

private citizen. EPA stated that its concerns had been adequately addressed in the FEIS. FDEP requested additional information regarding development of the groundwater monitoring plan. The Navy will continue to partner with FDEP and will keep the agency informed as the plan is developed. The private citizen supported Navy's continued training on the Range.

Conclusion: After considering the analysis contained in the EIS, the final Range Air Installation Compatible Use Zone study, and the comments received from Federal, state, and local agencies, non-governmental organizations, and individual members of the public; I have concluded that continuing operations at Pinecastle Range meets the Navy's purpose and need to maintain fully trained aircrews and support personnel to meet training requirements, and to achieve an acceptable level of readiness prior to deploying independently or as part of a Carrier Battle Group. Although this alternative will result in prominent, but insignificant noise impacts to the surrounding populations, it will not result in potentially significant adverse impacts to endangered species due to maturation and ultimate loss of the scrub habitat. It is therefore considered the environmentally preferable alternative.

Dated: March 29, 2002.

Donald R. Schregardus,

*Deputy Assistant Secretary of the Navy
(Environment).*

BILLING CODE 3810-FF-P

DEPARTMENT OF ENERGY

[Number DE-PS03-02SF22516]

Solicitation for Financial Assistance Applications; Nuclear Explosion Monitoring Research and Engineering Program

AGENCY: National Nuclear Security Administration (NNSA), Oakland Operations Office, Department of Energy (DOE).

ACTION: Notice of solicitation for financial assistance applications.

SUMMARY: The DOE/NNSA, through the Oakland Operations Office is seeking applications to increase nuclear explosion monitoring effectiveness through improved understanding of basic earthquake and explosion phenomenology. Research of a fundamental nature is sought to answer the question of how the seismic energy

is generated from these phenomena (including distributed and single point explosions, double-couple earthquakes and other modes of rock failure) and how this energy is partitioned between P and S waves.

ADDRESSES: The formal solicitation document, Nuclear Explosion Monitoring Research and Engineering Program (DE-PS03-02SF22516), is available through the Industry Interactive Procurement System (IIPS) located at the following URL: <http://e-center.doe.gov>. IIPS provides the medium for disseminating solicitations, receiving financial assistance applications and evaluating applications in a paperless environment. Completed applications are required to be submitted via IIPS. Individuals who have the authority to enter their university or academic institution into a financial assistance award and intend to submit applications via the IIPS system must register and receive confirmation that they are registered prior to being able to submit an application on the IIPS system. An IIPS "User Guide for Contractor" can be obtained by going to the IIPS Homepage at the following URL: <http://e-center.doe.gov> and then clicking on the "Help" button. Questions regarding the operation of IIPS may be e-mailed to the IIPS Help Desk at IIPSHelpDesk@e-center.doe.gov or call the help desk at (800) 683-0751.

FOR FURTHER INFORMATION CONTACT:

Gloria Abdullah-Lewis, Contract Specialist, U.S. Department of Energy, National Nuclear Security Administration, 1301 Clay Street (Room 700N), Oakland, CA 94612-5208; email gloria.abdullah-lewis@oak.doe.gov

SUPPLEMENTARY INFORMATION: Research of a fundamental nature is sought to answer the question of how the seismic energy is generated from these phenomena (including distributed and single point explosions, double-couple earthquakes and other modes of rock failure) and how this energy is partitioned between P and S waves. Specifically:

- How is the generation and partitioning of the seismic energy affected by properties such as (1) source region medium and overburden, (2) the local structure and (3) the surrounding tectonic province;
- What are the significant measurable effects of the partitioning of the seismic energy into various regional P and S phases, especially at high frequency; and
- What is the physical basis for a measurable property, such as magnitude that can be directly related to the yield of a fullycoupled explosion, and how do

emplacement conditions effect the observation?

The solicitation document contains all the information relative to this action for prospective applicants. The North American Industry Classification System (NAICS) number for this program is 5417.

Issued in Oakland, CA, on April 2, 2002.

