

- The Plan will include an Environmental Impact Statement that will comply with National Environmental Policy Act standards and an Environmental Impact Report the will comply with the California Environmental Quality Act.

- The Plan will emphasize protection and enhancement of the biological and open space values afforded by the resources, the size, and the connectivity of the Coast Dairies Property while at the same time providing new and diverse recreational opportunities compatible with the management of existing uses and the protection of natural and cultural resources.

- Plan decisions will give priority to the protection and restoration of key resources such as stream, riparian, and watershed habitats and coastal prairies.

- The lifestyles and concerns of area residents will be recognized in the Plan.

- The Plan will recognize valid existing land use commitments within the Coast Dairies Property and review how valid existing uses are verified. The Plan may allow for other economic uses of the land, provided they are consistent with the overriding biological and open space conservation needs and objectives.

- Plan decisions will use the best available science and an adaptive management approach, i.e., continual monitoring of the Property's resources as the basis for decisions related to the land's uses.

- The planning process will protect Native American cultural resources and traditional uses.

- The Plan will address transportation and access, and will identify where better access is warranted, where access should remain as is, and where decreased access is appropriate to protect resources and manage visitation.

- Decisions in the plan will strive to be compatible with the existing plans and policies of adjacent local, State, and Federal agencies as long as the decisions are consistent with the purpose, policies, and programs of Federal laws and regulations applicable to public lands.

- The Plan will carry forward the concept of "seamless management" of the Coast Dairies Property between BLM, State Parks, TPL, and cooperating partners.

- The process will recognize that other Federal agencies, State and local governments have jurisdiction over resources and uses within the planning area (e. g. coastal zone), and will collaborate with these entities to develop complementary management decisions.

- The Plan will create valuable opportunities for education in the field of integrating traditional economic and recreational activities, including sustainable coastal agriculture, with programs designed to protect native biodiversity and other natural landscape values.

#### Planning Issues

The planning criteria are developed under the major planning issues of which the plan is intended to resolve. In accordance with 43 CFR 1610.4-1, the BLM planning process is issue-driven and BLM regulations equate land use planning with problem solving and issue resolution. A *planning issue* is "a matter of controversy or dispute over resource management activities or land use that is well defined or topically discrete and entails alternatives between which to choose." This definition suggests that one or more entity is interested in a resource on public land, that entity may have different values for the resource, and that there are different ways in which to resolve the competition or demand.

A number of issues have been raised about the long-term use and protection of Property. Preliminary planning issues and management concerns have surfaced during an initial series of facilitated meetings focused on issues and concerns related to the long-term management of the Coast Dairies Property.

We expect that the major BLM issues to be addressed in the Plan will be the following:

- How will the Coast Dairies' natural and cultural resources and unique landscape values be protected?

- How will the existing uses be managed on the Coast Dairies Property?

- How will new uses be managed on the Coast Dairies Property?

- What facilities and infrastructure are needed to provide visitor services and administration of the Coast Dairies Property?

- Does the Coast Dairies Property warrant any special designation(s)?

- How will the management of the Coast Dairies Property be integrated with State Parks and the various other partners and their plans and planning processes?

*Public Meeting.* A public meeting related to the multi-jurisdictional land-use planning effort is being held on Saturday, November 17, 2001, at the Santa Cruz School District Office, 2931 Mission Street, Santa Cruz, California. The meeting is scheduled to begin at 10 a.m. and end by 2 p.m. The public meeting will also serve as a meeting of TPL's Community Advisory Committee

on the Coast Dairies Plan. The purpose of the public meeting is to take public comment on the proposed planning criteria, review the draft opportunity and constraints portion of the multi-jurisdictional land-use planning effort, and discuss the project description for the Plan's environmental impact documentation process.

**Authority:** 43 U.S.C. 1711-1712.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[ES 930-01-1430-AG-241A]

#### Notice Identifying Lands Subject to Secretarial Order of Restoration of February 22, 1945

**AGENCIES:** Bureau of Land Management, Bureau of Indian Affairs, Interior.

**SUMMARY:** On February 22, 1945, the Secretary of the Interior issued an Order restoring to the Red Lake Band of Chippewa Indians of Minnesota ("Tribe") certain lands that the Tribe had previously ceded to the United States for use by non-Indians. The lands restored to the Tribe by the 1945 Order are lands that were continuously held in trust by the United States since the cessions, that were never sold or otherwise disposed of, and for which the Tribe was never paid. This notice provides a partial list of the lands restored to the Tribe by the 1945 Order.

**SUPPLEMENTARY INFORMATION:** The Nelson Act of January 14, 1889, ch. 24, 25 Stat. 642, created and authorized a Federal commission to negotiate a cession of lands in northern Minnesota from the Red Lake Band of Chippewa Indians of Minnesota ("Tribe") to the United States. By agreement dated July 8, 1889, 2.9 million acres of land known as "Royce 706" were ceded by the Tribe to the United States for the benefit of the Tribe. The Tribe retained a much smaller area known as "Royce 707."

On March 10, 1902, another agreement was negotiated between the Tribe and the United States for the cession of an additional 256,152 acres of land in the western portion of Royce 707. This agreement was approved by Congress under the Act of February 20, 1904, ch. 161, 33 Stat. 46. The Tribe's present-day reservation is composed of land remaining after the 1889 and 1902 cessions. Consistent with the provisions of the Nelson Act, the lands the Tribe

ceded to the United States were opened for timber sales and homesteading, and most of the lands were disposed of by the 1930s.

