SUPPLEMENTARY INFORMATION:

Background

Codex was established in 1962 by two United Nations organizations, the Food and Agriculture Organization (FAO), and the World Health Organization (WHO). Codex is the major international organization for protecting the health and economic interests of consumers and encouraging fair international trade in food. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex

seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled. In the United States, USDA, FDA, and EPA manage and carry out U.S. Codex activities.

The Codex Committee on General Principles deals with such procedural and general matters as are referred to it by the Codex Alimentarius Commission. Such matters have included the establishment of the General Principles that define the purpose and scope of the Codex Alimentarius; the nature of Codex standards and the forms of acceptance by countries of Codex standards; the development of Guidelines for Codex Committees; the development of a mechanism for examining any economic impact statements submitted by governments concerning possible implications for their economies of some of the individual standards or some of the provisions thereof; and the establishment of a Code of Ethics for the International Trade in Food. The Committee is chaired by France.

Issues To Be Discussed at the Public Meeting

The provisional agenda items will be discussed during the public meeting:

1. Adoption of the Agenda.
2. Matters referred by the Codex Alimentarius Commission and other Codex Committees, including Traceability.
3. Risk Analysis
 - (a) Proposed Draft Working Principles for Risk Analysis
 - (b) The Application of Risk Analysis in the Elaboration of Codex Standards (prepared by India)
 - (c) Consideration of the development of working principles for risk analysis to be applied by governments
4. Proposed Draft Revised Code of Ethics for International Trade in Foods
5. Guidelines for Cooperation with International Intergovernmental Organizations
6. Membership in the Codex Alimentarius Commission of Regional Economic Integration Organizations
7. Other Business, Future Work

Each issue listed will be fully described in documents distributed, or to be distributed, by the French Secretariat at the 17th Session of CCGP. Members of the public may access or request copies of these documents (see **ADDRESSES**).

Public Meeting

At the March 26th public meeting, the agenda items will be described, discussed, and attendees will have the opportunity to pose questions and offer

comments. Written comments may be offered at the meeting or sent to the FSIS Docket Room (see **ADDRESSES**). Written comments should state that they relate to activities of the 17th CCGP.

Additional Public Notification

Pursuant to Departmental Regulation 4300–4, “Civil Rights Impact Analysis,” dated September 22, 1993, FSIS has considered the potential civil rights impact of this notice on minorities, women, and persons with disabilities. Therefore, to better ensure that these groups and others are made aware of this meeting, FSIS will announce it and provide copies of the **Federal Register** publication in the FSIS Constituent Update.

The Agency provides a weekly FSIS Constituent Update, which is communicated via fax to over 300 organizations and individuals. In addition, the update is available on line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding Agency policies, procedures, regulations, **Federal Register** Notices, FSIS public meetings, recalls and any other types of information that could affect or would be of interest to our constituents/stakeholders. The constituent fax list consists of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals and other individuals that have requested to be included. Through these various channels, the Agency is able to provide information with a much broader, more diverse audience.
