The Proposal

The FAA proposes to amend 14 CFR part 71 by revising Class E airspace at Nuiqsut, AK. The intended effect of this proposal is to extend that Class E controlled airspace above 1,200 feet to

enable IFR operations at Nuiqsut, AK to be contained within controlled airspace.

The FAA Instrument Flight Procedures Production and Maintenance Branch has developed two new SIAPs for the Nuiqsut Airport. The new approaches are (1) Area Navigation (Global Positioning System) (RNAV GPS) Runway 4, original; (2) RNAV (GPS) Runway 22, original. The existing GPS Runway 4 and GPS Runway 22 SIAPs will be cancelled by this action. Intersections on existing airways have also been created to initiate transitions to the new SIAPs. The transitions require more airspace than currently exists to contain Instrument Flight Rules (IFR) aircraft.

That airspace extending upward from 700 feet above the surface within a 6.5 mile radius of the Nuiqsut Airport will not be affected by this action. That airspace extending upward from 1,200 feet above the surface will be revised and expanded if this action is taken.

The area would be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 in FAA Order 7400.9J, *Airspace Designations and Reporting Points*, dated September 1, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore —(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9J, *Airspace Designations and Reporting Points*, dated September 1, 2001, and effective September 16, 2001, is to be amended as follows:
