III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA hereby approves the requested diazinon product registration cancellations and amendments to terminate all indoor uses and certain agricultural uses, as identified in the List, and all other uses (including specific outdoor non-agricultural uses) identified for deletion in the August 1 Diazinon 6(f) notice. Accordingly, the Agency orders that the diazinon end-use product registrations identified in Table 1 are hereby canceled. The Agency also orders that all of the uses identified in the List, and all other uses (including specific outdoor non-agricultural uses) identified for deletion in Table 2 are hereby canceled from the end-use product registrations identified in Table 2. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 in a manner inconsistent with the terms of this Order or the Existing Stock Provisions in Unit IV of this notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

IV. Existing Stocks Provisions

For purposes of this Order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation. The existing stocks provisions of this Cancellation Order are as follows:

1. *Distribution or sale of products bearing instructions for use on agricultural crops.* The distribution or sale of existing stocks by the registrant of any product listed in Table 2 that bears instructions for use on the agricultural crops identified in the List will not be lawful under FIFRA 1 year

after the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 2 that bears instructions for any of the agricultural uses identified in the List after the effective date of the cancellation order.

2. *Distribution or sale of products bearing instructions for use on outdoor non-agricultural sites.* The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites will not be lawful under FIFRA 1 year after the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites after the effective date of the cancellation order.

3. *Distribution or sale of products bearing instructions for use on indoor sites.* The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use at or on any indoor sites (except mushroom houses), shall not be lawful under FIFRA as of the effective date of the cancellation order, except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal.

4. *Retail and other distribution or sale of existing stock of products for indoor use.* The retail sale of existing stocks by any person other than the registrants of products listed in Table 1 or 2 bearing instructions for any indoor uses except mushroom houses will not be lawful under FIFRA after December 31, 2002,

except for the purposes of shipping such stocks for export consistent with section 17 of FIFRA or for proper disposal.

5. *Use of existing stocks.* EPA intends to permit the use of existing stocks of products listed in Table 1 or 2 until such stocks are exhausted, provided such use is in accordance with the existing labeling of that product.

II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses.

A. Background

The EPA is publishing a single notice in response to registrant's requests to delete some uses for fenamiphos and metolachlor from their labels. (See the table in this unit for specific information regarding the cancellation requests.)

Reregistration Eligibility Decision (RED) documents summarize the findings of EPA's reregistration review

process for individual chemical cases, and reflect the Agency's decisions on risk assessment and risk management for uses of individual pesticides. The metolachlor RED was issued in April of 1995. However, since the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) of 1996, the Agency is required to reconsider metolachlor tolerances consistent with the provisions of the Act. This tolerance reassessment decision is scheduled to be completed in 2002. In defining the scope of this review, Syngenta, the metolachlor registrant, has elected to voluntarily drop certain uses from their technical label.

For fenamiphos, an organophosphate, a RED has not been issued. Although the Agency has not yet completed its cumulative risk assessment for a RED, the Agency is issuing an interim reregistration eligibility decision (IRED) to identify risk reduction measures that are necessary to support the continued

use of fenamiphos. As part of this process, Bayer has elected to delete certain uses from its product labels rather than develop the data necessary to support reregistration.

The EPA will consider any comments received during the 30-day public comment period prior to canceling affected uses.

B. Requests for Voluntary Amendments to Delete Uses From the Registrations of End-Use and Technical Product Labels

Pursuant to section 6(f)(1)(A) of FIFRA, the following companies have submitted a request to amend their end-use and technical registrations of pesticide products containing fenamiphos and metolachlor, respectively, to delete the listed uses from the listed product(s) bearing such use. The registrations, for which amendments to delete uses were requested, are identified in the following table.

NOTICE FOR VOLUNTARY CANCELLATION OF REGISTERED USES

Chemical	PC code	Company # Address	Nature of action	Products affected	Comments
Fenamiphos	100601	Bayer Corp., 8400 Hawthorne Rd., P.O. Box 4913, Kansas City, MO 64120-0013	Cotton and pineapple use deletion	3EC ¹ 3125-283 15G ² 3125-236	Cancel 3EC and 15G on cotton and 15G on pineapple.
Metolachlor	108801	Syngenta Crop Protection, Inc., P.O. Box 18300 Greensboro, NC 27419-8300	Stone fruits and almond use deletion	100-587	

¹3EC: Nemacur 3 (emulsifiable concentrate—3 lb active ingredient/gal)

² 15G: Nemacur 15% (granular formulation—15% active ingredient/gal)

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be amended to delete one or more pesticide uses. The aforementioned companies have requested to amend their registrations and that EPA waive the 180-day comment period. In light of this request, EPA is granting the request to waive the 180-day comment period and is providing a 30-day public comment period before taking action on the requested amendments to delete uses. Because of risk concerns posed by certain uses of fenamiphos and metolachlor, EPA intends to grant the requested amendments to delete uses at the close of the comment period for this announcement.

III. Proposed Existing Stocks Provisions

The registrants have requested voluntary cancellation of the

fenamiphos and metolachlor registrations identified in the table. EPA intends to grant the requests for voluntary cancellations. For purposes of the cancellation order that the Agency intends to issue at the close of the comment period for this announcement, the term "existing stocks" will be defined, pursuant to EPA's existing stocks policy published in the **Federal Register** of (June 26, 1991, 56 FR 29362) (FRL-3846-4), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation or amendment. Registrants may generally distribute and sell products bearing old labels/labeling for 12 months from the effective date of cancellation. Persons other than the registrant may generally distribute or sell such products for 24

months from the effective date of cancellation. Any distribution, sale, or use of existing stocks after the effective date of the cancellation order that the Agency intends to issue that is not consistent with the terms of that order will be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA.
