization accredited under the National Organic Program. Handlers of such raisins shall submit the following reports to the Committee.

(1) *Inventory report of organically produced raisins.* Each handler shall submit to the Committee by the close of business on July 31 of each crop year, and not later than the following August 6, on an appropriate form provided by the Committee, a report showing, with respect to the organically produced raisins held by such handler:

(i) The quantity of free tonnage raisins, segregated as to locations where they are stored and whether they are natural condition or packed;

(ii) The quantity of reserve tonnage raisins held for the account of the Committee;

(iii) The quantity of off-grade raisins segregated as to those for reconditioning and those for disposition as such.

(2) *Acquisition report of organically produced standard raisins.* Each handler shall submit to the Committee for each week (Sunday through Saturday or such other 7-day period for which the handler has submitted a proposal to and received approval from the Committee) and not later than the following Wednesday, on an appropriate form provided by the Committee, a report showing the following:

(i) The total net weight of the standard raisins acquired during the reporting period, segregated when appropriate, as to free tonnage and reserve tonnage;

(ii) The location of the reserve tonnage; and

(iii) The cumulative totals of such acquisitions (as so segregated) from the beginning of the current crop year.

(iv) Upon request of the Committee, each handler shall provide copies of the

organic certificate(s) applicable to the quantity of raisins reported as acquired.

(3) *Disposition report of organically produced raisins.* No later than the seventh day of each month, handlers who are not processors shall submit to the Committee, on an appropriate form provided by the Committee, a report showing the aggregate quantity of free tonnage packed raisins and standard natural condition raisins which were shipped or otherwise disposed of by such handler during the preceding month (exclusive of transfer within the State of California between the plants of any such handler and from such handler to other handlers). Such information shall include:

(i) Domestic outlets (exclusive of Federal government purchases) according to the quantity shipped in consumer cartons, the quantity of bags having a net weight content of 4 pounds or less, and the quantity shipped in bulk packs (including, but not limited to those in bags having a net weight content of more than 4 pounds);

(ii) Federal government purchases;

(iii) Export outlets according to quantity shipped in consumer cartons, the quantity shipped in bags having a net weight of 4 pounds or less, and the quantity shipped in bulk packs (including, but not limited to, those in bags having a net weight content of more than 4 pounds);

(iv) Export outlets, by countries of destination; and

(v) Each of any other outlets in which the handler disposed of such raisins other than by any transfer which is excluded by the preceding sentence.

BILLING CODE 3410-02-P

NUCLEAR REGULATORY COMMISSION

10 CFR Part 51

RIN 3150-AD63

Environmental Review for Renewal of Nuclear Power Plant Operating Licenses; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule: Correcting amendment.

SUMMARY: This document contains a correction to the final regulations that

were published in the **Federal Register** on June 5, 1996 (61 FR 28467), subsequently amended on December 18, 1996 (61 FR 66537), and reflected in the January 1, 2001, revision of the Code of Federal Regulations. This action corrects the regulations by adding an inadvertently omitted word. This correction is necessary to provide clarity and consistency in the regulations.

DATES: Effective July 30, 2001.

FOR FURTHER INFORMATION CONTACT:

Barry Zalzman, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2419 (e-mail: BXZ@nrc.gov).

SUPPLEMENTARY INFORMATION:

Background

On June 5, 1996 (61 FR 28467), a final rule "Environmental Review for Renewal of Nuclear Power Plant Operating Licenses" was published in the **Federal Register**. The purpose of the rule was to amend the regulations regarding environmental protection for domestic licensing and related regulatory functions in 10 CFR part 51 to establish new requirements for the environmental review of applications to renew the operating licenses of nuclear power reactors. The rule was based on the analyses conducted and conclusions reported in NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS). The GEIS examines the environmental impacts that could occur as a result of renewing licenses of individual nuclear power plants under 10 CFR part 54, assessing a total of 92 issues. The findings regarding each of the 92 issues are summarized in 10 CFR part 51, Appendix B to Subpart A, Table B-1 "Summary Of Findings on NEPA Issues For License Renewal Of Nuclear Power Plants."

After the final rule was published, an error was discovered in Table B-1 in the findings for the issue entitled "Offsite radiological impacts (collective effects)" under the heading of "Uranium Fuel Cycle and Waste Management." The findings for "Offsite radiological impacts (collective effects)" correctly state that the 100 year environmental dose commitment to the U.S. population from the fuel cycle is calculated to be 14,800 person rem for each additional 20-year power reactor operating term. The findings, however, appear to include high level waste and spent fuel disposal in the calculation. It was the intent of the NRC to specify that high level waste and spent fuel disposal were excluded from this calculation, but the word "excepted" was inadvertently

omitted. This intent is evident in Table B-1 as there is a separate finding for the issue of "Offsite radiological impacts (spent fuel and high level waste disposal)," which is the issue immediately following the issue under discussion, that of "Offsite radiological impacts (collective effects)." Moreover, the correct wording was included in the text in the Supplementary Information section of the June 5, 1996 final rule (61FR 28478), but was inadvertently omitted from the findings when placed into the Table format, (61 FR 28494).

