### Coast Guard

#### 33 CFR Parts 100 and 165

[USCG-2001-10936]

#### Safety Zones, Security Zones, and Special Local Regulations

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of temporary rules issued.

**SUMMARY:** This document provides required notice of substantive rules issued by the Coast Guard and temporarily effective between April 1, 2001 and June 30, 2001 which were not published in the **Federal Register**. This quarterly notice lists temporary local regulations, security zones, and safety zones of limited duration and for which timely publication in the **Federal Register** was not possible.

**DATES:** This notice lists temporary Coast Guard regulations that became effective and were terminated between April 1, 2001 and June 30, 2001. This notice also lists regulations that were effective and terminated between January 1, 2001, and March 31, 2001.

**ADDRESSES:** The Docket Management Facility maintains the public docket for this notice. Documents indicated in this notice will be available for inspection or copying at the Docket Management Facility, U.S. Department of Transportation, Room PL-401, 400 Seventh Street, SW., Washington, DC 20593-0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays. You may electronically access the public docket for this notice on the Internet at <http://dms.dot.gov>.

**FOR FURTHER INFORMATION CONTACT:** For questions on this notice, contact Christena Green, Office of Regulations and Administrative Law, telephone (202) 267-0133. For questions on viewing, or on submitting material to

the docket, contact Dorothy Beard, Chief, Dockets, Department of Transportation, (202) 366-5149.

**SUPPLEMENTARY INFORMATION:** District Commanders and Captains of the Port (COTP) must be immediately responsive to the safety and security needs of the waters within their jurisdiction; therefore, District Commanders and COTPs have been delegated the authority to issue certain local regulations. Safety zones may be established for safety or environmental purposes. A safety zone may be stationary and described by fixed limits or it may be described as a zone around a vessel in motion. Security zones limit access to vessels, ports, or waterfront facilities to prevent injury or damage. Special local regulations are issued to enhance the safety of participants and spectators at regattas and other marine events. Timely publication of these regulations in the **Federal Register** is often precluded when a regulation responds to an emergency, or when an event occurs without sufficient advance notice. The affected public is, however, informed of these regulations through Local Notices to Mariners, press releases, and other means. Moreover, actual notification is provided by Coast Guard patrol vessels enforcing the restrictions imposed by the regulation. Because **Federal Register** publication was not possible before the beginning of the effective period, mariners were personally notified of the contents of

these special local regulations, security zones, or safety zones by Coast Guard officials on-scene prior to enforcement action. However, the Coast Guard, by law, must publish in the **Federal Register** notice of substantive rules adopted. To meet this obligation without imposing undue expense on the public, the Coast Guard periodically publishes a list of these temporary special local regulations, security zones, and safety zones. Permanent regulations are not included in this list because they are published in their entirety in the **Federal Register**. Temporary regulations may also be published in their entirety if sufficient time is available to do so before they are placed in effect or terminated. The safety zones, special local regulations and security zones listed in this notice have been exempted from review under Executive Order 12866 because of their emergency nature, or limited scope and temporary effectiveness.

The following regulations were placed in effect temporarily during the period April 1, 2001 and June 30, 2001, unless otherwise indicated. This notice also includes regulations that were not received in time to be included on the quarterly notice for the first quarter of 2001.

Dated: November 1, 2001.

**FM Broadcasting Services; Pottsville

Commission.**ACTION:** Final rule; application for  
review, denied.

**SUMMARY:** In MM Docket No. 97-107, the Commission denied an application for review filed by Olvie E. Sisk, licensee of Station WCNA(FM), Channel 240C3 (95.9 MHz), Potts Camp, Mississippi. Sisk had requested review of the Report and Order, 64 FR 38,592, published July 19, 1999, which the Commission denied because it found that the staff had properly denied in the Report and Order Sisk's petition for rulemaking (RM-9023) seeking the reallocation of Channel 240C3 from Potts Camp to Saltillo, Mississippi. The staff relied upon strong Commission policy against removal of a community's sole aural broadcast transmission service absent a compelling showing that a waiver of this prohibition is warranted. Sisk's allegations of his station's financial peril fell well short of justifying such a waiver. With this action, the proceeding is terminated.

