

approval of each new or revised recovery plan. Substantive technical comments may result in changes to the plan. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plan, but will be forwarded to appropriate Federal or other entities so that they can take these comments into account during the course of implementing recovery actions. Individual responses to comments will not be provided.

San Francisco lessingia and Raven's manzanita are restricted to the San Francisco peninsula in San Francisco County, California. San Francisco lessingia, an annual herb in the aster family, is restricted to coastal sand deposits. Raven's manzanita is a rare evergreen creeping shrub in the heath family which was historically restricted to few scattered serpentine outcrops. Habitat loss, adverse alteration of ecological processes, and invasion of non-native plant species threaten San Francisco lessingia. Raven's manzanita has also been threatened by habitat loss; primary current threats include invasion of non-native vegetation and fungal pathogens. The draft plan also makes reference to several other federally listed species which are ecologically associated with San Francisco lessingia and Raven's manzanita, but which are treated comprehensively in other recovery plans. These species are beach layia (*Layia carnosa*), Presidio clarkia (*Clarkia franciscana*), Marin dwarf-flax (*Hesperolinon congestum*), Myrtle's silverspot butterfly (*Speyeria zerene myrtleae*), and bay checkerspot butterfly (*Euphydryas editha bayensis*). In addition, 16 plant species of concern and 17 plant species of local or regional conservation significance are considered in this recovery plan.

The draft recovery plan stresses re-establishing dynamic, persistent populations of San Francisco lessingia and Raven's manzanita within plant communities which have been restored to be as "self-sustaining" as possible within urban wildland reserves. Specific recovery actions for San Francisco lessingia focus on the restoration and management of large, dynamic mosaics of coastal dune areas supporting shifting populations within the species' narrow historic range. Recovery of Raven's manzanita may include, but may not be limited to, the strategy of the 1984 Raven's Manzanita Recovery Plan, which emphasized the stabilization of the single remaining genetic individual. The draft plan also recommends re-establishing multiple sexually reproducing populations of Raven's manzanita in association with

its historically associated species of local serpentine outcrops. The objectives of this recovery plan are to delist San Francisco lessingia and to downlist Raven's manzanita through implementation of a variety of recovery measures including (1) Protection and restoration of a series of ecological reserves (often with mixed recreational and conservation park land uses); (2) promotion of population increases of San Francisco lessingia and Raven's manzanita within these sites, or reintroduction of them to restored sites; (3) management of protected sites, especially the extensive eradication or suppression of invasive dominant non-native vegetation; (4) research; and (5) public participation, outreach and education.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of this plan.

Authority: The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: March 4, 2002.

Duane K. McDermond,
Deputy Manager, California/Nevada
Operations Office, Sacramento, California.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Meeting of the Klamath River Basin Fisheries Task Force

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), this notice announces a meeting of the Klamath River Basin Fisheries Task Force, established under the authority of the Klamath River Basin Fishery Resources Restoration Act (16 U.S.C. 460ss *et seq.*). The meeting is open to the public. The purpose of the meeting is to continue providing recommendations from the affected interests to the Department of the Interior on implementation of their program to restore anadromous fisheries, including salmon and steelhead, of the Klamath River in California and Oregon.

DATES: The Klamath River Basin Fisheries Task Force (Task Force) will meet from 9 a.m. to 5 p.m. on June 19,

2002, and from 8 a.m. to 5 p.m. on June 20, 2002.

ADDRESSES: The meeting will be held at the Yurok Tribal office, Highway 96, Weitchpec, CA.

FOR FURTHER INFORMATION CONTACT: Phil Detrich, Project Leader, U.S. Fish and Wildlife Service, 1829 South Oregon Street, Yreka, California 96097, telephone (530) 842-5763.

SUPPLEMENTARY INFORMATION: For background information on the Task Force, please refer to the notice of their initial meeting that appeared in the **Federal Register** on July 8, 1987 (52 FR 25639).

Dated: March 4, 2002.

