Proposed Guidelines for Best Available Retrofit Technology (BART) Determinations Under the Regional Haze Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of public comment period.

SUMMARY: The EPA is announcing the extension of the public comment period on the proposed guidelines for implementation of the best available retrofit technology (BART) requirements under the regional haze rule. The EPA originally requested comments on the proposed rule by September 18, 2001 (66 FR 38108, July 20, 2001). We are extending this deadline to October 5,

2001. We are requesting written comments by October 5, 2001.

ADDRESSES: Docket. Information related to the BART guidelines is available for inspection at the Air and Radiation Docket and Information Center, Docket No. A–2000–28. The docket is located at the U.S. Environmental Protection Agency, 401 M Street, SW, Room M–1500, Washington, DC 20460, telephone (202) 260–7548. The docket is available for public inspection and copying between 8:00 a.m. and 5:30 p.m., Monday through Friday, excluding legal holidays. A reasonable fee may be charged for copying.

You should submit comments on the proposed BART guidelines and the materials referenced therein (in duplicate, if possible) to the Air and Radiation Docket and Information Center (6102), Attention: Docket No. A-2000–28, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460. You may also submit comments to EPA by electronic mail at the following address: A-and-R-Docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. All comments and data in electronic form must be identified by the docket number A-2000-28. Electronic comments on this proposed rule also may be filed online at many Federal Depository Libraries.

FOR FURTHER INFORMATION CONTACT: Tim Smith (telephone 919-541–4718), EPA,

Air Quality Strategies and Standards Division, MD–15, Research Triangle Park, North Carolina, 27711. Internet address: *smith.tim@epa.gov*.

List of Subjects in 40 CFR Part 51

Environmental protection, Administrative practice and procedure, Air pollution control, Carbon monoxide, Nitrogen dioxide, Particulate matter, Sulfur oxides, Volatile organic compounds.

Dated: September 25, 2001.

Approval of Section 112(I) Authority for Hazardous Air Pollutants; State of Delaware; Department of Natural Resources and Environmental Control

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the Delaware Department of Natural Resources and Environmental Control's (DNREC's) request to implement and enforce its hazardous air pollutant

general provisions and hazardous air pollutant emission standards for perchloroethylene dry cleaning facilities, hard and decorative chromium electroplating and chromium anodizing tanks, and industrial process cooling towers in place of similar Federal requirements set forth in the Code of Federal Regulations. This proposed approval includes granting authority to DNREC to implement and enforce any future amendments to these provisions and standards that EPA promulgates and DNREC adopts unchanged into its regulations. EPA is not waiving its notification and reporting requirements under this proposed approval; therefore, sources will need to send notifications and reports to both DNREC and EPA. In the Final Rules section of this Federal Register, EPA is approving the State's request for rule approval as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before November 1, 2001.

ADDRESSES: Written comments on this action should be sent concurrently to: Makeba A. Morris, Chief, Permits and Technical Assessment Branch, Mail Code 3AP11, Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103–2029 and Robert Taggart, Delaware Department of Natural Resources and Environmental Control, Division of Air and Waste Management, 715 Grantham Lane, New Castle, DE 19720. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103; the Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460; and Delaware Department of Natural Resources & Environmental Control, Division of Air and Waste Management,

715 Grantham Lane, New Castle, DE

FOR FURTHER INFORMATION CONTACT:

Dianne J. McNally, U.S. Environmental Protection Agency, Region 3, 1650 Arch Street (3AP11), Philadelphia, PA 19103– 2029, mcnally.dianne@epa.gov (telephone 215–814–3297).

SUPPLEMENTARY INFORMATION:

For further information on this action, pertaining to the approval of Delaware's regulations for hazardous air pollutant general provisions and hazardous air pollutant emission standards for perchloroethylene dry cleaning facilities, hard and decorative chromium electroplating and chromium anodizing tanks, and industrial process cooling towers (CAA section 112), please see the information provided in the direct final action, with the same title, that is located in the "Rules and Regulations" section of this Federal Register publication.

Dated: September 7, 2001.

Donald S. Welsh,

Regional Administrator, Region III.

Clean Air Act Proposed Full Approval of Operating Permit Programs; Arizona Department of Environmental Quality, Arizona

AGENCY: Environmental Protection

Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Arizona Department of Environmental Quality (ADEQ or State) operating permit program. The ADEQ operating permit program was submitted in response to the directive in the 1990 Clean Air Act (CAA) Amendments that permitting authorities develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the permitting authorities' jurisdiction. EPA granted interim approval to the ADEQ operating permit program on October 30, 1996 (61 FR 55910). The ADEQ has revised its program to satisfy the conditions of the interim approval and this action proposes approval of those revisions and other revisions since interim approval was granted. EPA is proposing full approval of the operating permits

program submitted by ADEQ based on the revisions submitted on August 11, 1998, May 9, 2001, and September 7, 2001.

DATES: Comments on the program revisions discussed in this proposed action must be received in writing by November 1, 2001.

ADDRESSES: Written comments on this action should be addressed to Gerardo Rios, Acting Chief, Permits Office, Air Division (AIR-3), EPA Region IX, 75 Hawthorne Street, San Francisco, California, 94105. You can inspect copies of ADEQ's submittal and other supporting documentation relevant to this action during normal business hours at the Air Division of EPA Region 9, 75 Hawthorne Street, San Francisco, California, 94105. You may also see copies of the submitted title V program at the following location: ADEQ Department of Environmental Quality, 3033 North central Avenue, Phoenix, Arizona 85012-2809.

FOR FURTHER INFORMATION CONTACT:

Ginger Vagenas, EPA Region IX, Permits Office (AIR–3), U.S. Environmental Protection Agency, Region IX, (415) 744–1252 or vagenas.ginger@epa.gov.

SUPPLEMENTARY INFORMATION: This section provides additional information by addressing the following questions:

I. What is the operating permit program?
II. What is EPA's proposed action?
III. What are the program changes that EF

III. What are the program changes that EPA is approving?

IV. What is the effect of this proposed action? V. Are there other issues with the program?

I. What Is the Operating Permit Program?

The CAA Amendments of 1990 required all state and local permitting authorities to develop operating permit programs that met certain federal criteria. In implementing the operating permit programs, the permitting authorities require certain sources of air pollution to obtain permits that contain all applicable requirements under the CAA. The focus of the operating permit program is to improve compliance by issuing each source a permit that consolidates all of the applicable CAA requirements into a federally enforceable document. By consolidating all of the applicable requirements for a facility, the source, the public, and the permitting authorities can more easily determine what CAA requirements apply and how compliance with those requirements is determined.

Sources required to obtain an operating permit under this program include "major" sources of air pollution and certain other sources specified in the CAA or in EPA's implementing
