Holyoke Water Power Company (70-9943)

Holyoke Water Power Company ("HWP"), an electric utility company subsidiary of Northeast Utilities ("NU"), a registered holding company, and Holyoke Power and Electric Company ("HP&E"), a wholly owned subsidiary of HWP, both located at 1 Canal Street, Holyoke, Massachusetts 01040, have filed a declaration under section 12(d) and rules 44 and 54 under the Act.

HWP and HP&E seek authorization to sell to the City of Holyoke Gas and Electric Department ("HG&E") certain hydroelectric generating facilities, associated distribution assets, and other related assets. The sale is a result of both an agreement settling certain litigation between the applicants and HG&E and a Federal Energy Regulatory Commission hydroelectric plant relicensing proceeding. The assets consist of (i) the Holyoke Dam and related units; (ii) related inventory and units, including poles and wires; (iii) certain of HWP's properties in the city of Holyoke, along with certain properties in the cities of Chicopee and South Hadley, Massachusetts; (iv) contracts with all of HWP's retail customers; and (v) all millpowers, water exchange agreements, licenses, and other agreements related to the acquired assets (collectively, "HWP Assets"). The HWP Assets comprise between 78-80% of HWP's total assets and between 22-23% of HWP's total generating capacity. The sale will dispose of HWP's entire hydroelectric generating capacity. HG&E will also assume certain liabilities associated with the HWP Assets and reassume HWP's position as licensee for the hydroelectric facilities under a license issued by the Federal Regulatory Energy Commission ("FERC"). The license is subject to various FERC rehearing requests.

HG&E will pay HWP \$17.55 million, subject to closing adjustments, for the HWP Assets. Various FERC-jurisdictional transmission assets will be included with the HWP Assets and are the subject of various filings made by HWP with FERC.¹ HG&E will
