Request for Additional Information

The NTP would welcome receiving toxicology and carcinogenesis information from completed, ongoing or planned studies as well as current production data, human exposure information, and use patterns for any of the chemicals listed in this announcement. Please forward this information to CDM at the address given above. CDM will forward the information to the appropriate staff scientist.

NTP Technical and Toxicity Report Series

The NTP conducts toxicology and carcinogenesis studies of agents of public health concern. Any scientist, organization, or member of the public may nominate a chemical for NTP testing. Details about the nomination process are available on the NTP web site (<http://ntp-server.niehs.nih.gov>). The results of short-term rodent toxicology studies are published in the NTP Toxicity Report series. Longer-term studies, generally, two-year rodent studies, are published in the NTP Technical Report series. Study abstracts for all reports are available at the NTP web site under NTP Study Information. Hardcopies and PDF files of published reports can be obtained through subscription to the EHIS (<http://ehis.niehs.nih.gov> or 1-800-315-3010).

NTP Board of Scientific Counselors

The Board is a technical advisory body composed of scientists from the public and private sectors who provide primary scientific oversight and peer review to the overall Program. Specifically, the Board advises the NTP on matters of scientific program content, both present and future, and conducts periodic review of the Program for the purposes of determining and advising on the scientific merit of its activities and their overall scientific quality. The Technical Reports Review Subcommittee of the Board provides scientific peer review of the findings and conclusions of NTP Technical Reports. The Report on Carcinogens Subcommittee of the Board provides scientific peer review of nominations to the Report on Carcinogens, a Congressionally mandated listing of agents known or reasonably anticipated to be human carcinogens.

The Board's members are selected from recognized authorities knowledgeable in fields such as toxicology, pharmacology, pathology, biochemistry, epidemiology, risk

assessment, carcinogenesis, mutagenesis, molecular biology, behavioral and neurotoxicology, immunotoxicology, reproductive toxicology or teratology, and

biostatistics. The NTP strives for equitable geographic distribution and minority and female representation on the Board.

Substance Abuse and Mental Health Services Administration

Change to a Fiscal Year (FY) 2001 Funding Opportunities Notice

AGENCY: Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), DHHS.

ACTION: Change of notice in funding availability regarding the Substance Abuse and Mental Health Services Administration, Center for Mental Health Services Cooperative Agreement to Provide Minority Community Based HIV/AIDS Related Mental Health Treatment and Education Services.

SUMMARY: Public notice of funding availability for a cooperative agreement was given in the **Federal Register** on March 20, 2001 (Vol. 66, No. 54, pages 15731-15733). The Guidance for Applicants (GFA) No. SM-01-012, Cooperative Agreement to Provide Minority Community Based HIV/AIDS Related Mental Health Treatment and Education Services—short title, Minority HIV/AIDS Mental Health Services, contained 3 Initiatives. The main purpose or objective of the first Initiative was to expand service capacity

targeted to meet unmet mental health treatment needs of individuals living with HIV/AIDS who are African American, Hispanic/Latino and/or from other racial/ethnic minority communities. The second Initiative focused on conducting HIV/AIDS and mental health education and training to African American, Hispanic/Latino and or other racial/ethnic minority communities who provide mental health care and emotional support in traditional and/or non-traditional settings. Selection of a coordinating center to assure the collection and analysis of process and descriptive information/data pertaining to common measures across the sites was the third purpose of the announcement.

In response to this GFA SAMHSA received a larger number of services applications that received high scores in peer review than had been anticipated. Since the intent of the overall GFA is primarily services, SAMHSA will be funding more of the services applications than originally planned and did not peer review or fund the training component, Initiative 2 of the announcement.

Dated: September 4, 2001.

Richard Kopanda,

Executive Officer, SAMHSA.
