

We published a notice in the **Federal Register** (66 FR 54020) on October 25, 2001 and again on December 28, 2001 (66 FR 67290) that these applications had been filed with the Service. At that time, we had not determined whether the proposed issuance of the permits would comprise a major Federal action. Following completion of our environmental review and consideration of public comments received, the Service has now determined that issuance of the incidental take permits would not be a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended (NEPA). The Service has prepared a Finding of No Significant Impact (FONSI) based on the EA and public comment. This notice is provided pursuant to Section 10 of the Act.

We have evaluated the issuance of section 10(a)(1)(B) permits under section 7 of the Act by conducting an intra-Service section 7 consultation. We have determined that issuance of the permits will not jeopardize the continued existence of the affected species. We have presented this determination in the biological opinion prepared in our analysis of the incidental take permit applications.

We have evaluated whether the proposed permits would meet the issuance criteria established by section 10(a)(2)(B) of the Act. We have determined, and outlined in our Set of Findings, that the incidental take permit applications meet these criteria for issuance.

Copies of the FONSI, biological opinion, and Set of Findings have been forwarded to those people and groups who commented in response to our previous public notices. Copies of these documents are also available to those who have not commented on these applications before (see **ADDRESSES** below). Final permit issuance will occur no sooner than April 19, 2002.

ADDRESSES: Persons wishing to receive the application, HCP, EA, FONSI, biological opinion, and set of findings may obtain an electronic copy on compact disk by writing, telephoning, or e-mailing the Service's Southeast Regional Office, Atlanta, Georgia (see **CONTACTS** below). Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Endangered Species Permits), Ecological Services Field Office, 1208-B Main Street,
