[Project No. 2416-009; South Carolina]

**Aquenergy Systems, Inc.; Notice of Availability of Final Environmental Assessment**

April 8, 2002.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Energy Projects has reviewed the application for license for the Ware Shoals Hydroelectric Project and has prepared a Final Environmental Assessment (FEA) for the project. The project is located on the Saluda River, in the Town of Ware Shoals, within the counties of Laurens, Greenwood, and Abbeville, South Carolina. No federal lands or facilities are occupied or used by the project.

The FEA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the FEA is on file with the Commission and is available for public inspection. The FEA may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link—select "Docket #" and follow the instructions (call 202-208-2222 for assistance).

[Project No. 2312]

**PPL Great Works, LLC; Notice of Authorization for Continued Project Operation**

April 8, 2002.

On March 31, 2000, PPL Great Works, LLC, licensee (on October 30, 2000, the Commission issued an order amending the license to reflect a name change from PP&L Great Works, LLC to PPL

Great Works, LLC) for the Great Works Project No. 2312, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. Project No. 2312 is located on the Penobscot River in Penobscot County, Maine.

The license for Project No. 2312 was issued for a period ending March 31, 2002. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2312 is issued to PPL Great Works, LLC for a period effective April 1, 2002, through March 31, 2003, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before April 1, 2003, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that PPL Great Works, LLC is authorized to continue operation of the Great Works Project No. 2312 until such time as the Commission acts on its application for subsequent license.
