The information collection will allow CCC to administer the Step 2 program.

Title: Upland Cotton Domestic User/Exporter Agreement and Payment Program.

OMB Control Number: 0560-0136.

Expiration Date of Approval: February 28, 2002.

Type of Request: Reinstatement and Revision of a Previously-Approved Information Collection.

Abstract: The information collected under OMB Control Number 0560-0136, as identified above, allows CCC to administer the Upland Cotton User Agreement and User Marketing Certificate Program as authorized by the Federal Agriculture Improvement and

Reform Act of 1996 (1996 Act). Section 136(a) of the 1996 Act authorizes payments to eligible U.S. textile manufacturers and exporters under the Upland Cotton User Marketing Certificate Program if, for 4 consecutive weeks, (1) the U.S. Northern Europe price, as quoted for Middling 1 $\frac{3}{32}$ -inch cotton, exceeds the Northern Europe price by more than 1.25 cents per pound, and (2) the prevailing upland cotton adjusted world market price is less than 134 percent of the current-crop base quality loan rate. Currently, to participate in the program, manufacturers and exporters must sign an agreement with CCC using form CCC-1045. Domestic manufacturers must report to CCC their weekly consumption of cotton as a basis for making payments. Exporters must provide basic shipping and invoice information for each shipment of cotton. No change is proposed in the existing information collection requirements, and program participants will not be required to sign a new agreement upon OMB's extension of this information collection. CCC provides a suggested format for the reports but program participants may submit the same information to CCC in a format that is convenient for them.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 14 minutes per response.

Respondents: U.S. cotton exporters and U.S. cotton mills.

Estimated Number of Respondents: 310.

Estimated Number of Responses Per Respondent: 65.

Estimated Total Annual Burden on Respondents: 4,700 hours.

Comments are requested regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 60 days of publication.

Signed at Washington, DC, on February 15, 2002.

SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Codex is the major international organization for protecting the health and economic interests of consumers and encouraging fair international trade in food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled. In the United States, USDA, FDA, and EPA manage and carry out U.S. Codex activities.

The Codex Committee on Food Labeling drafts provision on labeling applicable to all foods; considers, amends if necessary, and endorses specific provisions on labeling of draft standards, codes of practice, and guidelines prepared by other Codex committees; studies specific labeling problems assigned to it by the Commission; and studies problems associated with the advertisement of food with particular reference to claims and misleading descriptions. The Committee is chaired by Canada.
