

Transmittal No. 02-11

**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act**

**Annex
Item No. vi**

(vi) Sensitivity of Technology:

1. The JAVELIN anti-tank missile system provides a man-portable, medium anti-tank capability to infantry, scouts, and combat engineers. JAVELIN is comprised of two major tactical components; a reusable Command Launch Unit (CLU) and a missile sealed in a disposable launch tube assembly. The CLU incorporates an integrated day/night sight and provides target engagement capability in adverse weather and countermeasure environments. The CLU may also be used in the stand-alone mode for battlefield surveillance and target detection. JAVELIN's key technical feature is the use of fire-and-forget technology which allows the gunner to fire and immediately take cover. Additional special features are the top attack and/or direct fire modes (for targets under cover), integrated day/night sight, advanced tandem warhead, imaging infrared seeker, target lock-on before launch, and soft launch from enclosures or covered fighting positions. Reverse engineering of the software would require a substantial effort. The JAVELIN weapon system is Unclassified. Specific data related to operation, performance, and system vulnerabilities are classified up to the Secret level.

2. A determination has been made that the recipient can provide substantially the same degree of protection for the technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the policy justification portion of the notification. Further, the sale strengthens collective security and contributes to the standardization and interoperability in the case of coalition warfare. The benefits to be derived from the sale outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons.

BILLING CODE 5001-08-M

DEPARTMENT OF DEFENSE**Office of the Secretary****Defense Science Board**

AGENCY: Department of Defense.

ACTION: Notice of advisory committee meeting.

SUMMARY: The Defense Science Board (DSB) Task Force on Chemical Warfare Defense will meet in closed session on November 27, 2001, at SAIC, Inc., 4001 N. Fairfax Drive, Arlington, VA. The

Task Force will assess the possibility of controlling the risk and consequences of a chemical warfare (CW) attack to acceptable national security levels within the next five years.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology, & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Task Force will assess current national security and military objectives with respect to CW attacks; CW threats that significantly challenge these objectives today and in the future; the basis elements (R&D, materiel, acquisition, personnel, training, leadership) required to control risk and consequences to acceptable levels, including counter-proliferation; intelligence, warning, disruption; tactical detection and protection (active and passive); consequence management; attribution and deterrence; and policy. The Task Force will also assess the testing and evaluation necessary to demonstrate and maintain the required capability and any significant impediments to accomplishing this goal.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board meeting concerns matters listed in 5 U.S.C. 552b(c)(1), and that accordingly this meeting will be closed to the public.

Dated: November 1, 2001.

L. M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-08-M

DEPARTMENT OF ENERGY

Office of Science; Fusion Energy Sciences Advisory Committee Renewal

Pursuant to section 14(a)(2)(A) of the Federal Advisory Committee Act (FACA), Public Law 92-463, and section 102-3.65, Title 41 Code of Federal Regulations, and following consultation with the Committee Management Secretariat, General Services Administration (GSA), notice is hereby given that the Fusion Energy Sciences Advisory Committee has been renewed for a two-year period beginning November 2001. The Committee will provide advice to the Department on long-range plans, priorities, and strategies for demonstrating the scientific and technological feasibility of fusion energy.

The renewal of the Fusion Energy Sciences Advisory Committee has been determined to be essential to the conduct of the Department's business and in the public interest in connection with the performance of duties imposed upon the Department of Energy by law. The Committee will continue to operate in accordance with the provisions of the FACA, the GSA regulation on Federal Advisory Committee Management, and other directives and instructions issued in implementation of those acts.

Further information regarding this advisory committee can be obtained from Ms. Rachel Samuel at (202) 586-3279.

Issued in Washington, D.C. on November 1, 2001.

James N. Solit,

Advisory Committee, Management Officer.
