

be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension of collection of information for the Quantum Opportunity Program. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee's section below on or before November 20, 2001.

ADDRESSES: Eileen Pederson, U.S. Department of Labor, Employment and Training Administration/Office of Policy and Research, Rm. N-5637, 200 Constitution Avenue, NW., Washington, DC 20210, 202/693-3647 (this is not a toll-free number), epederson@dola.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The Quantum Opportunity Program (QOP) Demonstration was jointly sponsored by the Ford Foundation and the Department of Labor, with support from the Department of Justice, to test a promising program to help academically at-risk youth prepare for long-term, stable employment. The demonstration targeted academically at-risk youth in schools with significant dropout rates in seven urban and rural cities. The youth enrolled in high school in 1995 (youth in one site enrolled in 1996) and were randomly assigned to either the control group or the treatment group, with the youth in the latter group able to participate in the program throughout high school. The primary focus of the program was to keep them in school through high school graduation and help them take the necessary steps for more advanced training or education. Specific services included intensive educational, life skills, and community services activities and support from an adult mentor.

ETA awarded a contract to Mathematica Policy Research, Inc. to conduct a net impact evaluation of the program. The evaluation currently will measure high school performance and completion, post-secondary enrollment and criminal and anti-social behavior up to five months after scheduled high school graduation. The evaluation will also analyze the benefits to society compared to the program's cost. This information collection was approved

under OMB No. 1205-0397, which is due to expire on November 30, 2001. This request is for an extension of the previously granted OMB clearance to collect data beyond the current expiration date of the clearance. The extension is necessary to collect data approximately 72 months after random assignment of the youth.

The data will be used to examine the effects of this program on participants' outcomes six years after random assignment into QOP. Mathematica will also assess the subsequent outcomes of comparable youth randomly assigned to the control group. This additional data collection will offer supporting evidence in ETA's quest to "ensure that our youth workforce training programs have a strong educational component, since income and opportunities increase exponentially with education credentials."

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

This is a request for OMB approval of an extension of an existing information collection for the QOP Demonstration funded by the Department of Labor with support from the Department of Justice. Information in the form of the previously approved follow-up phone or in-person survey will be collected from all youth in the research sample approximately 72 months following their initial assignment to the program or control groups. The survey data will be utilized to analyze the impact of the QOP on participants' outcomes including education and training, employment, earnings, public assistance

participation, childbearing, and other behaviors and activities.

The findings will be directly relevant for the future development of employment and training policy for youth.

Type of Review: Extension.

Agency: Employment and Training Administration.

Title: Quantum Opportunity Program Demonstration Follow-up Survey.

OMB Number: 1205-0397.

Affected Public: Individuals.

Cite/Reference/Form/etc.: Quantum Opportunity Program Demonstration Evaluation follow-up survey.

Total Respondents: 1,074.

Frequency: Once (during period of extension, total of 2 times).

Total Responses: 860 (during period of extension).

Average Time per Response: 20 minutes (during extension).

Estimated Total Burden Hours: 287 hours (during extension).

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintaining): \$0.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: September 14, 2001.

Gerard F. Fiala,
Administrator.

[NAFTA-4902]

American Lumber Company; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called (NAFTA-TAA), and in accordance with section 250(a), subchapter D, chapter 2, title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on May 18, 2001 in response to a petition filed by a company official on behalf of workers at American Lumber Company, Union City and Williamsport, Pennsylvania.

The petitioner has requested that the petition be withdrawn. Consequently,

further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC, this 12th day of September 2001.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

[NAFTA-4848]

Newport Steel Corporation, Newport, KY; Notice of Negative Determination Regarding Application for Reconsideration

By application dated June 17, 2001, a former employee requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for North American Free Trade Agreement—Transitional Adjustment Assistance

(NAFTA-TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on May 14, 2001, and was published in the **Federal Register** on May 25, 2001 (66 FR 28928).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The denial of NAFTA-TAA for workers engaged in activities related to the production of steel pipe at Newport Steel Corporation, Newport, Kentucky, was based on the finding that criteria (3) and (4) of the group eligibility requirements of paragraph (a)(1) of section 250 of the Trade Act, as amended, were not met. There were no company imports of steel pipe from Mexico or Canada, nor did Newport Steel Corporation shift production from Newport, Kentucky to Mexico or Canada. Layoffs at the subject firm were related to outsourcing the raw material (steel coils) from domestic suppliers used to produce the steel pipe produced at the plant.

The petitioner claims that layoffs occurred in the melt shop, which made the steel that was used in the production of steel pipe at the plant. The petition further adds that Newport Steel Corporation is purchasing steel coils from domestic and foreign suppliers.

The petitioner attached documents from the American Iron and Steel Institute, which were March 2001 trade data for steel mill products and a June 12, 2001, press release regarding April 2001 U.S. shipments of steel.

Review of the investigation record shows that during 1999, 2000, and in January through March 2001, Newport Steel Corporation did not purchase any imports of articles from Mexico or Canada like or directly competitive with those produced at the Newport, Kentucky plant. Furthermore, as to steel industry data, the NAFTA-TAA petition investigation is conducted with respect to articles like or directly competitive with those produced at the workers' firm, not on a company-wide or industry-wide basis.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decisions. Accordingly, the application is denied.

Signed at Washington, DC this 5th day of September 2001.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

[NAFTA-05149]

OBG Manufacturing/Distribution Company, Oshkosh B'Gosh, Inc., Albany, KY; Notice of Termination of Investigation

Pursuant to Title V of the North American Free Trade Agreement Implementation Act (Pub. L. 103-182) concerning transitional adjustment assistance, hereinafter called (NAFTA-TAA), and in accordance with section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), an investigation was initiated on July 30, 2001, in response to a petition filed on behalf of workers at OBG Manufacturing/Distribution Company, OshKosh B'Gosh, Inc., Albany, Kentucky.

An active certification covering the partitioning group of workers is already in effect (NAFTA-04468A, as amended). Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC, this 4th day of September, 2001.
