

You may send comments by electronic mail (e-mail) to FW6_PipingPlover@fws.gov. See the Public Comments Solicited section below for file format and other information on electronic filing.

Copies of the draft economic analysis, draft environmental assessment, and proposed rule for designation of critical habitat for the northern Great Plains breeding population of the piping plover are available from the aforementioned address or on the Internet at <http://mountain-prairie.fws.gov/pipingplover>.

You may view comments and materials received, as well as supporting documentation used in the preparation of this proposed rule, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Nell McPhillips, Fish and Wildlife Biologist, at the above address or at 605-224-8693, extension 32.

SUPPLEMENTARY INFORMATION:

Background

We published a proposed rule to designate critical habitat for the northern Great Plains breeding population of the piping plover in the **Federal Register** (66 FR 31760, June 12, 2001). Section 4(b)(2) of the Endangered Species Act (Act) requires that we designate or revise critical habitat based upon the best scientific and commercial data available and after taking into consideration the economic impacts, and any other relevant impact, of specifying any particular area as critical habitat. We may exclude an area from critical habitat if we determine that the benefits of excluding the area outweigh the benefits of including the area as critical habitat, provided such exclusion will not result in the extinction of the species.

The proposed designation includes 11 areas of prairie alkali wetlands and reservoir lakes in 5 counties in Montana, 18 counties in North Dakota, and 1 county at Lake-of-the-Woods, Minnesota, totaling approximately 196,576.5 acres [79,553.1 hectares]. It also includes five areas of portions of four rivers in the States of Montana, North Dakota, South Dakota, and Nebraska, totaling approximately 1,338 miles [2,152.9 kilometers] of river. If this proposal is made final, section 7 of the Act would prohibit destruction or adverse modification of critical habitat by any activity funded, authorized, or carried out by any Federal agency.

Public Comments Solicited

We will accept written comments and information during this comment period. If you wish to comment, you

may submit your comments and materials concerning this proposal by any one of several methods (see **ADDRESSES**). If you would like to submit comments by electronic format, please submit them in ASCII file format and avoid the use of special characters and encryption. Please include your name and return e-mail address in your e-mail message. Please note that the e-mail address will be closed out at the termination of the public comment period. If you do not receive confirmation from the system that we have received your message, contact us directly by calling our South Dakota Field Office at 605-224-8693.

Comments and materials received, as well as supporting documentation used in preparation of the proposal to designate critical habitat, will be available for public inspection, by appointment, during normal business hours at the above address. Copies of the draft Environmental Assessment are available on the Internet at <http://mountain-prairie.fws.gov/pipingplover> or by writing to Pete Gober, Field Supervisor (see **ADDRESSES**).

Author

The primary authors of this notice are the South Dakota Field Office staff (see **ADDRESSES** section).

Authority

The authority for this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

Dated: November 30, 2001.

John A. Blankenship,

Deputy Regional Director, Denver, Colorado.

50 CFR Part 648

[I.D. 122001A]

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Public meeting.

SUMMARY: The New England Fishery Management Council (Council) will hold a 3-day Council meeting on January 15 through 17, 2002, to consider actions affecting New England fisheries in the U.S. exclusive economic zone (EEZ).

DATES: The meeting will be held on Tuesday, Wednesday, and Thursday, January 15, 16, and 17, 2002. The meeting will begin at 9 a.m. on Tuesday and 8:30 a.m. on Wednesday and Thursday.

ADDRESSES: The meeting will be held at the Courtyard by Marriott, 1000 Market Street, Portsmouth, NH 03801; telephone (603) 436-2121. Requests for special accommodations should be addressed to the New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950; telephone (978) 465-0492.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council, (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Tuesday, January 15, 2002

Following introductions, the Council will receive a briefing on the status of the U.S./Canada shared resources agreement. The Enforcement Committee will discuss its recommendations concerning the Council's Enforcement Policy in view of the 9/11 attacks because of United States Coast Guard (USCG) redirection of USCG resources to national security. The Enforcement Committee may possibly discuss Enforcement Committee progress on reviewing Amendment 10 to the Atlantic Sea Scallop Fishery Management Plan (FMP) and Framework Adjustment 1 to the Monkfish FMP. Later in the morning, there will be a Stock Assessment Public Review Workshop during which an advisory report on the status of monkfish, Georges Bank winter flounder, and Loligo squid developed at the 34th Stock Assessment Workshop will be presented. The Council will then begin consideration of monkfish management issues. It intends to approve final action on Framework Adjustment 1 to the Monkfish FMP.

Options under consideration include, but are not limited to: (1) taking no action and allowing the FMP Year 4 default measures to take effect (and eliminating the directed fishery); (2) postponing the Year 4 default measures for one year and adjusting trip limits and days-at-sea allocations to achieve fishing year 2000 landings levels (after accounting for the court-ordered adjustment to the gillnet trip limits) (the preferred alternative); and (3) adjusting management measures to reduce catches to the Years 2 and 3 total allowable catch (TAC) targets. The Council also will consider scoping comments on

Amendment 2 to the Monkfish FMP. Amendment 2 will consider updated scientific information in revising overfishing definitions, rebuilding targets and management measures, as appropriate to rebuild stocks to maximum sustainable levels by 2009; reduce overall FMP complexity; update environmental impact documents; consider modifications to the limited entry program for vessels fishing south of the North Carolina/Virginia border; and update the Essential Fish Habitat components.

Wednesday, January 16, 2002

The meeting will reconvene with reports on recent activities from the Council Chairman and Executive Director, the NMFS Regional Administrator, Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons, NOAA General Counsel and representatives of the U.S. Coast Guard, NMFS Enforcement and the Atlantic States Marine Fisheries Commission. A brief period for general comments from the public concerning fisheries management issues will follow. During the Scallop Committee Report the committee will request approval of additional management alternatives to be included in draft Amendment 10 to the Atlantic Sea Scallop FMP and analyzed in the Draft Supplemental Environmental Impact Statement (DSEIS). Primary issues include alternatives to manage effort by vessels

with limited access and general category scallop permits, minimize habitat and bycatch impacts, and address monitoring and data collection issues.

Thursday, January 17, 2002

On the final day of the meeting, the Council plans to approve final management measures to be included in the Deep-Sea Red Crab FMP. Measures under consideration include controlled access, days-at-sea and trip limit programs for the directed red crab fishery, and the establishment of a fishing year for management purposes. There will be an update on the initial meeting of the Council's Marine Protected Area Committee followed by a report from the Capacity Committee. The Capacity Committee will discuss and seek Council guidance on capacity reduction proposals to be included in Amendment 13 to the Northeast Multispecies FMP. The Groundfish Committee will provide an update on the development of Amendment 13 as well as Framework 36 to the Northeast Multispecies FMP. Prior to addressing any other outstanding business, the Council will consider the development of an FMP for hagfish and possible approval of a control date to determine future access to the fishery.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any

issues arising after publication of this notice that require emergency action under section 305 (c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.

The New England Council will consider public comments at a minimum of two Council meetings before making recommendations to the National Marine Fisheries Service Regional Administrator on any framework adjustment to a fishery management plan. If the Regional Administrator concurs with the adjustment proposed by the Council, the Regional Administrator may publish the action either as proposed or final regulations in the **Federal Register**. Documents pertaining to framework adjustments are available for public review 7 days prior to a final vote by the Council.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (*see ADDRESSES*) at least 5 days prior to the meeting date.

Dated: December 21, 2001.

Richard W. Surdi,
