SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. [Docket No. EL02-20-000]

California Independent System Operator Corporation, California Electricity Oversight Board, Public Utilities Commission of the State of California Complainants, v. Pacific Gas and Electric Company, Respondent; Notice of Complaint

November 14, 2001.

Take notice that on November 13, 2001, the California Independent System Operator Corporation (the ISO), the California Electricity Oversight Board, and the Public Utilities Commission of the State of California submitted a complaint pursuant to

section 206 of the Federal Power Act, 16 U.S.C. 824e, against Pacific Gas and Electric Company (PG&E) alleging that certain rates, referred to as the Fixed Option Payments, payable by the ISO under certain reliability must run (RMR) contracts between the ISO and respondent are unjust and unreasonable.

Complainants allege that the currently effective Fixed Option Payments were set by a series of settlements in 1999 and 2000, that covered most RMR units, including those owned by PG&E. Complainants, along with the major California investor-owned utilities, including PG&E, sought to lower the cost of the Fixed Option Payment in Docket Nos. ER98-495-000, *et al.* In an initial decision in that proceeding, issued June 7, 2000, the Presiding Administrative Law Judge adopted the "net incremental cost" method for calculating the Fixed Option Payment. Claimants assert that the same method, applied to the respondents' RMR units, would yield Fixed Option Payments lower than those currently in affect. Complainants ask that the Commission institute an investigation, set a refund date of January 12, 2001, and defer further action pending its decision on exceptions in Docket Nos. ER98-495-000, *et al.*

Copies of the complaint were served on respondents and on other interested parties.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests must be filed on or before December 3, 2001. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Answers to the complaint shall also be due on or before December 3, 2001.
