SUPPLEMENTARY INFORMATION: The Voting System Standards (the "Standards") were originally promulgated in 1990. Technological and commercial innovations during the last decade have demanded that the Standards be updated, and the project to revise them was begun in 1998. The revised Standards have two volumes. Volume I provides functional and technical requirements for a number of system types and configurations. Volume II provides testing specifications for the requirements in Volume I. Both Volumes are available at the Commission's web site (<http://www.fec.gov/pages/vss/vss.html>). The Commission previously released for public comment a draft of the first volume on June 16, 2001. 66 FR 35978. During this comment period, the Commission received 38 sets of comments from 39 parties.

Subsequently, the Commission released the entire draft Standards on December 13, 2001. 66 FR 65708. The comment period for the December 13, 2001, draft release ended on February 1, 2002. FR Notice 2001. Twenty-seven sets of comments from twenty-three parties were received by the Commission in response to the December 13, 2001, release. Four commenters requested to testify at a public hearing if one is held.

After considering these requests and the other comments received to date in response to the notice, the Commission believes a public hearing would be helpful in considering the issues raised by the draft Standards. The hearing will be held at 10:00 a.m. on April 17, 2002.

Dated: March 18, 2002.

This evaluation is necessary to understand the impact of CDC's expenditures and efforts to support CBOs and for modifying and improving the HIV prevention case management efforts of CBOs. This data collection will provide standardized data and allow CDC to (a) assess the implementation and effectiveness of HIV prevention case management (PCM) interventions through process and outcome evaluations; (b) determine the degree of adherence to the CBOs' documented HIV PCM intervention protocol, and through quality assurance efforts, to revise program implementation as necessary; (c) understand the behavioral impact of these programs; and (d) provide useful information for CBO program planners and implementers.

Three CBOs funded under Program Announcement 01000, Community-Based Strategies to Increase HIV Testing of Persons at High Risk in Communities of Color, successfully competed for additional funds from Program Announcement 01159, Outcome Evaluation of HIV Prevention Programs with a focus on Prevention Case Management Interventions and Group-Level Interventions Implemented by CDC's Directly-funded Community-