Fishery in the Eastern Pacific Ocean****AGENCY:** National Marine Fisheries  
Service (NMFS), National Oceanic and  
Atmospheric Administration (NOAA),  
Commerce.**ACTION:** Fishing restrictions; request for  
comments.

**SUMMARY:** NMFS announces that the 2001 yellowfin tuna quota has been reached and a 15-percent incidental catch limit is now in effect for yellowfin tuna taken in the U.S. purse seine fishery in the Commission's Yellowfin Regulatory Area (CYRA) of the Inter-American Tropical Tuna Commission (IATTC) through the remainder of 2001. This action is taken in accordance with a resolution adopted by the IATTC and approved by the Department of State (DOS).

**DATES:** Effective 12:01 a.m., October 28, 2001, through 11:59 p.m., December 31, 2001. Comments will be accepted through November 21, 2001.

**ADDRESSES:** Submit comments to Rodney R. McInnis, Acting Regional Administrator, Southwest Region (Regional Administrator), NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213.

**FOR FURTHER INFORMATION CONTACT:** Svein Fougner at 562-980-4040.

**SUPPLEMENTARY INFORMATION:** This action is taken under the authority of the regulations at 50 CFR part 300, subpart C, which implement the Tuna Conventions Act (16 U.S.C. 955). The United States is a member of the IATTC, which was established under the Convention for the Establishment of an Inter-American Tropical Tuna Commission signed in 1949. The IATTC was established to provide an international arrangement to ensure the effective international conservation and management of tunas and tuna-like fishes in the Convention Area. The IATTC maintains a scientific research and fishery monitoring program and annually assesses the status of stocks of tuna and tuna fisheries to determine appropriate harvest limits or other measures to prevent overexploitation of

the stocks and promote viable fisheries. The Convention Area is all waters of the eastern Pacific Ocean between 40° N. lat. and 40° S. lat. and east of 150° W. long. The boundary of the CYRA is described at 50 CFR 300.21.

At its annual meeting in June 2001, the IATTC adopted a resolution (which was subsequently agreed to by the DOS) recommending that action be taken by member nations and other fishing nations to limit the catch of yellowfin tuna in 2001 to 250,000 metric tons (mt), with the potential to increase the quota by up to three increments of 20,000 mt each (or a total quota of 310,000 mt) if the Director of IATTC concluded, based on catch and effort data, that the higher level of harvest would not pose a substantial danger of overfishing to the stocks.

Under regulations at 50 CFR 300.29(a), the Regional Administrator is authorized to notify tuna purse seine vessel owners and agents directly of any quotas and associated regulatory measures that have been recommended by the IATTC and approved by the DOS. On September 12, 2001, the Regional Administrator notified the vessel owners and agents of the 2001 yellowfin tuna quota and the incidental catch limit that would go into effect when the quota was reached. NMFS also announced the 2001 yellowfin tuna quota and incidental catch limit to the public in the **Federal Register** at 66 FR 53735, October 24, 2001.

Under regulations at 50 CFR 300.29(b), when advised by the Director of Investigations of the IATTC that a quota has been or is projected to be reached, the Regional Administrator may close the fishery and establish incidental catch allowances by direct notification to the owners or agents of U.S. vessels who are fishing in or are eligible to fish in the Convention Area. As soon as practicable after being advised of the closure, NMFS will publish the announcement in the **Federal Register**. The Director of Investigations of the IATTC advised the Regional Administrator on October 11, 2001, that the 2001 quota, including all 3 incremental increases, was projected to be reached on October 27, 2001, and that incidental catch limits would be in effect for the rest of the year. Accordingly, the incidental catch limit for yellowfin tuna taken in purse seine gear will go into effect on October 28, 2001, and last through calendar year 2001. That is, from October 28, 2001, through December 31, 2001, any individual purse seiner when fishing for other species of tuna may retain a maximum of 15-percent of yellowfin
