

for U.S. harvests of whiting were announced in the **Federal Register**. For 2001 the whiting ABC and OY are 190,400 mt (mt), the tribal whiting allocation is 27,500 mt, and the commercial OY is 162,900 mt.

Regulations at 50 CFR 660.323(a)(4) divide the commercial OY into separate allocations for the non-tribal catcher/processor, mothership, and shore-based sectors of the whiting fishery. The catcher/processor sector is composed of vessels that harvest and process whiting. The mothership sector is composed of motherships and catcher vessels that harvest whiting for delivery to motherships. Motherships are vessels that process, but do not harvest, whiting. The shoreside sector is composed of vessels that harvest whiting for delivery to shoreside processors. Each sector receives a portion of the commercial OY, with the catcher/processors getting 34 percent (55,386 mt), motherships getting 24 percent (39,096 mt), and the shore-based sector getting 42 percent (68,418 mt).

On August 31, 2001, NMFS received notification from the tribal fishery participants indicating that 10,000 mts of the tribal allocation was not expected to be harvested before the end of the fishing year. As a result, NMFS announces the reapportionment of the 10,000 mt surplus whiting from the tribal allocation to the catcher/processor, mothership, and shore-based sectors. Regulations at 50 CFR 660.323(a)(3)(iv) provide for the reapportionment of allocation that the Regional Administrator determines will not be used by the end of the fishing year. Such reapportionments are to be disbursed in the same proportion as each sector's allotted portion of the commercial OY. Therefore, in addition to the allocations announced on January 11, 2001, the catcher/processors get an additional 3,400 mt (34 percent), the motherships get an additional 2,400 mt (24 percent), and the shore-based sector get an additional 4,200 mt (42 percent). The total allocation for 2001 by sector is: catcher/processor 58,786 mt, motherships 41,496 mt, and shore-based 72,618 mt.

NMFS announced the end of the 2001 primary season for the shore-based Pacific whiting fishery at noon local time (l.t.) August 21, 2001, because the allocation was projected to be reached at that time. To provide the shore-based participants access to the reapportioned whiting, this document announces the resumption of the primary season for the shore-based whiting fishery at noon l.t., Monday, September 17, 2001.

NMFS Action

This action announces the reapportionment of 10,000 mt of surplus whiting from the Indian tribal fishery to the catcher/processor, mothership, and shore-based sectors of the non-tribal whiting fishery. The revised tribal allocation for 2001 will be 17,500 mt. The commercial allocations for 2001 by sector are: catcher/processor 58,786 mt, motherships 41,496 mt, and shore-based 72,618 mt.

Effective noon l.t., Monday, September 17, 2001, the 2001 primary season for the shore-based sector of the whiting fishery resumes. If a vessel fishes shoreward of the 100 fm (183 m) contour in the Eureka area (43° - 40°30' N. lat.) at any time during a fishing trip, a 10,000-lb (4,536 kg) trip limit applies, as announced in the annual management measures at paragraph IV, B (3)(c)(ii).

Classification

These actions are authorized by the FMP and regulations at 50 CFR part 660 subpart G, which governs the harvest of groundfish in the U.S. exclusive economic zone off the coasts of Washington, Oregon, and California. The determination to take these actions is based on the most recent fishery data and recent notification from the tribal representatives. Because of the need for immediate action, NMFS has determined that providing an opportunity for prior notice and comment would be impractical and contrary to public interest. Delay of this action could push the whiting season into inclement autumn weather. Because the shore-based and mothership sectors are composed of smaller catcher vessels, the agency believes that the risk of pushing the season into inclement weather constitutes good cause to waive the 30-day delay in effectiveness. In addition, the shore-based processors need an immediate reallocation if they are to keep their workers employed. These actions are taken under the authority of 50 CFR 660.323(a)(2), and are exempt from review under Executive Order 12866.

