Minerals Management Service

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of extension and revision of a currently approved information collection (OMB Control Number 1010–0114).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in the regulations under 30 CFR 250, subpart A, General.

DATES: Submit written comments by January 25, 2002.

ADDRESSES: Mail or hand-carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170–4817. If you wish to email comments, the e-mail address is: rules.comments@mms.gov. Reference "Information Collection 1010–0114" in your e-mail subject line. Include your name and return address in your e-mail message and mark your message for return receipt.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 250, Subpart A, General. OMB Control Number: 1010-0114. Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended, 43 U.S.C. 1331 et seq., requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS in a manner which is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resource development with protection of human, marine, and coastal environments; ensure the public a fair and equitable return on resources of the OCS; and preserve and maintain free enterprise competition. Section 1332(6) of the OCS Lands Act requires that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health." This authority and responsibility are among those delegated to MMS. To carry out these responsibilities, MMS has issued regulations for leasing and operations on the OCS. The ICR to be submitted to OMB for review and approval concerns the reporting and recordkeeping elements of the 30 CFR 250, subpart A, General regulations and related forms and Notices to Lessees and Operators (NTLs).

Federal policy and statutes require us to recover the cost of services that confer special benefits to identifiable non-Federal recipients. Section 250.165 requires a State lessee to pay a fee when applying for a right-of-use and easement on the OCS. The Independent Offices Appropriation Act (31 U.S.C. 9701), OMB Circular A–25, and the Omnibus Appropriations Bill (Pub. L. 104–133, 110 Stat. 1321, April 26, 1996) authorize agencies to collect these fees to reimburse us for the cost to process applications or assessments. This fee is the same as that required for filing pipeline right-of-way applications as specified in § 250.1010(a).

The MMS OCS Regions use the information collected under subpart A to ensure that operations on the OCS are carried out in a safe and pollution-free manner, do not interfere with the rights of other users on the OCS, and balance the development of OCS resources with the protection of the environment. Responses are mandatory. No questions of a "sensitive" nature are asked. MMS will protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR 2), 30 CFR 250.196 (Data and information to be made available to the public) and 30 CFR part 252 (OCS Oil and Gas Information Program).

Frequency: The frequency varies by section, but is generally "on occasion."

Estimated Number and Description of Respondents: Approximately 1 State and 130 Federal OCS oil and gas or sulphur lessees.

Estimated Reporting and Recordkeeping "Hour" Burdens: The following chart details the individual reporting and recordkeeping requirements and respective hour burden estimates of the ICR we will submit to OMB. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden. We welcome your comments on our estimates of the burden hours for these requirements.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency "* * * to provide notice * * * and otherwise consult with members of the public and affected

agencies concerning each proposed collection of information * * * * ". Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the "nonhour cost" burdens to respondents or recordkeepers resulting from the

collection of information. The application fee discussed previously is the only identified non-hour cost burdens for the information collection aspects of 30 CFR 250, subpart A. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare

for collecting information, monitoring, and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety. UNITED STATES INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 701–TA–402 (Final) and 731–TA–892–893 (Final)]

Honey From Argentina and China

Determinations

On the basis of the record ¹ developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act), and section 735(b) of the Act (19 U.S.C. 1673d(b)), that an industry in the United States is materially injured by reason of imports from Argentina and China of honey, provided for in subheadings 0409.00.00, 1702.90.00, and 2106.90.99 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce to be subsidized by the Government of Argentina and sold in the United States at less than fair value (LTFV). The Commission also makes an affirmative determination that critical circumstances exist with respect to subject imports from China for which Commerce made affirmative critical circumstances determinations.2

Background

The Commission instituted these investigations effective September 29, 2000, following receipt of a petition filed with the Commission and Commerce by the American Honey Producers Association, Bruce, South Dakota, and the Sioux Honey Association, Sioux City, Iowa. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of honey from Argentina were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and that imports of honey from Argentina and China were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the Federal Register of June 13, 2001 (66 FR 31948). The hearing was held in Washington, DC, on October 3, 2001, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on November 19, 2001. The views of the Commission are contained in USITC Publication 3470 (November 2001), entitled Honey from Argentina and China: Investigations Nos. 701–TA–402 and 731–TA–892–893 (Final).

Issued: November 19, 2001. By order of the Commission.
