

Deadline for Transmittal of Applications: February 5, 2002.

Deadline for Intergovernmental Review: April 6, 2002.

Estimated Available Funds: \$639,498.

Estimated Range of Awards:

\$150,000—\$170,000.

Estimated Average Size of Awards: \$165,000.

Estimated Number of Awards: 4.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 60 months.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 85, and 86.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

Priorities

Invitational Priority

We are particularly interested in applications that meet the following priority:

Applications for projects that provide vocational rehabilitation services including, but not limited to, vocational skills development, job placement, job training, occupational skills training programs, cultural awareness, language skills development, life skills (e.g., health, education, socialization), English as a Second Language, dissemination of employment information, and training workshops.

Under 34 CFR 75.105(c)(1) we do not give an application that meets the priority a competitive or absolute preferences over other applications.

Competitive Preference Priority

This competition focuses on projects designed to meet the priority in the notice of final competitive preference for this program, published in the **Federal Register** on November 22, 2000 (65 FR 70408). Under 34 CFR 75.105(c)(2)(i) we award up to an additional 10 points to an application, depending on the extent to which the application includes effective strategies for employing and advancing in employment qualified individuals with disabilities as project employees in projects awarded under this program. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities.

The maximum score under the selection criteria for this program is 100

points; however, we will also use the competitive preference so that up to an additional 10 points may be earned by an applicant for a total possible score of 110 points.

For Applications Contact

Education Publications Center (ED Pubs), P.O. Box 1398, Jessup, MD 20794-1398. Telephone (toll free): 1-877-433-7827. FAX: (301) 470-1244. If you use a telecommunications device for the deaf (TDD), you may call (toll free): 1-877-576-7734.

You may also contact ED Pubs at its Web site: <http://www.ed.gov/pubs/edpubs.html>.

Or you may contact ED Pubs at its e-mail address: edpubs@inet.ed.gov.

If you request an application from ED Pubs, be sure to identify this competition as follows: CFDA number 84.128G.

Individuals with disabilities may obtain a copy of the application package in an alternative format by contacting the Grants and Contracts Services Team, U.S. Department of Education, 400 Maryland Avenue, SW., room 3317, Switzer Building, Washington, DC 20202-2550. Telephone: (202) 205-8207. If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339. However, the Department is not able to reproduce in an alternative format the standard forms included in the application package.

FOR FURTHER INFORMATION CONTACT:

Mary E. Chambers, U.S. Department of Education, 400 Maryland Avenue, SW., room 3322, Switzer Building, Washington, DC 20202-2647. Telephone (202) 205-8435. If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed in the preceding paragraph.

Electronic Access to This Document

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: www.ed.gov/legislation/FedRegister.

To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government

Printing Office (GPO), toll free, at 1-888-293-6498; or in the Washington, DC, area at (202) 512-1530.

Note: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available on GPO Access at:

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of Arms Control and Nonproliferation; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Subsequent arrangement.

SUMMARY: This notice is being issued under the authority of section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160). The Department is providing notice of a proposed "subsequent arrangement" under the Agreement for Cooperation Concerning Civil Uses of Atomic Energy between the United States and Canada, and the Agreement for Cooperation Between the Government of the United States of America and the Government of the Republic of Korea Concerning Civil Uses of Atomic Energy.

This subsequent arrangement concerns the retransfer of eighteen 36-element fuel bundles and twelve 18-element fuel bundles, totaling 55,000 grams uranium (19.75 percent enriched U-235), from the AECL Chalk River Laboratories, Chalk River, Ontario, Canada, to the Korea Atomic Energy Research Institute (KAERI) Hanaro Reactor Center. The material, which is currently located Chalk River, Ontario, will be used by KAERI for additional fueling for the Hanaro Reactor Center.

In accordance with section 131 of the Atomic Energy Act of 1954, as amended, we have determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the publication of this notice.

Dated: October 24, 2001.

For the National Nuclear Security Administration.

Trisha Dedik,

Director, Office of Nonproliferation Policy.