The determination to take this action is based on the most recent data available. The aggregate data upon which the determination is based are available for public inspection at the Office of the Regional Administrator (see **ADDRESSES**) during business hours. This action is taken under the authority of 50 CFR 660.323(a)(4)(iii)(A).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 14, 2001.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 010112013-1168-06; I.D. 011101B]

RIN 0648-A082

Fisheries of the Exclusive Economic Zone Off Alaska; Steller Sea Lion Protection Measures and 2001 Harvest Specifications and Associated Management Measures for the Groundfish Fisheries off Alaska; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Emergency interim rule; correction.

SUMMARY: This document corrects the July 17, 2001, emergency interim rule and its August 22, 2001, correction by correcting Steller sea lion protection areas for the Pacific cod directed fishery, to clarify closure areas to Tables 22, 23, and 24 to part 679 and by correcting the corresponding regulatory text to be consistent with the changes to the tables.

DATES: Effective September 18, 2001, through December 31, 2001.

FOR FURTHER INFORMATION CONTACT: Melanie Brown, NMFS, 907-586-7228 or e-mail at melanie.brown@noaa.gov.

SUPPLEMENTARY INFORMATION: The emergency interim rule published July 17, 2001 (66 FR 37167), and corrected August 22, 2001 (66 FR 44073), implements Steller sea lion protection measures and announces final 2001 harvest specifications for the groundfish fisheries of the Bering Sea and Aleutian Islands Area and the Gulf of Alaska. As published and corrected, the final regulations contain errors.

In Table 22, in column 8, the column heading was incomplete in the August 22, 2001, **Federal Register** correction. This correction includes the additional language regarding vessels less than 60 ft (18.3 m). Footnote 7 to Table 22 is corrected to clarify the no fishing zones.

Tables 22 and 23 have footnotes added to Sutwik Island and Kodiak/

Cape Ugat sites to clarify the extent of the no pollock and Pacific cod trawl fishing zones around these sites. The 20-nautical miles (nm) arcs were incorrectly extended into the Shelikof foraging area. The North Pacific Fishery Management Council (Council) and NMFS did not intend the closures around these areas to enter the open area of the Shelikof foraging area.

Consistent with the Council intent and NMFS' action, the closure is within 10 nautical miles around rookeries in the Aleutian Islands to Pacific cod trawling, except for the 20-nm closures around the Agligadak and Buldir rookeries for all Pacific cod fishing. All Pacific cod non-trawl vessels may fish outside 3 nautical miles in critical habitat around remaining rookeries and haulouts in the Aleutian Islands. Table 23 in the emergency interim rule, which erroneously shows all Pacific cod fishing closed to either 10 nautical miles or 20 nautical miles around Adak Island, Kasatochi Island, Seguam Island/Saddleridge Point, and Yunaska Island rookeries, is corrected to show all these rookeries with 10-nm Pacific cod trawling closures. Because the closures at these rookeries apply only to trawling, the exemptions (designated by a "Y") shown in column 10 of Table 23 for vessels less than 60 ft (18.3 m) using non-trawl gear are removed.

In addition, column 9 of Table 23 is removed, and columns 10 and 11 are redesignated as columns 9 and 10, respectively, to eliminate redundant closure designations. All sites listed with closures in column 9 of the August 22, 2001, Table 23 are rookeries. All rookeries that are listed in Table 21 of

the regulatory text have no groundfish fishing zones, which make fishery specific closures from 0 nautical miles to 3 nautical miles unnecessary.

Footnotes 5 and 8 to Table 23 of the regulations are revised, respectively, to correspond with the corrections. Regulatory text in 50 CFR 679.22 (a)(12), (a)(13), and (b)(7)(ii)(B) is also corrected to reflect the corrections made to Table 23. Footnote 7 to Table 23 is corrected to clarify the no fishing zone.

The footnotes to Table 24 of the regulatory text are also corrected by designating § 679.22(a)(12) to correspond with the corrections to Table 23. Footnote 4 to Table 24 is corrected to clarify the no fishing zone.

Correction

Accordingly, the emergency interim rule published on July 17, 2001 (66 FR 37167, FR Doc. 01-17850), and its correction published August 22, 2001 (66 FR 44073, FR Doc. 01-21205), are corrected as follows.

