SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart A, General. *OMB Control Number:* 1010-0114.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended, 43 U.S.C. 1331 *et seq.*, requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS in a manner which is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resource development with protection of human, marine, and coastal environments; ensure the public a fair and equitable return on resources of the OCS; and preserve and maintain free enterprise competition. Section 1332(6) of the OCS Lands Act requires that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health." This authority and responsibility are among those delegated to MMS. To carry out these responsibilities, MMS has issued regulations for leasing and operations on the OCS. The ICR to be submitted to OMB for review and approval concerns the reporting and recordkeeping elements of the 30 CFR 250, subpart A, General regulations and related forms and Notices to Lessees and Operators (NTLs).

Federal policy and statutes require us to recover the cost of services that confer special benefits to identifiable non-Federal recipients. Section 250.165

requires a State lessee to pay a fee when applying for a right-of-use and easement on the OCS. The Independent Offices Appropriation Act (31 U.S.C. 9701), OMB Circular A-25, and the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996) authorize agencies to collect these fees to reimburse us for the cost to process applications or assessments. This fee is the same as that required for filing pipeline right-of-way applications as specified in § 250.1010(a).

The MMS OCS Regions use the information collected under subpart A to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the development of OCS resources with the protection of the environment. Responses are mandatory. No questions of a "sensitive" nature are asked. MMS will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2), 30 CFR 250.196 (Data and information to be made available to the public) and 30 CFR part 252 (OCS Oil and Gas Information Program).

Frequency: The frequency varies by section, but is generally "on occasion."

Estimated Number and Description of Respondents: Approximately 1 State and 130 Federal OCS oil and gas or sulphur lessees.

Estimated Reporting and Recordkeeping "Hour" Burdens: The following chart details the individual reporting and recordkeeping requirements and respective hour burden estimates of the ICR we will submit to OMB. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden. We welcome your comments on our estimates of the burden hours for these requirements.
