

electric generating facility located in Harrison County, Texas and selling electric energy at wholesale.

Comment date: November 30, 2001, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy or the application.

18. Canastota Windpower, LLC

[Docket No. ER01-2692-002]

Take notice that on November 6, 2001, Canastota Windpower, LLC (Canastota or Applicant) tendered for filing with the Federal Energy Regulatory Commission (Commission) Amended and Restated Application for Order Authorizing Market-based Rates, Waiving Regulations and Granting Blanket Approvals, pursuant to Commission letter dated October 11, 2001 request for additional information.

Comment date: November 27, 2001, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

David P. Boergers,

Secretary.

[Docket No. CP01-45-000]

Colorado Interstate Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Valley Line Expansion Project

November 9, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Colorado Interstate Gas Company (CIG) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of facilities to reinforce CIG's existing natural gas transmission system, including:

- The 5C Central Loop—about 35 miles of 24-inch-diameter loop between CIG's existing Ault Meter Station and the Fort Lupton Compressor Station, all in Weld County, Colorado;
- The Valley Line Loop—about 84 miles of 20-inch-diameter loop which would generally parallel CIG's existing Valley Line between its Watkins Compressor Station in southern Adams County east of Denver and a location adjacent to the existing Nixon Power Plant in central El Paso County south of Colorado Springs;
- Two new natural gas-fired reciprocating engine-driven compressors, totaling 4,450 horsepower, and appurtenant facilities at CIG's Fort Lupton Compressor Station in Weld County, Colorado; and
- Appurtenant and ancillary facilities.

The purpose of the proposed facilities would be to transport an additional 278.8 million cubic feet of natural gas per day (MMcfd) on the portion of CIG's system between its Cheyenne Compressor Station in northern Weld County and its Watkins Compressor Station in southern Adams County, and an additional 344.4 MMcfd on the portion of its Valley Line between its Watkins Compressor Station and the vicinity of the Nixon Power Plant in central El Paso County south of Colorado Springs.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, State and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of Gas Branch 1, PJ11.1.
- Reference Docket No. CP01-45-000; and
- Mail your comments so that they will be received in Washington, DC on or before December 10, 2001.

Comments may also be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create an account which can be created by clicking on "Login to File" and then "New User Account."

Due to current events, we cannot guarantee that we will receive mail on a timely basis from the U.S. Postal Service, and we do not know how long this situation will continue. However, we continue to receive filings from private mail delivery services, including messenger services in a reliable manner. The Commission encourages electronic filing of comments in this proceeding.

Comments will be considered by the Commission but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to rule 214 of the Commission's rules of practice and procedures (18 CFR 385.214).¹ Only intervenors have the

¹ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.

Additional information about the proposed project is available from the Commission's Office of External Affairs, at (202) 208-1088 or on the FERC Internet web site (www.ferc.gov) using the "RIMS" link to information in this docket number. Click on the "RIMS" link, select "Docket#" from the RIMS Menu, and follow the instructions. For assistance with access to RIMS, the RIMS helpline can be reached at (202) 208-2222.

Similarly, the "CIPS" link on the FERC Internet website provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings. From the FERC Internet website, click on the "CIPS" link, select "Docket#" from the CIPS menu, and follow the instructions. For assistance with access to CIPS, the CIPS helpline can be reached at (202) 208-2474.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 6032-041 New York]

Niagara Mohawk Power Corporation, Fourth Branch Associates; Notice of Availability of Draft Environmental Assessment

November 13, 2001.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the Commission's Notice of Termination of License by Implied Surrender for the Machanicville Hydroelectric Project, located on the Hudson River in Saratoga and Rensselaer Counties, New York, and has prepared a Draft Environmental Assessment (DEA) for the project. No Federal lands or Indian reservations are

occupied by project works or located within the project boundary.

The DEA contains the staff's analysis of the potential environmental impacts of the project and concludes that terminating the license by implied surrender, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The staff also concludes that terminating the license by implied surrender constitutes an undertaking for the purposes of section 106 of the National Historic Preservation Act of 1966, as amended, and that such termination would have an effect on the Mechanicville Hydroelectric Project, a property listed in the National Register of Historic Places. All interested parties are requested to comment as instructed below.

A copy of the DEA is on file with the Commission and is available for public inspection. The DEA may also be viewed on the Web at <http://www.ferc.gov> using the "RIMS" link—select "Docket #" and follow the instructions (call 202-208-2222 for assistance).

Any comments should be filed within 45 days from the date of this notice and should be addressed to David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. Please affix Project No. 6032-041 to all comments. Comments may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Due to current events, we cannot guarantee that we will receive mail on a timely basis from the U.S. Postal Service, and we do not know how long this situation will continue. However, we continue to receive filings from private mail delivery services, including messenger services in a reliable manner. The Commission encourages electronic filing of any comments in this proceeding. We will include all comments that we receive within a reasonable time in our environmental analysis of this project.

For further information, contact the Ellen Armbruster at (202) 208-1672.

David P. Boergers,
Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-6-000]

Colorado Interstate Gas Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Raton Basin 2002 Expansion Project, and Request for Comments on Environmental Issues

November 9, 2001.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of Colorado Interstate Gas Company's (CIG) proposed Raton Basin 2002 Expansion Project in Las Animas and Baca Counties, Colorado, and Cimarron County, Oklahoma.¹ The project would involve the construction and operation of about 68 miles of pipeline, in three looping segments.² This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a CIG representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" should have been attached to the project notice CIG provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet web site (<http://www.ferc.gov>).

This Notice of Intent (NOI) is being sent to landowners along CIG's proposed route; Federal, state, and local government agencies; national elected

¹ CIG's application was filed under section 7(c) of the Natural Gas Act and part 157 of the Commission's regulations on October 5, 2001.

² A loop is a segment of pipeline installed adjacent to an existing pipeline and connected to it on both ends. The loop allows more gas to be moved through that segment of the pipeline system.
