

a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulation.

Small Business Regulatory Enforcement Fairness Act

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule:

- a. Does not have an annual effect on the economy of \$100 million.
- b. Will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or

local government agencies, or geographic regions.

c. Does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S. based enterprises to compete with foreign-based enterprises.

This determination is based upon the fact that the State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation was not considered a major rule.

Unfunded Mandates

This rule will not impose a cost of \$100 million or more in any given year on any governmental entity or the private sector.

List of Subjects in 30 CFR Part 948

Intergovernmental relations, Surface mining, Underground mining.

Dated: July 30, 2001.

Allen D. Klein,

Regional Director, Appalachian Regional Coordinating Center.

For the reasons set out in the preamble, Title 30, Chapter VII, Subchapter T of the Code of Federal

Regulations is amended as set forth below:

PART 946—VIRGINIA

1. The authority citation for part 946 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. Section 946.12 is amended by revising the section heading and adding new paragraph (c) to read as follows:

§ 946.12 State program provisions and amendments not approved.

* * * * *

(c)(1) We are not approving the words, “or the UCP revision current at the time of issuance of the letter of credit,” in the definition of “Collateral bond,” paragraph (d), at 4 VAC 25–130–700.5; and

(2) We are not approving the words, “or revision current at the time of issuance of the letter of credit” at 4 VAC 25–130–800.21(c)(1).

3. Section 946.15 is amended by adding a new entry to the table in chronological order by “Date of final publication” to read as follows:

§ 946.15 Approval of Virginia regulatory program amendments.

* * * * *

Original amendment submission date	Date of final publication	Citation/description
* * September 22, 2000	* * [Insert date of publication in the Federal Register].	* * * 4 VAC 25–130–700.5 (partial approval); 800.21(a), (c)(1) (partial approval), (2) and (3), and (d).

§ 946.16 [Removed]

4. Section 946.16 is removed.

[FR Doc. 01–20903 Filed 8–17–01; 8:45 am]

BILLING CODE 4310–05–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA 207–0277a; FRL–7026–5]

Revision to the California State Implementation Plan, South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve a revision to the South Coast Air Quality Management District (SCAQMD) portion of the California State Implementation Plan (SIP). This revision concerns volatile organic

compound (VOC) emissions from Phase I gasoline transfer into stationary storage tanks and Phase II gasoline transfer into vehicle fuel tanks. We are approving a local rule that regulates this emission source under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: This rule is effective on October 19, 2001 without further notice, unless EPA receives adverse comments by September 19, 2001. If we receive such comments, we will publish a timely withdrawal in the **Federal Register** to notify the public that this rule will not take effect.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR–4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

You can inspect a copy of the submitted rule revision and EPA’s technical support document (TSD) at our Region IX office during normal business hours. You may also see a copy

of the submitted rule revision at the following locations:

Environmental Protection Agency, Air Docket (6102), Ariel Rios Building, 1200 Pennsylvania Avenue, N.W., Washington D.C. 20460
California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1001 “I” Street, Sacramento, CA 95814
South Coast Air Quality Management District, 21865 East Copley Drive, Diamond Bar, CA 91765

FOR FURTHER INFORMATION CONTACT: Al Petersen, Rulemaking Office (AIR–4), U.S. Environmental Protection Agency, Region IX; (415) 744–1135.

SUPPLEMENTARY INFORMATION:

Throughout this document, “we,” “us” and “our” refer to EPA.

Table of Contents

- I. The State’s Submittal
 - A. What rule did the State submit?
 - B. Are there other versions of this rule?
 - C. What is the purpose of the submitted rule revision?

- II. EPA's Evaluation and Action
- How is EPA evaluating the rule?
 - Does the rule meet the evaluation criteria?
 - EPA recommendations to further improve the rule
 - Public comment and final action

- III. Background information
- Why was this rule submitted?
- IV. Administrative Requirements

I. The State's Submittal

A. What Rule Did the State Submit?

Table 1 lists the rule we are approving with the date that it was adopted by the local air agency and submitted by the California Air Resources Board (CARB).

TABLE 1.—SUBMITTED RULE

Local Agency	Rule #	Rule title	Adopted	Submitted
SCAQMD	461	Gasoline Transfer and Dispensing	04/21/00	07/26/00

On October 4, 2000, this rule submittal was found to meet the completeness criteria in 40 CFR Part 51, Appendix V, which must be met before formal EPA review.

B. Are There Other Versions of this Rule?

We approved a version of Rule 461 into the SIP on October 7, 1996. See 61 FR 52297.