The Indian Reorganization Act of 1934 ("IRA"), 25 U.S.C. 461 *et seq.*, authorized the Secretary of the Interior, if he found it to be in the public interest, "to restore to tribal ownership the remaining surplus lands to any Indian reservation [that prior to June 18, 1934 were] opened, or authorized to be opened, to sale or any other form of disposal by Presidential proclamation, or by any of the public land laws of the United States[.]" 25 U.S.C. 463(a).

On February 22, 1945, exercising this authority granted by the IRA, the Secretary of the Interior issued an Order of Restoration ("1945 Order") 10 FR 2448 (1945). The 1945 Order "Restored to tribal ownership all those lands of the Red Lake Indian Reservation which were ceded by the Indians under [the Nelson Act and the Act of February 20, 1904] and which were opened for sale or entry but for which the Indians have not been paid and which now are or hereafter may be classified as undisposed of." 10 FR at 2449. See also Act of December 4, 1942, ch. 673, 56 Stat. 1039 ("All right, title, and interest of the Minnesota Chippewa Tribe in and to the so-called Red Lake Indian ceded lands, including any administrative reserves, is hereby declared extinguished and title thereto vested in the Red Lake Band of Chippewa Indians.").

On May 28, 1945, the Acting Commissioner of the General Land Office forwarded to the Commissioner of the Office of Indian Affairs a list of lands that satisfied the criteria of the 1945 Order and could be returned to the Band. On April 29, 1946, and January 9, 1947, amendments to the list of lands were made. The list of May 28, 1945, and the amendments of April 29, 1946, and January 9, 1947 (collectively, the "1945 List") totaled approximately 157,499 acres of noncontiguous lands. The 1945 List was to have been published in the **Federal Register** to provide public notice of lands that were subject to the 1945 Order. However, shortly after the 1945 List was completed, several title and legal description problems with lands on the list were discovered, and the 1945 List was never published in the **Federal Register**.

From 1945 until 1988, the Department attempted to resolve many of the vexing title and legal description problems with the lands on the 1945 List. On December 22, 1988, the Acting State Director of the Eastern States Office, Bureau of Land Management ("BLM"),

forwarded to the Bureau of Indian Affairs a comprehensive listing of lands totaling approximately 186,533 acres ("1988 List") that the BLM had determined qualified for restoration to the Band under the 1945 Order. Many of the lands on the 1945 List were on the 1988 List. However, shortly after the 1988 List was completed, several additional title and legal description problems were discovered and the 1988 List was never published in the **Federal Register**.

In December 1997, the Department initiated a review of the lands on the 1945 and 1988 Lists. On February 2, 1999, the Department published in the **Federal Register** a list of lands totaling 89,852.06 acres which were determined to be eligible for restoration to the Tribe pursuant to the 1945 Order. 64 FR 5069 (1999).

The Department has determined through a review of BLM records that the following lands that were ceded by the Tribe to the United States in 1889 and 1902, that were held in trust by the United States subject to sale for the benefit of the Tribe, and that were not disposed of by the United States, were restored to the Tribe by the 1945 Order. This list does not represent a final list of all those lands restored to tribal ownership under the 1945 Order. Descriptions of any additional lands that were restored by the 1945 Order may be published as they are confirmed.

These surveys were requested by the Forest Service for administrative purposes.

The plat representing the dependent resurvey of a portion of the Eight Standard Parallel North (south boundary), portions of the north boundary, the subdivisioinal lines, and the subdivision of certain sections, T. 33 N., R. 4 W., New Mexico Principal Meridian, Group 1281, Colorado, was accepted September 13, 2001.

This survey was requested by the Bureau of Indian Affairs for administrative purposes.

The plat representing the entire record of the limited corrective dependent resurvey designed to reflect a new tie to a recently recovered 1919 court ordered survey, T. 1 N., R. 64 W., T. 1 N., R. 64 W., Sixth Principal Meridian, Group 629, Colorado, was accepted August 6, 2001.

The plat representing the dependent resurvey of a portion of the subdivisioinal lines, and the subdivision of sections 26 and 27, T. 13 S., R. 73 W., Sixth Principal Meridian, Group 1280, Colorado, was accepted August 6, 2001.

The plat representing the dependent resurvey of a portion of the subdivisioinal lines, and the subdivision of section 3, T. 40 N., R. 6 E., New Mexico Principal Meridian, Group 1284, Colorado, was accepted August 7, 2001.

The plat representing the dependent resurvey of a portion of the Tenth Standard Parallel North, a portion of the subdivisioinal lines, and the subdivision of section 34, T. 41 N., R. 6 E., New Mexico Principal Meridian, Group 1284, Colorado, was accepted August 7, 2001.

The plat representing the entire record of the corrective dependent resurvey of certain mineral surveys, T. 3 S., R. 72 W., Sixth Principal Meridian, Group 680, Colorado, was accepted August 13, 2001.

The plat representing the entire record of the retracement of certain mineral surveys, the informative traverse of the approximate centerline of Colorado State Highway No. 72, a.k.a. the Peak to Peak Highway, the survey of the boundary of new Lot 54, and a supplemental plat of lot 57, all in the SW $\frac{1}{4}$  of section 12, T. 1 N., R. 73 W., Sixth Principal Meridian, Group 875, Colorado, was accepted August 13, 2001.

The plat representing the corrective dependent resurvey of a portion of the subdivisioinal lines, T. 1 S., R. 73 W., Sixth Principal Meridian, Group 1298, Colorado, was accepted August 13, 2001.

The plat representing the limited corrective dependent resurvey of a portion of the subdivisioinal lines and a
