

Mexico or Canada, but additionally, all other import purchases. The inclusion of this information would not have reversed the findings for criterion (3).

The UAW also submitted import data for automobiles that they believe are like or directly competitive with the Ford Escort, the automobile for which the Tower Automotive supplied parts. Under the Trade Act of 1974, as amended, the Department is required to examine the imports of articles like or directly competitive with those produced at the workers' firm. Consequently, for both the TAA and NAFTA-TAA petitions, the Department does not consider automobiles to be like or directly competitive with the stampings produced by the workers at Tower Automotive, Kalamazoo, Michigan.

#### Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decisions. Accordingly, the application is denied.

Signed at Washington, DC this 8th day of August 2001.

##### **Tower Automotive, Kalamazoo, Michigan; Affirmative Finding Regarding Qualification as a Secondly Affected Worker Group Pursuant to the Statement of Administrative Action Accompanying the North American Free Trade Agreement (NAFTA) Implementation Act**

The Department of Labor herein presents the results of an investigation regarding qualification as a secondarily-impacted firm, pursuant to the Statement of Administrative Action accompany the North American Free Trade Agreement (NAFTA) Implementation Act.

In order for an affirmative finding to be made, the following requirements must be met:

(1) The subject firm must be a supplier—such as of components,

unfinished or semifinished goods—to a firm that is directly affected by imports from Mexico or Canada of articles like or directly competitive with articles produced by that firm or shifts in production of such articles to those countries; or

(2) The subject firm must assemble or finish products made by a directly-impacted firm; and

(3) The loss of business with the directly-affected firm must have contributed importantly to worker separations at the subject firm.

The investigation revealed that requirements (1) and (3) are met.

The workers of Tower Automotive, Kalamazoo, Michigan, produced metal stampings.

Evidence revealed that the major customer for which the subject firm supplies stampings shifted production to Mexico to serve that market.

Based on this evidence, I determine that workers of Tower Automotive, Kalamazoo, Michigan, qualify as secondarily affected pursuant to the Statement of Administrative Action accompanying the North American Free Trade Agreement Implementation Act.

#### **Sappi Fine Paper Company, North America, Muskegon, Michigan; Notice of Negative Determination Regarding Application for Reconsideration**

By application dated April 30, 2001, the company requested reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on February 27, 2001, and published in the **Federal Register** on April 5, 2001 (66 FR 18117).

Pursuant to 28 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The investigation findings for the February 27 denial of TAA for workers of Sappi Fine Paper Company, producing coated paper used in commercial printing in Muskegon, Michigan showed that criterion (3) of the group eligibility requirements of Section 222 of the Trade Act of 1974, as amended, was not met. The investigation revealed that sales at Sappi Fine Paper Company increased from 1999 through 2000. There were no company imports of articles like or directly competitive with coated publication paper.

The petitioner asserts that increased foreign competition was a major factor in company layoffs because it has eroded the competitive position of the subject firm. However, declines in employment at the Sappi Paper Company are attributed to the company's decision to reorganize.

#### **Conclusion**

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.
