A copy of the draft EIS is also available for public inspection and review at the libraries listed under **SUPPLEMENTARY INFORMATION** below.

SUPPLEMENTARY INFORMATION:

Reclamation has issued a draft EIS on the proposed execution of an Implementation Agreement (IA) that would commit the Secretary of the Interior (Secretary) to make Colorado River water deliveries in accordance with the terms and conditions of the IA to enable certain southern California water agencies to implement a proposed Quantification Settlement Agreement (QSA). (The QSA is an agreement in principle among several southern California water agencies. It establishes a framework of conservation measures and water transfers within southern California for up to 75 years. The QSA provides a substantial mechanism for California to reduce its diversions of Colorado River water in normal years to its 4.4 million acre-feet per year apportionment.) The proposed Federal action includes the following components: Execution of an IA, wherein the Secretary agrees to changes in the amount and/or location of deliveries of Colorado River water that are necessary to implement the QSA; adoption of an Inadvertent Overrun and Payback Policy (IOP), which establishes requirements for payback of inadvertent overuse of Colorado River water by Colorado River water users in Arizona, California, and Nevada; and implementation of biological conservation measures to offset potential impacts from the proposed action that could occur to federally listed fish and wildlife species.
