

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notice with a 60-day comment period was published on January 8, 2001 [66 FR 1369–1371].

DATES: Comments must be submitted on or before August 30, 2001.

FOR FURTHER INFORMATION CONTACT: Henrietta Spinner at the National Highway Traffic Safety Administration, Office of Safety Performance Standards (NPS–20), 202–366–4802. 400 Seventh Street, SW, Room 6240, Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: 49 CFR Part 583–Motor Vehicle Content Labeling.

OMB Number: 2127–0573.

Type of Request: Extension of a currently approved collection.

Abstract: NHTSA ensures that automobile manufacturers comply with 49 CFR Part 583–Automobile Parts Content Labeling. Part 583 establishes requirements for the disclosure of information relating to the countries of origin of the equipment of new passenger motor vehicles.

Affected Public: Business of other for profit organizations.

Estimated Total Annual Burden: 47,918.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725–17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on July 25, 2001.

Herman L. Simms,

Associate Administrator for Administration.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA–01–8906; Notice 02]

RIN 2127–AI06

Final Theft Data; Motor Vehicle Theft Prevention Standard

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Publication of final theft data.

SUMMARY: This document publishes the final data on thefts of model year (MY) 1999 passenger motor vehicles that occurred in calendar year (CY) 1999. The final 1999 theft data indicate an increase in the vehicle theft rate when compared to the theft rate experienced in CY/MY 1998. The final theft rate for MY 1999 passenger vehicles stolen in calendar year 1999 (2.89 thefts per thousand vehicles produced) increased by 14.2 percent from the theft rate for CY/MY 1998 vehicles (2.53 thefts per thousand vehicles produced). Publication of these data fulfills NHTSA's statutory obligation to periodically obtain accurate and timely theft data and publish the information for review and comment.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah Mazyck, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Mazyck's telephone number is (202) 366–0846. Her fax number is (202) 493–2290.

SUPPLEMENTARY INFORMATION: NHTSA administers a program for reducing motor vehicle theft. The central feature of this program is the Federal Motor Vehicle Theft Prevention Standard, 49 CFR Part 541. The standard specifies performance requirements for inscribing and affixing vehicle identification numbers (VINs) onto certain major original equipment and replacement parts of high-theft lines of passenger motor vehicles.

The agency is required by 49 U.S.C. 33104(b)(4) to periodically obtain, from the most reliable source, accurate and timely theft data and publish the data for review and comment. To fulfill this statutory mandate, NHTSA has published theft data annually beginning

with MYs 1983/84. Continuing to fulfill the § 33104(b)(4) mandate, this document reports the final theft data for CY 1999, the most recent calendar year for which data are available.

In calculating the 1999 theft rates, NHTSA followed the same procedures it used in calculating the MY 1998 theft rates. (For 1998 theft data calculations, see 65 FR 40721, June 30, 2000.) As in all previous reports, NHTSA's data were based on information provided to NHTSA by the National Crime Information Center (NCIC) of the Federal Bureau of Investigation. The NCIC is a government system that receives vehicle theft information from nearly 23,000 criminal justice agencies and other law enforcement authorities throughout the United States. The NCIC data also include reported thefts of self-insured and uninsured vehicles, not all of which are reported to other data sources.

The 1999 theft rate for each vehicle line was calculated by dividing the number of reported thefts of MY 1999 vehicles of that line stolen during calendar year 1999 by the total number of vehicles in that line manufactured for MY 1999, as reported to the Environmental Protection Agency (EPA).

The final 1999 theft data show an increase in the vehicle theft rate when compared to the theft rate experienced in CY/MY 1998. The final theft rate for MY 1999 passenger vehicles stolen in CY 1999 increased to 2.89 thefts per thousand vehicles produced, an increase of 14.2 percent from the rate of 2.53 thefts per thousand vehicles experienced by MY 1998 vehicles in CY 1998. For MY 1999 vehicles, out of a total of 201 vehicle lines, 54 lines had a theft rate higher than 3.5826 per thousand vehicles, the established median theft rate for MYs 1990/1991. (See 59 FR 12400, March 16, 1994.) Of the 54 vehicle lines with a theft rate higher than 3.5826, 50 are passenger car lines, four are multipurpose passenger vehicle lines, and none are light-duty truck lines.

