#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Title III of the Export Trading Company Act of 1982 (Pub. L. No. 97-290, 96 Stat. 1233-1247), requires the

Department of Commerce to establish a program to evaluate applications for an Export Trade Certificate of Review (antitrust preclearance for joint export related activities), and with the concurrence of the Department of Justice, issue such certificates where the requirements of the Act are satisfied. The Act requires that Commerce and Justice conduct economic and legal antitrust analyses prior to the issuance of a certificate. The collection of information is necessary to conduct the required economic and legal antitrust analyses. Without the information, there could be no basis upon which a certificate could be issued.

In the Department of Commerce, the economic and legal analyses are performed by the Office of Export Trading Company Affairs and the Office of the General Counsel, respectively. The Department of Justice analyses will be conducted by its Antitrust Division. The purpose of such analyses is to make a determination as to whether or not to issue an Export Trade Certificate of Review.

A certificate provides its holder and the members named in the certificate (a) immunity from government actions under state and Federal antitrust laws for the export conduct specified in the certificate; (b) some protection from frivolous private suits by limiting their liability in private actions from treble to actual damages when the challenged activities are covered by an Export Certificate of Review. Title III was enacted to reduce uncertainty regarding the application of U.S. antitrust laws to export activities—especially those involving actions by domestic competitors. Application for an export trade certificate of review is voluntary.
