National Institutes of Health

National Institute of Diabetes and Digestive and Kidney Diseases; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552(b)(3)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Diabetes and Digestive and Kidney Diseases Special Emphasis Panel, ZDK1 GRB-7 O1.

Date: August 22-24, 2001.

Time: 8:30 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: Doubletree Hotel, 300 Army Navy Drive, Arlington, VA 22202.

Contact Person: Lakshmanan Sankaran, PhD, Scientific Review Administrator, Review Branch, DEA, NIDDK, Room 754, 6707 Democracy Boulevard, National Institutes of Health, Bethesda, Md 20892-6600, (301) 594-7799.

(Catalogue of Federal Domestic Assistance Program Nos. 93.847, Diabetes, Endocrinology and Metabolic Research; 93.848, Digestive Diseases and Nutrition Research; 93.849, Kidney Diseases, Urology and Hematology Research, National Institutes of Health, HHS)

Dated: July 25, 2001.

LaVerne Y. Stringfield,

Director, Office of Federal Advisory Committee Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Participant Feedback Forms for Two CMHS Mental Health Education Training Initiatives—New—This project will collect feedback from mental health professionals who receive training from any of SAMHSA's Center for Mental Health Services-supported Minority Community Based Organizations or Behavioral Health Professional Association contractors. The forms to be used to collect the feedback are refined versions of feedback forms required for use by the Mental Health Care Provider Education in HIV/AIDS Program II and approved by OMB under control number 0930-0195.

The range of mental health issues covered is broad and, depending on the needs of the audiences, the training sites may use any of the following types of curricula: general, ethics, neuropsychiatric, neuropsychiatric designed for non-psychiatrists, and an adherence curriculum. Education sites also vary the complexity and intensity of the training sessions, resulting in sessions of variable length. Service providers attending sessions shorter than 6 hours will provide feedback by completing a single form at the end of

the training session. Those attending sessions 6 hours or longer will be asked to complete forms both before and after the training session in order to assess both satisfaction and perceived knowledge gain. Education sites funded under these initiatives will vary considerably in their prior experience in conducting trainings, with some organizations having significant prior experience while others will be developing their training programs. The burden estimates below incorporate and reflect reasonable assumptions regarding the volume, type and length of training sessions conducted by the various organizations likely to be funded under these two initiatives.

The Minority HIV/AIDS Mental Health Services Initiative is expected to be comprised of 12 minority community-based organizations providing mental health HIV/AIDS education trainings to traditional and non-traditional mental health service providers. Estimates of the numbers of mental health professionals trained and types of training sessions conducted are based on the assumption that half (6) of the funded education sites will be existing education programs and the other half will be new education sites. The six new education sites are expected to train about 300 individuals annually using the general curriculum (and corresponding form—The Participant Feedback Form) with their training sessions being less than 6 hours long. These sites will conduct, on average about 15 training sessions per year with approximately 20 people attending each session.

The remaining six sites are expected to be education sites with existing education training programs and are expected to conduct a total of 25 training sessions each per year with about 20 individuals attending each training session. These six sites should therefore train a total 500 individuals each per year. The majority of these sessions will be less than 6 hours long (about 76% or 19 sessions of the 25 sessions). In contrast to the new education sites, however, these sites are likely to use all of the following curricula: general, ethics, neuropsychiatric, neuropsychiatric

designed for non-psychiatrists, and the adherence curriculum. Of the 19 training sessions that are shorter than 6 hours, 10 are expected to use the general curriculum, 3 will use the adherence curriculum, and 2 sessions each for the ethics, neuropsychiatric, neuropsychiatric for non-psychiatrists. Four of the 6 sessions that are longer than 6 hours are expected to use the general curriculum and corresponding pre/post participant forms, and 2 will use the neuropsychiatric curriculum with the accompanying corresponding pre/post neuropsychiatric participant forms. Burden estimates are presented in Table 1 below.

The Behavioral Health Professional Health Association Training Initiative is a continuation effort. This initiative will consist of three Associations providing training to mental health professionals both within and outside of their disciplines. These Associations are required to train a minimum of 1,000 mental health professionals per year using the general, ethics, neuropsychiatric, neuropsychiatric for non-psychiatrists, and adherence curricula. They all have prior experience training mental health professionals and will conduct sessions that are of variable length (i.e., shorter and longer than 6 hours long). Each Association will conduct about 57 trainings per year, the majority of which (about 90% or about 51 training sessions) will be less than 6 hours long. Of the shorter trainings, each Association will conduct about 20 using the general curriculum, 6 using the ethics curriculum, 12 using the neuropsychiatric curriculum, 9 using the adherence curriculum and 4 using the neuropsychiatric curriculum for non-psychiatrists. The appropriate post-training feedback form will be administered to trainees after each session. Each Association will also conduct about 6 longer trainings per year; 4 using the neuropsychiatric curriculum and 2 using the general curriculum. The corresponding pre/post feedback form will be administered at each training session. Table 2 below uses these assumptions to calculate the burden estimate.

TABLE 1.—MINORITY HIV/AIDS MENTAL HEALTH SERVICES INITIATIVE

Form	Responses/ respondent	Estimated number of respondents	Estimated hours/re- sponse	Total
Minority HIV/AIDS Mental Health Services Initiative—12 Sites				
All Sessions—One form per session completed by Program staff/trainer				
Session Report Form	1	240	0.08	19