John Engbring,
Acting Manager, California/Nevada
Operations Office, Sacramento, California.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Determination of Trust Land Acquisition

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Indian Affairs (BIA) is publishing this notice to provide notification of the determination that public Law 98-602 land settlement claim funds were used to purchase trust land in Kansas City, Kansas for the Wyandotte Tribe of Oklahoma (Tribe).

FOR FURTHER INFORMATION CONTACT: George T. Skibine, Director, Office of Indian Gaming Management, Bureau of Indian Affairs 1849 C Street NW, MS-2070 MIB, Washington, DC 20240; by telephone at (202) 219-4066 (this is not a toll-free number); or by telefax at (202) 273-3153.

SUPPLEMENTARY INFORMATION: This notice is published in exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8 and in accordance with 5 U.S.C. 2, 9, 2710.

Background

The statutory authority for the Wyandotte Tribe's acquisition of the Kansas City tract (Shriner's Building) is Public Law 98-602, 98 Stat. 3149, enacted on October 30, 1984. It expressly provides that "\$100,000 of such funds shall be used for the purchase of real property which shall be held in trust by the Secretary for the Tribe." Public Law 98-602 § 105(b)(1). When section 602 funds were received by Wyandotte Tribe of Oklahoma, the Tribe purchased \$100,000 of mortgage obligation bonds on May 14, 1986. Interest and bond dividend earnings were retained in an existing cash account. As bonds were redeemed and additional bonds purchased, the funds flowed through the cash account, which contained other tribal monies.

Beginning in 1989 the Tribe held an investment account which paid some dividends and interests directly to the

Tribe's main accounts. In December 1991, the Tribe eliminated one account and combined the section 602 funds (principal, cash, dividends, and interest) into its main investment account.

At the time of the July 12, 1996 disbursement of \$180,000 for the Shriner's Building purchase, the remaining accumulated amount of section 602 funds and the dividends and interest of those funds, was \$212,169.65.

An analysis of the accumulation of interest and dividends on section 602 funds was completed by KPMG, L.L.P., a public accounting firm. The analysis procedures included tracing balances from bank account statements, testing the appropriateness of the allocation of interest and dividends to section 602 funds and other funds deposited in the main account, tracing the use of the section 602 funds to purchases and sell securities, and the mathematical accuracy of the analysis. KMPG "found that the computations were appropriate and that the ending value that resulted from the initial \$100,000 investment was \$121,170 at the time of the land purchase." The analysis and findings were presented to the Tribe in a November 26, 2001 letter from KPMG.

Determination

The Secretary of the Interior has determined that the funds used to purchase the Shriner's Property in Kansas City, Kansas were from the section 602 settlement of specific land claims. The Secretary affirms that trust status of the subject lands.

Dated: February 22, 2002.

Neal A. McCaleb,

Assistant Secretary—Indian Affairs.

National Park Service

National Register of Historic Places; Notice on NHL Boundaries

The National Park Service has been working to establish boundaries for all National Historic Landmarks for which no specified boundary was identified at the time of designation and therefore are without a clear delineation of the property involved.

In accordance with the National Historic Landmark program regulations 36 CFR 65, the National Park Service notifies owners, public officials and other interested parties and gives them an opportunity to comment on the proposed boundary documentation.

The 60-day comment period on the National Historic Landmark listed below has ended and the boundary documentation has been approved. Copies of the documentation of the landmark and its boundaries, including maps, may be obtained from the National Register of Historic Places, National Park Service, 1849 C Street, Northwest, Suite NC 400, Washington, D.C. 20240, Attention: Sarah Pope (phone: 202-343-9536; e-mail: sarah_pope@nps.gov).

Grant-Kohrs National Historic Landmark

Deer Lodge, Powell County, Montana
Designated a Landmark on December 19, 1960

Carol D. Shull,

Chief of the National Historic Landmarks Survey and Keeper of the National Register; National Register, History and Education.