Georgia M. McClelland,

*Acting Director, Financial Assistance Center,
Oakland Operations Office.*

Duke Energy Trading and Marketing, L.L.C. v. Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc., Entergy New Orleans, Inc., and Entergy Services, Inc.; Notice of Complaint Requesting Fast Track Processing

April 4, 2002.

Take notice that on April 3, 2002, Duke Energy Trading and Marketing, LLC, (DETM) filed a Complaint Requesting Fast Track Processing against Entergy Arkansas, Inc., Entergy Gulf States, Inc., Entergy Louisiana, Inc., Entergy Mississippi, Inc., Entergy New Orleans, Inc., and Entergy Services, Inc. (collectively, Entergy). The Complaint asserts that Entergy, in violation of the terms of its Open Access Transmission Tariff (OATT), has failed to process DETM's application, as agent for the City of North Little Rock, for network transmission service on the Entergy system according to the procedures and time frames set forth in Entergy's OATT.

Copies the Complaint have been served by e-mail, messenger, or overnight delivery on Entergy, as well as the Arkansas Public Service Commission.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such

motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's web site at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and follow the instructions (call 202-208-2222 for assistance). Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Comment Date: April 15, 2002.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP00-6-004]

Gulfstream Natural Gas System, L.L.C.; Notice of Tariff Compliance Filing

April 4, 2002.

Take notice that on March 27, 2002, Gulfstream Natural Gas System, L.L.C. (Gulfstream), tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the tariff sheets listed in Appendix B to the filing, to be effective June 1, 2002.

Gulfstream states that it is submitting its Tariff in advance of the requirements set out in the Commission's orders issued on April 28, 2000, and February 22, 2001, in order to give parties additional time for review. The February 22, 2001 Commission order in Docket No. CP00-6-000, *et al.* granted Gulfstream's request for certificate authority to construct a new 744-mile interstate transmission system to transport up to 1.13 Bcf per day of natural gas to central and eastern Florida. On March 28, 2002, the Commission subsequently issued an order in Docket No. CP00-6-003 amending the certificate. Gulfstream states that its Tariff complies with Commission's Order No. 637 and NAESB requirements, but requests a waiver until January 1, 2003, to accommodate full segmentation and a waiver until June 1, 2003, to accommodate partial day recalls and releases.

Gulfstream states that complete copies of this filing are being mailed to all

parties on the Commission's Official Service List in Docket No. CP00-6-000, *et al.*

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's rules and regulations. All such protests must be filed on or before April 12, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

[Docket Nos. EC02-60-000 and ER02-1298-000]

KeySpan-Ravenswood, Inc.; Notice of Filing

April 3, 2002.

Take notice that on March 29, 2002, KeySpan-Ravenswood, Inc. (Ravenswood) filed with the Federal Energy Regulatory Commission (Commission) an application under section 203 of the Federal Power Act seeking authorization for an intracorporate reorganization, by change of its corporate form, which will result in the nominal transfer of its jurisdictional facilities to KeySpan-Ravenswood LLC, which will be a newly formed affiliated limited liability company (the Transaction). The Transaction may constitute the disposition of jurisdictional facilities associated with the generation facilities it owns and operates (e.g., market-based rate schedule of Ravenswood and the arrangements entered into thereunder, limited transmission interconnection facilities and jurisdictional books and records). Ravenswood has also

submitted A form of A notice of succession for KeySpan-Ravenswood LLC as successor to Ravenswood's rate schedules and agreements entered into thereunder and revised tariff sheets for its market-based rate schedule.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become A party must file A motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's web site at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and follow the instructions (call 202-208-2222 for assistance). PacifiCorp; Notice Granting Late Intervention

April 4, 2002.

On March 15, 2000, the Commission issued a notice of new major license applications filed by PacifiCorp for the Bear River Hydroelectric Projects—Soda Hydroelectric Project No. 20-019, Grace-Cove Hydroelectric Project No. 2401-007, and Oneida Hydroelectric Project No. 472-017, located on the Bear River in Caribou and Franklin Counties, Idaho. The notice established May 15, 2000, as the deadline for filing motions to intervene in the proceeding.