On Wednesday, March 14, 2001, NHTSA published the preliminary theft rates for CY 1999 passenger motor vehicles in the **Federal Register** (66 FR 14979). The agency tentatively ranked each of the MY 1999 vehicle lines in descending order of theft rate. The public was requested to comment on the accuracy of the data and to provide final production figures for individual vehicle lines. The agency received written comments from Volkswagen of America, Inc. (VW). The agency used VW's written comments to make the necessary adjustments to its data. As a

result of the adjustments, some of the final theft rates and rankings of vehicle lines changed from those published in the March 2001 notice.

In its comments, VW informed the agency that the production volume for the VW Cabrio vehicle line was incorrect. In response to this comment, the production volume for the VW Cabrio has been corrected and the final theft list has been revised accordingly. As a result of the correction, the VW Cabrio previously ranked No. 111 with a theft rate of 1.8398, is now ranked No. 159 with a theft rate of 1.0181.

Additionally, VW informed the agency that the production volumes for the Rolls Royce Silver Spur and the Rolls Royce Silver Spur Park Ward were interchanged. In response to this comment, the production volumes for the Rolls Royce Silver Spur and the Rolls Royce Silver Spur Park Ward have been corrected and the final theft list has been revised accordingly. As a result of the correction, the Rolls Royce Silver Spur with a production volume of two has been revised to reflect a production volume of 51, and the Rolls

Royce Silver Spur Park Ward with a production volume of 51 has been revised to reflect a production volume of two.

The following list represents NHTSA's final calculation of theft rates for all 1999 passenger motor vehicle lines. This list is intended to inform the public of calendar year 1999 motor vehicle thefts of model year 1999 vehicles and does not have any effect on the obligations of regulated parties under 49 U.S.C. Chapter 331, Theft Prevention.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Ex Parte No. 552 (Sub-No. 5)]

Railroad Revenue Adequacy—2000 Determination

AGENCY: Surface Transportation Board.

ACTION: Notice of decision.

SUMMARY: On July 31, 2001, the Board served a decision announcing the 2000 revenue adequacy determinations for the Nation's Class I railroads. No carrier is found to be revenue adequate.

EFFECTIVE DATE: This decision is effective July 31, 2001.

FOR FURTHER INFORMATION CONTACT: Leonard J. Blistein, (202) 565-1529. [TDD for the hearing impaired: (800) 877-8339.]

SUPPLEMENTARY INFORMATION: The Board is required to make an annual determination of railroad revenue adequacy. A railroad is considered revenue adequate under 49 U.S.C. 10704(a) if it achieves a rate of return on net investment equal to at least the current cost of capital for the railroad industry for 2000, determined to be 11.0% in *Railroad Cost of Capital—2000*, STB Ex Parte No. 558 (Sub-No. 4) (STB served July 2, 2001). This revenue adequacy standard was applied to each

Class I railroad, and no carrier was found to be revenue adequate for 2000.

Additional information is contained in the Board's formal decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Da 2 Da Legal, Room 405, 1925 K Street, NW., Washington, DC 20423. Telephone: 202 293-7776, Fax 202 293-0770. Assistance for the hearing impaired is available through TDD services 1-800-877-8339. The decision is also available on the Board's internet site, www.stb.dot.gov.

Environmental and Energy Considerations

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

Regulatory Flexibility Analysis

Pursuant to 5 U.S.C. 603(b), we conclude that our action in this proceeding will not have a significant economic impact on a substantial number of small entities. The purpose and effect of the action is merely to update the annual railroad industry revenue adequacy finding. No new reporting or other regulatory requirements are imposed, directly or indirectly, on small entities.

Decided: July 25, 2001.

By the Board, Chairman Morgan, Vice Chairman Clyburn, and Commissioner Burkes.

Vernon A. Williams,
Secretary.
