DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of Laboratories Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS.

ACTION: Notice.

SUMMARY: The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of subpart C of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A similar notice listing all currently certified laboratories will be published during the first week of each month, and updated to include laboratories which subsequently apply for and complete the certification process. If any listed laboratory's certification is totally suspended or revoked, the laboratory will be omitted from updated lists until such time as it is restored to full certification under the Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This notice is also available on the internet at the following Web sites: <http://workplace.samhsa.gov>; <http://www.drugfreeworkplace.gov>; and <http://www.health.org/workplace>.

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, 5600 Fishers Lane, Rockwall 2 Building, Room 815, Rockville, Maryland 20857; Tel.: (301) 443-6014, Fax: (301) 443-3031.

SUPPLEMENTARY INFORMATION: Mandatory Guidelines for Federal Workplace Drug Testing were developed in accordance with Executive Order 12564 and section 503 of Pub. L. 100-71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection.

To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

Laboratories which claim to be in the applicant stage of certification are not to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

In accordance with subpart C of the Guidelines, the following laboratories meet the minimum standards set forth in the Guidelines:

*The Standards Council of Canada (SCC)
voted to end its Laboratory Accreditation
Program for Substance Abuse (LAPSA)
effective May 12, 1998. Laboratories certified
through that program were accredited to
conduct forensic urine drug testing as
required by U.S. Department of
Transportation (DOT) regulations. As of that
date, the certification of those accredited
Canadian laboratories will continue under
DOT authority. The responsibility for
conducting quarterly performance testing
plus periodic on-site inspections of those
LAPSA-accredited laboratories was
transferred to the U.S. DHHS, with the
DHHS' National Laboratory Certification
Program (NLCP) contractor continuing to
have an active role in the performance testing
and laboratory inspection processes. Other
Canadian laboratories wishing to be
considered for the NLCP may apply directly
to the NLCP contractor just as U.S.
laboratories do.

Upon finding a Canadian laboratory to be
qualified, the DHHS will recommend that
DOT certify the laboratory (**Federal Register**,
16 July 1996) as meeting the minimum
standards of the "Mandatory Guidelines for
Workplace Drug Testing" (59 **Federal**
Register, 9 June 1994, Pages 29908-29931).

After receiving the DOT certification, the
laboratory will be included in the monthly
list of DHHS certified laboratories and
participate in the NLCP certification
maintenance program.