C. What Is the Purpose of the Submitted Rule Revision?

The purpose of the revision to Rule 461 is to revise the rule to include new CARB standards and more frequent reverification testing of vapor recovery equipment.

II. EPA's Evaluation and Action

A. How Is EPA Evaluating the Rule?

Generally, SIP rules must be enforceable (see section 110(a) of the CAA), must require Reasonably Available Control Technology (RACT) for major sources in nonattainment areas (see sections 182(a)(2)(A) and 182(b)(3)(A)), and must not relax existing requirements (see sections 110(l) and 193). The SCAQMD regulates an extreme ozone nonattainment area. See 40 CFR part 81. Therefore, Rule 461 must fulfill the requirements of RACT.

Guidance and policy documents that we used to define specific enforceability and RACT requirements include the following:

- Portions of the proposed post-1987 ozone and carbon monoxide policy that concern RACT, 52 FR 45044 (November 24, 1987).
- "Issues Relating to VOC Regulation Cutpoints, Deficiencies, and Deviations; Clarification to Appendix D of November 24, 1987 Federal Register Notice" (Blue Book), notice of availability published in the May 25, 1988 Federal Register.

Rule 461 was also evaluated against the EPA Draft *Model Rule, Gasoline Dispensing Facility-Stage II Vapor Recovery* (August 17, 1992). In evaluating RACT, EPA also considered

information published since the 1992 Draft *Model Rule*, including documents associated with development of CARB's *Enhanced Vapor Recovery Guidelines* (March 23, 2000). EPA, Region IX, has summarized RACT requirements in the EPA Draft *Gasoline Vapor Recovery Guidelines* (April 24, 2000).

B. Does the Rule Meet the Evaluation Criteria?

We believe that this rule is consistent with the relevant policy and guidance regarding enforceability, RACT, and SIP relaxations. Rule 461 is more stringent than the SIP. The TSD has more information on our evaluation.

C. EPA Recommendations To Further Improve the Rule

The TSD describes additional rule revisions that do not affect EPA's current action but are recommended for the next time the local agency modifies the rules.

D. Public Comment and Final Action

As authorized in section 110(k)(3) of the CAA, EPA is fully approving the submitted rule because we believe it fulfills all relevant requirements. We do not think anyone will object to this, so we are finalizing the approval without proposing it in advance. However, in the Proposed Rules section of this **Federal Register**, we are simultaneously proposing approval of the same submitted rule. If we receive adverse comments by September 19, 2001, we will publish a timely withdrawal in the **Federal Register** to notify the public that the direct final approval will not take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on October 19, 2001. This will incorporate these rules into the federally-enforceable SIP.

III. Background Information

A. Why Was This Rule Submitted?

VOCs help produce ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires states to submit regulations that control VOC emissions. Table 2 lists some of the national milestones leading to the submittal of these local agency VOC rules.

TABLE 2.—OZONE NONATTAINMENT MILESTONES

Date	Event
March 3, 1978	EPA promulgated a list of ozone non-attainment areas under the Clean Air Act as amended in 1977. 43 FR 8964; 40 CFR 81.305.
May 26, 1988	EPA notified Governors that parts of their SIPs were inadequate to attain and maintain the ozone standard and requested that they correct the deficiencies (EPA's SIP-Call). See section 110(a)(2)(H) of the pre-amended CAA.
November 15, 1990 ..	Clean Air Act Amendments of 1990 were enacted. Pub. L. 101-549, 104 Stat. 2399, codified at 42 U.S.C. 7401-7671q.
May 15, 1991	Section 182(a)(2)(A) requires that ozone nonattainment areas correct deficient RACT rules by this date.

IV. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the

Office of Management and Budget. This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4). This rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Act. This rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear

legal standard for affected conduct in issuing this rule. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. section 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. section 804(2).

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 19, 2001. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MD064/122/123-3069a; FRL-7021-3]

Approval and Promulgation of Air Quality Implementation Plans; Maryland; Administrative Revisions of General Provisions Related to Definitions of Terms and Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the Maryland State Implementation Plan (SIP). In this action, EPA is approving revisions which reorganize the structure of the general administrative provisions describing definitions of terms used throughout Maryland's air pollution control regulations, amend the definition of the term "source," and reorganize the provisions governing ambient air quality standards. EPA is approving these revisions to in accordance with the requirements of the Clean Air Act.

DATES: This rule is effective on October 19, 2001 without further notice, unless EPA receives adverse written comment by September 19, 2001. If EPA receives such comments, it will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

ADDRESSES: Written comments should be mailed to Harold A. Frankford, Office of Air Programs, Mail Code 3AP20, U.S. Environmental Protection Agency,
