In this situation, the designated nonprofit agencies have communicated with the commenter as a possible subcontractor on this or other projects to be added to the Procurement List. Consequently, the Committee believes that it is complying with the commenter's alternative approach to the extent it is permitted to do so.

The following material pertains to all of the items being added to the Procurement List. After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and services and impact of the additions on the current or most recent contractors, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodity and services to the Government.

2. The action will not have a severe economic impact on current contractors for the commodity and services.

3. The action will result in authorizing small entities to furnish the commodity and services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the commodity and services proposed for addition to the Procurement List.

Accordingly, the following commodity and services are hereby added to the Procurement List:

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is required as the result of the amending of the Export Administration Regulations (15 CFR parts 730-799) (EAR) by revising the (EAR) requirements for exports and reexports contained in Sections 1211-1215 of the National Defense Authorization Act (NDAA) for fiscal year 1998 (P.L. 105-85, 111 Stat. 1629), signed by the President on November 18, 1997. There is one component of this information collection authorization, a *post-shipment report* on the export of high performance computers, as well as exports of items used to enhance previously exported or reexported computers, to Tier 3 countries, where the CTP is greater than 85,000 MTOPS for commodities shipped on or after March 20, 2001. (For commodities shipped prior to that date, lower reporting thresholds apply, per 15 CFR parts 740.7 and 742.12.) Exporters are required to provide a written report to BXA no later than the last day of the month following the month in which the export takes place. To simplify this process, BXA is developing an electronic form that will incorporate the relevant data elements and replace the written report, thereby standardizing the data format for the applicant, and enabling the use of information technology in the processing of the data.
