BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-244]

Rochester Gas and Electric Corporation, R.E. Ginna Nuclear Power Plant; Notice of Consideration of Approval of Application Regarding Proposed Merger and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of Facility Operating License No. DPR-18 for the R.E. Ginna Nuclear Power Plant (Ginna Station) held by Rochester Gas and Electric Corporation (RG&E). The indirect transfer would result from the planned acquisition of RG&E's parent company, RGS Energy Group, Inc. (RGS), by Energy East Corporation (Energy East).

In February 2001, RGS and Energy East entered into an agreement pursuant to which RGS would be merged with and into a wholly owned subsidiary of Energy East. Subsequent to consummation of the planned merger transaction, RG&E will continue to exist as a wholly owned indirect subsidiary of Energy East.

According to an application filed by RG&E, RG&E would continue to own Ginna Station following approval of the proposed indirect transfer of the license, and would continue to be exclusively responsible for the operation, maintenance, and eventual decommissioning of the facility. No physical changes to the facility or operational changes are being proposed in the application.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall

give its consent in writing. The Commission will approve an application for the indirect transfer of a license if the Commission determines that the underlying transaction effecting the indirect transfer will not affect the qualifications of the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By September 3, 2001, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon: Daniel F. Stenger, Esq., Foley & Lardner, 888 16th Street, NW., Washington, DC 20006 (e-mail: dstenger@foleylaw.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal**

Register and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by September 13, 2001, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated June 22, 2001, available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/ADAMS/index.html>.

If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to pdr@nrc.gov.

Dated at Rockville, Maryland this 7th day of August 2001.

For the Nuclear Regulatory Commission.

Robert L. Clark,

Project Manager, Section 1, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-410]

Rochester Gas and Electric Corporation; Nine Mile Point Nuclear Station, Unit No. 2; Notice of Consideration of Approval of Application Regarding Proposed Merger and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of Facility Operating License No. NPF-69 for Nine Mile

Nuclear Station, Unit No. 2 (NMP-2), to the extent held by Rochester Gas and Electric Corporation (RG&E). The indirect transfer would result from the planned acquisition of RG&E's parent company, RGS Energy Group, Inc. (RGS), by Energy East Corporation (Energy East).

In February 2001, RGS and Energy East entered into an agreement pursuant to which RGS would be merged with and into a wholly owned subsidiary of Energy East. Subsequent to consummation of the planned merger transaction, RG&E will continue to exist as a wholly owned indirect subsidiary of Energy East.

According to an application filed by RG&E, RG&E would continue to own its current 14 percent undivided ownership interest in NMP-2 notwithstanding the merger. RG&E is licensed to possess (along with several other co-owners of NMP-2) but not operate NMP-2. Niagara Mohawk Power Corporation (NMP-2)'s status as the facility licensed operator would not change by reason of the RGS merger and acquisition.

The NRC has recently approved certain direct NMP-2 license transfers involving RG&E, in addition to other co-owners of NMP-2. See Order Approving Transfer of Licenses and Conforming Amendments, 66 FR 34723 (2001). If such direct license transfers are consummated prior to completion of the NRC staff's action on the instant application filed by RG&E with respect to NMP-2, the request for approval of the indirect transfer of the NMP-2 license as held by RG&E would become moot.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the indirect transfer of a license if the Commission determines that the underlying transaction effecting the indirect transfer will not affect the qualifications of the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By September 3, 2001, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicant, may petition for leave to

intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon: Daniel F. Stenger, Esq., Foley & Lardner, 888 16th Street, N.W., Washington, D.C. 20006 (e-mail: dstenger@foleylaw.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: OGCLT@NRC.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by September 13, 2001, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated June 22, 2001, available for public inspection

at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/ADAMS/index.html>. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by email to pdr@nrc.gov.

Dated at Rockville, Maryland this 7th day of August 2001.

For the Nuclear Regulatory Commission.

Peter S. Tam,

Senior Project Manager, Section 1, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.