[FR Doc. 01-27233 Filed 10-29-01; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[Docket No. EA-167-B]

Application to Export Electric Energy; PG&E Energy Trading—Power, L.P.

AGENCY: Office of Fossil Energy, DOE

ACTION: Notice of application.

SUMMARY: PG&E Energy Trading—Power, L.P. (“PGET-Power”) has applied for renewal of its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before November 29, 2001.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Rosalind Carter (Program Office) 202-586-7983 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On February 25, 1998, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized PGET-Power to transmit electric energy from the United States to Mexico using the international electric transmission facilities of San Diego Gas & Electric Company, El Paso Electric Company, Central Power and Light Company, and Comision Federal de Electricidad, the national electric utility of Mexico. That two-year authorization was renewed on February 25, 2000, in Docket EA-167-A and will expire on February 23, 2002. On October 1, 2001, PGET-Power filed an application with FE for renewal of this export authority and requested that the order be issued for a 2-year term.

Procedural Matters

Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to

intervene, comment or protest at the address provided above in accordance with sections 385.211 or 385.214 of the FERC’s Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the PG&E Energy Trading—Power, L.P. application to export electric energy to Mexico should be clearly marked with Docket EA-167-B. Additional copies are to be filed directly with Christopher A. Wilson, Assistant General Counsel, PG&E Energy Trading—Power, L.P., 7500 Old Georgetown Rd., Suite 1300, Bethesda, MD 20914-6161 and Ms. Sarah Barpoulis, Senior Vice President, PG&E Energy Trading—Power, L.P., 7500 Old Georgetown Rd., Suite 1300, Bethesda, MD 20814-6161.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Order EA-179. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-167 proceeding.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy homepage at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy homepage, select “Electricity Regulation”, then “Pending Proceedings” from the options menus.

Issued in Washington, DC, on October 24, 2001.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Solicitation for Expressions of Interest; Low-Cost Prototype Inverters

AGENCY: Department of Energy.

ACTION: Notice of solicitation for participation in competition to create low-cost inverters.

SUMMARY: The U.S. Department of Energy (DOE), in partnership with the National Association of State Energy Officials (NASEO), the Institute of Electrical and Electronics Engineers

(IEEE), and other sponsors announces an opportunity for qualified colleges and university engineering programs to submit proposals to compete for a cash prize in a contest to build prototype, low-cost inverters. The contest is titled the 2003 Future Energy Challenge. This competition is open to schools with ABET-accredited engineering programs or the equivalent.

DATES: The due date for receipt of application requirements is November 30, 2001. Schools selected to compete in the 2001 Future Energy Challenge will be notified by January 1, 2002. The competition will be scheduled for the 2002 calendar year. Awards will be presented during Engineers Week in February 2003.

ADDRESSES: Additional information on this competition and application requirements are posted at <http://www.energychallenge.org>. The application requirements package will also provide information on how you might qualify for seed money from other sponsors. (**NOTE:** The agency or organization providing the seed money will solicit and evaluate the application requirements for seed funding, not DOE.)

SUPPLEMENTARY INFORMATION: The 2003 Future Energy Challenge seeks to dramatically improve the design and reduce the cost of DC-AC inverters and interface systems for use in distributed generation systems. DOE is joining with NASEO, and possibly others, to sponsor this competition with the goal of making these interface systems practical and cost effective. The objectives are to design elegant, manufacturable systems that would reduce the costs of commercial interface systems to \$40 per kilowatt or less and, thereby, accelerate the deployment of distributed generation systems in homes and buildings. Schools with the capability to undertake the challenging task of designing complete systems or modifying commercial inverters to achieve design and manufacturability improvements that lead to achievement of the target cost reductions or better are invited to submit proposals to DOE to compete. A full prototype is sought that leads to a comprehensive hardware system. Schools should plan to form multi-disciplinary teams to address the energy source characteristics, design the power electronics, design packaging and thermal management systems, develop filtering and other interface sub-systems, analyze process costs and manufacturability, and perform economic and life-cycle cost analyses. The hardware prototypes judged as best will be tested by fuel cell
