Fraser River Sockeye and Pink Salmon Fisheries; 2001 Inseason Orders

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason orders.

SUMMARY: NMFS publishes the Fraser River salmon inseason orders regulating salmon fisheries in U.S. waters. The orders were issued by the Fraser River Panel (Panel) of the Pacific Salmon Commission (Commission) and subsequently approved and issued by NMFS during the 2001 sockeye and pink salmon fisheries within the U.S. Fraser River Panel Area. These orders established fishing times, areas, and types of gear for U.S. treaty Indian and all-citizen fisheries during the period the Commission exercised jurisdiction over these fisheries. Due to the frequency with which inseason orders are issued, publication of individual orders is impracticable. The 2001 orders are, therefore, being published in this document to avoid fragmentation.

DATES: Each of the following inseason actions was effective upon announcement on telephone hotline numbers as specified at 50 CFR 300.97(b)(1); those dates and times are listed herein. Comments will be accepted through December 12, 2001.

ADDRESSES: Mail comments to D. Robert Lohn, Regional Administrator, Northwest Region, NMFS, 7600 Sand Point Way N.E., BIN C15700-Bldg. 1, Seattle, WA 98115-0070. Information relevant to this document is available for public review during business hours at the office of the Regional

Administrator, Northwest Region, NMFS.

FOR FURTHER INFORMATION CONTACT: David Cantillon, 206-526-4140.

SUPPLEMENTARY INFORMATION: The treaty between the Government of the United States of America and the Government of Canada Concerning Pacific Salmon was signed at Ottawa on January 28, 1985, and subsequently was given effect in the United States by the Pacific Salmon Treaty Act (Act) at 16 U.S.C. 3631 *et seq.*

Under authority of the Act, Federal regulations at 50 CFR part 300 subpart F provide a framework for implementation of certain regulations of the Commission and inseason orders of the Commission's Panel for U.S. sockeye and pink salmon fisheries in the Fraser River Panel Area.

The regulations close the Fraser River Panel Area (U.S.) to U.S. sockeye and pink salmon fishing unless opened by Panel regulation or by inseason regulations published by NMFS that give effect to Panel orders. During the fishing season, NMFS may issue regulations that establish fishing times and areas consistent with the Commission agreements and inseason orders of the Panel. Such orders must be consistent with domestic legal obligations. The Regional Administrator, Northwest Region, NMFS, issues the inseason orders. Official notification of these inseason actions of NMFS is provided by two telephone hotline numbers described at 50 CFR 300.97(b)(1). Inseason orders must be published in the **Federal Register** as soon as practicable after they are issued. Due to the frequency with which inseason orders are issued, publication of individual orders is impractical. Therefore, the 2001 orders are being published in this document to avoid fragmentation.

The following inseason orders were adopted by the Panel and issued for U.S. fisheries by NMFS during the 2001 fishing season. The times listed are local times, and the areas designated are Puget Sound Management and Catch Reporting Areas as defined in the Washington State Administrative Code at Chapter 220-22.

Classification

Because these fisheries have been closed, NMFS has determined that good cause exists for this notification to be issued without affording a prior opportunity for public comment because such notification would be unnecessary, impracticable, and contrary to the public interest.

This action is authorized by 50 CFR 300.97, and is exempt from review under Executive Order 12866.

[Docket No. 000831250-0250-01; 111601D]

Fisheries off West Coast States and in the Western Pacific; Coastal Pelagic Species Fisheries; Closure of Directed Fishery for Pacific Mackerel

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure of directed fishery for Pacific mackerel.

SUMMARY: NMFS announces the closure of the directed fishery for Pacific mackerel in the exclusive economic zone off the Pacific coast at 12 noon local time (l.t.) on November 21, 2001. For the fishing season beginning July 1, 2001, 6,000 mt of the 13,837-mt harvest guideline was established for a directed fishery. Based on recent landings, more than 6,000 mt of Pacific mackerel has been landed; therefore, the directed fishery is being closed and the trip limit imposed. The intended effect of this action is to ensure that the harvest guideline will be achieved, but not exceeded, and to minimize bycatch of Pacific mackerel while other coastal pelagic species are being harvested. **DATES:** Effective 12 noon local time on November 21, 2001, until the effective date of the 2002 fishing season for Pacific mackerel, which will publish in the **Federal Register**.

ADDRESSES: The data that was used as the basis for this action is available for public inspection at the Office of the Acting Regional Administrator, Rodney R. McInnis, Southwest Region (Regional Administrator), NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213.