Need for Correction

As published, the Code of Federal Regulations contain an error which is misleading and needs to be corrected.

List of Subjects in 10 CFR Part 51

Administrative practice and procedure, Environmental impact statement, Nuclear materials, Nuclear power plants and reactors, Reporting and recordkeeping requirements.

For the reasons set out in the preamble and under the authority of the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the NRC is making the following correcting amendment to 10 CFR part 51.

PART 51—ENVIRONMENTAL PROTECTION REGULATIONS FOR DOMESTIC LICENSING AND RELATED REGULATORY FUNCTIONS

1. The authority citation for Part 51 continues to read as follows:

Authority: Sec. 161, 68 Stat. 948, as amended, sec. 1701, 106 Stat. 2951, 2952, 2953 (42 U.S.C. 2201, 2297f); secs. 201, as amended, 202, 88 Stat. 1242, as amended, 1244 (42 U.S.C. 5841, 5842). Subpart A also issued under National Environmental Policy Act of 1969, secs. 102, 104, 105, 83 Stat. 853-854, as amended (42 U.S.C. 4332, 4334, 4335); and Pub. L. 95-604, Title II, 92 Stat. 3033-3041; and sec. 193, Pub. L. 101-575, 104 Stat. 2835 (42 U.S.C. 2243). Sections

51.20, 51.30, 51.60, 51.80, and 51.97 also issued under secs. 135, 141, Pub. L. 97-425, 96 Stat. 2232, 2241, and sec. 148, Pub. L. 100-203, 101 Stat. 1330-223 (42 U.S.C. 10155, 10161, 10168). Section 51.22 also issued under sec. 274, 73 Stat. 688, as amended by 92 Stat. 3036-3038 (42 U.S.C. 2021) and under Nuclear Waste Policy Act of 1982, sec. 121, 96 Stat. 2228 (42 U.S.C. 10141). Sections 51.43, 51.67, and 51.109 also under Nuclear Waste Policy Act of 1982, sec 114(f), 96 Stat. 2216, as amended (42 U.S.C. 10134(f)).

2. In appendix B to subpart A to 10 CFR part 51, Table B-1, the first sentence of findings section for the Offsite radiological impacts (collective effects) issue under the Uranium Fuel Cycle and Waste Management section is corrected to read as follows:

Appendix B To Subpart A—Environmental Effect of Renewing the Operating License of a Nuclear Power Plant

* * * * *

TABLE B-1.—SUMMARY OF FINDINGS ON NEPA ISSUES FOR LICENSE RENEWAL OF NUCLEAR POWER PLANTS

Issue	Category	Findings
* * * * *		
Uranium Fuel Cycle and Waste Management		
* * * * *		
Offsite radiological impacts (collective effects).	1	The 100 year environmental dose commitment to the U.S. population from the fuel cycle, high level waste and spent fuel disposal excepted, is calculated to be about 14,800 person rem, or 12 cancer fatalities, for each additional 20-year power reactor operating term. * * *

BILLING CODE 7590-01-P

DEPARTMENT OF TRANSPORTATION
Coast Guard
33 CFR Part 117
[CGD01-01-121]
Drawbridge Operation Regulations:
Piscataqua River, ME
AGENCY: Coast Guard, DOT.

ACTION: Notice of temporary deviation from regulations.
SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the Memorial (US 1) Bridge, mile 3.5, across the Piscataqua River between Kittery, Maine and Portsmouth, New Hampshire. This deviation from the regulations, effective on July 26, 30 and 31, 2001, allows the bridge to need not open for vessel traffic between 5 a.m. and 5 p.m. This temporary deviation is necessary to facilitate necessary repairs at the bridge.
DATES: This deviation is effective from July 26 through July 31, 2001.
FOR FURTHER INFORMATION CONTACT: John McDonald, Project Officer, First Coast Guard District, at (617) 223-8364.
SUPPLEMENTARY INFORMATION: The Memorial (US 1) Bridge, at mile 3.5, across the Piscataqua River has a vertical clearance in the closed position

of 11 feet at mean high water and 19 feet at mean low water. The existing drawbridge operating regulations are at 33 CFR 117.531.
The bridge owner, New Hampshire Department of Transportation (NHDOT), requested a temporary deviation from the drawbridge operating regulations to facilitate replacement of the bridge lift cables for the bridge.
This deviation to the operating regulations, effective from July 26 through July 31, 2001, allows the Memorial (US 1) Bridge to need not open for vessel traffic between 5 a.m. and 5 p.m. on July 26, 30, and 31.
The bridge owner did not provide the required thirty-day notice to the Coast Guard for this temporary deviation; however, this deviation was approved because the repairs are considered to be vital unscheduled repairs that must be performed without delay to insure bridge operating safely and to prevent