§ 679.22 [Corrected]

1. In the emergency interim rule published July 17, 2001, 66 FR 37167, the following corrections are made to § 679.22:

a. On page 37180, in the second column, amendatory instruction 5, in the fourth line, "(a)(12)(iv) through (viii)" is corrected to read "(a)(12)(iv) through (vii)."

b. On page 37180, column 3, and on page 37181, column 1, paragraph (a)(12)(vii) is removed;

c. On page 37181, column 1, paragraph (a)(12)(viii) is correctly redesignated as paragraph (a)(12)(vii);

d. On page 37181, column 1, paragraph (a)(13)(iii)(C) is corrected to read as follows:

- (a) * * *
- (13) * * *
- (iii) * * *

"(C) All pot vessels are exempt from Pacific cod no fishing zones for selected sites. These sites are listed in Table 23 to this part and identifiable by a "Bering Sea" in column 2 and by a "Y" in column 10."

* * * * *

e. On page 37181, column 3, paragraph (b)(7)(ii)(B) is corrected to read as follows:

- (b) * * *
- (7) * * *
- (ii) * * *

(B) All vessels less than 60 ft (18.3 m) LOA using non-trawl gear are exempt from the fishing prohibitions of paragraph (b)(3)(i)(B) of this section and from Pacific cod no fishing zones for selected sites. These sites are listed in Table 23 of this part and identifiable by a "Gulf of Alaska" in column 2 and a "Y" in column 9.

* * * * *

Tables 22, 23, and 24 to 50 CFR part 679 [Corrected]

2. In the correction of the emergency interim rule published August 22, 2001 (66 FR 44073, FR Doc. 01-21205), Tables 22, 23, and 24 to 50 CFR part 679, beginning on pages 44079, 44081, and 44084, respectively, are correctly revised to read as follows:

³ See 679.22(a)(13)(iv) and (b)(7)(iii).

⁴ Pollock fishing closure to 10 nm from October 1 through December 31.

⁵ Pollock fishing closure extends 20 nm into federal waters outside of Prince William Sound only.

⁶ The pollock no fishing area extends in an arc from 3nm to 10 or 20 nm to a line connecting the point 57°31'3" N lat./152°17'48" W long. with the point 57°24'36" N lat./151° 40'29" W long

⁷ No fishing zones are the waters between 3 nm and the nm specified in column 7 around each site.

⁸ The 20 nm pollock trawl closure around Sutwik haulout is established only for that portion of the area south of a line connecting Cape Kumliik (56°38' N/157°26' W) and the southwestern tip of Tugidak Island (56°24' N/154°41' W).

⁹ The 20 nm pollock trawl closures around Kodiak/Cape Ugat and Shakun Rock haulouts are established only for that portion east of 154° 0' 0" W long. and for Shakun Rock, north of 58°23' 05" N lat.

¹Where two sets of coordinates are given, the baseline extends in a clock-wise direction from the first set of geographic coordinates along the shoreline at mean low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

² Fishing closure zone is 10 nm between October 1 through December 31.

³ See 679.22(a)(1)(iii), (a)(12)(v) and (b)(3)(iii).

⁴ See 679.22(a)(12)(vi).

⁵ See 679.22(a)(13)(iii)(B) and 679.22(b)(7)(ii)(B).

⁶ See 679.22(a)(13)(iii)(C).

⁷ No fishing zones are the waters between 3 nm and the nm specified in columns 7 and 8 around each site.

⁸ The Pacific cod no fishing area extends in an arc from 3nm to 10 or 20 nm to a line connecting the point 57°31'3" N lat./152°17'48" W long. with the point 57°24'36" N lat./151° 40'29" W long

⁹ The 20 nm Pacific cod trawl closure around the Gramp Rock rookery is established only for that portion of the area west of 178° W long.

¹⁰ The 20 nm Pacific cod fishing closure around Sutwik haulout is established only for that portion of the area south of a line connecting Cape Kumlik (56°38' N/157°26' W) and the southwestern tip of Tugidak Island (56°24' N/154°41' W).

¹¹ The 20 nm Pacific cod fishing closures around Kodiak/Cape Ugat and Shakun Rock haulouts are established only for that portion east of 154°0' 0" W long. and for Shakun Rock, north of 58°23' 05" N lat.
