

construction activities on harbor seals at Castro Rocks. Monitoring will be conducted by one or more NMFS-approved monitors. CALTRANS is to monitor at least one additional harbor seal haul-out within San Francisco Bay to evaluate whether harbor seals use alternative haulout areas as a result of seismic retrofit disturbance at Castro Rocks.

The monitoring protocol will be divided into the Work Period Phase (August 1 through February 14) and the Closure Period Phase (February 15 through July 31). During the Work Period Phase and Closure Period Phase, the monitor(s) will conduct observations of seal behavior at least 3 days/week for approximately one tidal cycle each day at Castro Rocks. The following data will be recorded: (1) Number of seals and sea lions on site; (2) date; (3) time; (4) tidal height; (5) number of adults, subadults, and pups; (6) number of individuals with red pelage; (7) number of females and males; (8) number of molting seals; and (9) details of any observed disturbances. Concurrently, the monitor(s) will record general construction activity, location, duration, and noise levels. At least 2 nights/week, the monitor will conduct a harbor seal census after midnight at Castro Rocks. In addition, during the Work Period Phase and prior to any construction between piers 52 and 57, inclusive, the monitor(s) will conduct baseline observations of seal behavior at Castro Rocks and at the alternative site(s) once a day for a period of 5 consecutive days immediately before the initiation of construction in the area to establish pre-construction behavioral patterns. During the Work Period and Closure Period Phases, the monitor(s) will conduct observations of seal behavior, and collect appropriate data, at the alternative Bay harbor seal haul-out at least 3 days/week (Work Period) and 2 days/week (Closure Period), during a low tide.

In addition, NMFS will require that immediately following the completion of the seismic retrofit construction of the Bridge, the monitor(s) will conduct observations of seal behavior at Castro Rocks at least 5 days/week for approximately 1 tidal cycle (high tide to high tide) each day and for 1 week/month during the months of April, July, October, and January. At least 2 nights/week during this same period, the monitor will conduct an additional harbor seal census after midnight.

Reporting

CALTRANS will provide weekly reports to the Southwest Regional Administrator (Regional Administrator),

NMFS, including a summary of the previous week's monitoring activities and an estimate of the number of harbor seals that may have been disturbed as a result of seismic retrofit construction activities. These reports will provide dates, time, tidal height, maximum number of harbor seals ashore, number of adults, sub-adults and pups, number of females/males, number of harbor seals with a red pelage, and any observed disturbances. A description of retrofit activities at the time of observation and any sound pressure levels measurements made at the haulout will also be provided. A draft interim report must be submitted to NMFS by April 30, 2002.

Because seismic retrofit activities are expected to continue beyond the date of expiration of this IHA (presumably under a new IHA), a draft final report must be submitted to the Regional Administrator within 90 days after the expiration of this IHA. A final report must be submitted to the Regional Administrator within 30 days after receiving comments from the Regional Administrator on the draft final report. If no comments are received from NMFS, the draft final report will be considered to be the final report.

CALTRANS will provide NMFS with a follow-up report on the post-construction monitoring activities within 18 months of project completion in order to evaluate whether haul-out patterns are similar to the pre-retrofit haul-out patterns at Castro Rocks.

National Environmental Policy Act

NMFS prepared an Environmental Assessment (EA) in 1997 that concluded that the impacts of CALTRANS' seismic retrofit construction of the Bridge will not have a significant impact on the human environment. A copy of that EA, which includes the Finding of No Significant Impact, is available upon request (see ADDRESSES).

Conclusions

NMFS has determined that the short-term impact of the seismic retrofit construction of the Bridge, as described in this document, should result, at worst, in the temporary modification in behavior by harbor seals and, possibly, by some California sea lions. While behavioral modifications, including temporarily vacating the haulout, may be made by these species to avoid the resultant visual and acoustic disturbance, this action is expected to have a negligible impact on the animals. In addition, no take by injury and/or death is anticipated, and harassment takes will be at the lowest level practicable due to incorporation of the

mitigation measures mentioned previously in this document.

Authorization

For the above reasons, NMFS has issued an IHA for a 1-year period effective September 19, 2001, for the incidental harassment of harbor seals and California sea lions by the seismic retrofit of the Richmond-San Rafael Bridge, San Francisco Bay, CA, provided the above mentioned mitigation, monitoring and reporting requirements are incorporated.

Dated: September 19, 2001.

Wanda Cain,

Acting Deputy Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 091701E]

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting of the Socioeconomic Panel (SEP).

DATES: A meeting of the SEP will be held beginning at 8:30 a.m. on Wednesday, October 10, 2001, and will conclude at 4 p.m. on Friday, October 12, 2001.

ADDRESSES: The meeting will be held at the Tampa Airport Hilton Hotel, 2225 Lois Avenue, Tampa, FL 33607; telephone: 813-877-6688.

Council address: Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

A copy of the agenda can be obtained by calling 813-228-2815.

FOR FURTHER INFORMATION CONTACT: Antonio B. Lamberte, Economist, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The SEP will convene to review available social and economic information on gag, vermilion snapper, and gray triggerfish and to determine the social and economic implications of the levels of acceptable biological catch (ABC) recommended by the Council's Reef

Fish Stock Assessment Panel (RFSAP). The SEP may recommend to the Council total allowable catch (TAC) levels for the 2002 fishing year and certain management measures associated with achieving the TACs. The SEP will also review a charterboat/headboat study and hear presentation on recently completed study on fishing communities.

Composing the SEP membership are economists, sociologists, and anthropologists from various universities and state fishery agencies throughout the Gulf. They advise the Council on the social and economic implications of certain fishery management measures.

Although other non-emergency issues not on the agendas may come before the SEP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the SEP will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

The meeting is open to the public and is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office by October 3, 2001.

Dated: September 21, 2001.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 091901B]

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is

scheduling a public meeting of its Social Sciences Advisory Committee in October, 2001. Recommendations from the committee will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will be held on October 10, 2001, at 10 a.m.

ADDRESSES: The meeting will be held at the New England Fishery Management Council Office, 50 Water Street, Mill #2, Newburyport, MA 01950; telephone: (978) 465-0492.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council (978) 465-0492.

SUPPLEMENTARY INFORMATION: The committee will review and identify social and economic issues associated with scallop management alternatives.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: September 21, 2001.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in the Republic of Turkey

September 20, 2001.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs increasing limits.

EFFECTIVE DATE: September 26, 2001.

FOR FURTHER INFORMATION CONTACT: Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at <http://otexa.ita.doc.gov>.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limit for Category 604 is being increased for swing and carryover, reducing the limit for the Fabric Group to account for the swing being applied to Category 604.

A description of the textile and apparel categories in terms of HTS numbers is available in the **CORRELATION:** Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 65 FR 82328, published on December 28, 2000). Also see 65 FR 66730, published on November 7, 2000.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

September 20, 2001.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on October 27, 2000, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of Turkey and exported during the twelve-month period which began on January 1, 2001 and extends through December 31, 2001.

Effective on September 26, 2001, you are directed to adjust the current limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:
