

On December 13, 2001, respondent Sammi Steel Co., Ltd. ("Sammi") timely filed an allegation that the Department made a ministerial error in the final results. Petitioners did not submit any comments in reply to this ministerial error allegation.

The Department is revising the all others rate applied to Sammi in the final results in this administrative review of stainless steel sheet and strip in coils from the Republic of Korea. Because Sammi did not participate in the original investigation and because Sammi had no shipments during the period of review, its cash deposit rate is the all others rate assigned to this case.

Sammi's Allegation of a Ministerial Error by the Department

Sammi contends that the Department, in its *Final Results*, erroneously applied the all others rate determined in the original investigation to Sammi, a no shipper during the period of review. Sammi notes that the Department amended its final determination on August 28, 2001, revising the all others rate from 12.12 percent to 2.49 percent. See *Notice of Amendment of Final Determinations of Sales at Less Than Fair Value: Stainless Steel Plate in Coils From the Republic of Korea; and Stainless Steel Sheet and Strip in Coils From the Republic of Korea* ("Amended Final Determination"), 66 FR 45279 (August 28, 2001). Sammi contends that the Department should amend its *Final Results* to apply the all others rate of 2.49 percent determined in the *Amended Final Determination* to Sammi.

Sammi notes that the Department's regulations defines a ministerial error as an "error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial," citing 19 CFR 351.224(f). Therefore, Sammi requests that the Department correct this ministerial error by revising Sammi's cash deposit rate and the all others rate to 2.49 percent in this administrative review, in accordance with the *Amended Final Determination*.

Department's Position: We agree with Sammi. Our *Final Results* erroneously stated that the "all others rate" applicable to exporters or manufacturers who have not been covered in this or any previous review conducted by the Department is 12.12 percent rather than the 2.49 percent established in the *Amended Final Determination*. The correct all others rate applicable to Sammi is the all others rate established

in the *Amended Final Determination*. Since Sammi did not participate in the original investigation and because Sammi had no shipments in the current period of review, its cash deposit rate is the all others rate determined in the *Amended Final Determination*.

Therefore, we are amending the final results of the antidumping duty administrative review of stainless steel sheet and strip in coils from the Republic of Korea to reflect the correction of the above-cited ministerial error.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: January 9, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 01-022. *Applicant:* The Scripps Research Institute, 10550 North Torrey Pines Road, La Jolla, CA 92037. *Instrument:* Electron Microscope, Model Tecnai F20T. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used in the study of the following:

- (1) Cowpea Mosaic Virus isolated from infected plants.
- (2) NwV Mosaic Virus isolated from insect cells.
- (3) Muscle Proteins isolated from vertebrate striated and smooth muscle fibers.

(4) Microtubules and associated proteins isolated from bovine brain or from bacterial expression systems.

(5) CHIP28 Water Channels isolated from human erythrocytes.

(6) Aqua Porins isolated from plants.

(7) Acetylcholine Receptors isolated from the electric organ of Torpedo californica and T.marmorata.

(8) Gap Junctions isolated from rat hearts and liver as well as from tissue culture expression systems.

(9) Rotavirus and Reovirus isolated from infected tissue culture cells.

(10) Transcription Complexes from bacterial and yeast expression systems.

(11) A number of enzyme complexes: fatty acid synthase, glyceraldehyde-3-phosphate dehydrogenase, hemocyanin, GroEL, isolated from various tissues of animal and plant origin.

(12) Tobacco Mosaic Virus isolated from infected plants.

The goals of the investigations are in general to understand the structural basis for how the subcellular organelles function and to elucidate the role that they play in the life of the cell.

Application accepted by Commissioner of Customs: October 14, 2001.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

National Oceanic and Atmospheric Administration

[I.D. 011102G]

Proposed Information Collection; Comment Request; Economic Performance Data for the West Coast (California-Alaska) Commercial Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before March 18, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental

Paperwork Clearance Officer,
Department of Commerce, Room 6086,
14th and Constitution Avenue NW,
Washington DC 20230 (or via Internet at
MClayton@doc.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

Economic performance data for
selected West Coast (California-Alaska)
commercial fisheries will be collected
for each of the following groups of
operations: (1) processors, including on-
shore plants, mothership vessels and at-
sea catcher/processor vessels; (2)
catcher vessels; and (3) charter vessels.
Companies associated with these groups
will be surveyed for expenditure,
earnings and employment data. In
general, questions will be asked
concerning ex-vessel and wholesale
prices and revenue, variable and fixed
costs, expenditures, dependence on the
fisheries, and fishery employment. The
data collection efforts will be
coordinated to reduce the additional
burden for those who participate in
multiple fisheries. Each year the
principal focus of this data collection
program will be on a different set of
fisheries or on a different set of
participants in these fisheries. The data
will be used for the following three
purposes: (1) to monitor the economic
performance of these fisheries and
various components of these fisheries
through primary processing; (2) to
analyze the economic performance
effects of current management measures;
and (3) to analyze the economic
performance effects of alternative
management measures. The measures of
economic performance to be supported
by this data collection program include
the following: (1) contribution to net
National benefit; (2) contribution to
income of groups of participants in the
fisheries (i.e., fishermen, vessel owners,
processing plant employees, and
processing plant owners) (3)
employment; (4) regional economic

impacts (income and employment); and
(5) factor utilization rates. As required
by law, the confidentiality of the data
will be protected.

In each year, the data collection effort
will focus on different components of
the West Coast fisheries and more
limited data will be collected for the
previously surveyed components of
these fisheries. The latter will be done
to update the models that will be used
to track economic performance and to
evaluate the economic effects of
alternative management actions. This
cycle of data collection will result in
economic performance data being
available and updated for all the
components of the West Coast fisheries
identified above.

The large scale of most of the
processing operations involved in these
fisheries and of many of the harvesting
operations and the concentration of
ownership in many of these fisheries,
particularly off Alaska, means that
improved economic data for the
management of these fisheries is a high
priority for the individuals who will
provide data for these fisheries. This is
demonstrated by the fact that
associations representing many of the
Alaskan participants in these fisheries
support this data collection effort and
have volunteered to assist in verifying
the data.

II. Method of Collection

Data will be collected from a sample
of the owners and operators of catcher
vessels, catcher/processors, on-shore
processing plants, motherships and
charter vessels that participate in these
fisheries. The data are expected to be
collected principally by NMFS and
Pacific States Marine Fisheries
Commission economists. Questionnaires
will be mailed to the selected members
of each of the different survey groups
and in many cases those individuals
will be interviewed to ensure the clarity
of their responses. To the extent
practicable, the data collected will
consist of data that the respondents
maintain for their own business
purposes. Therefore, the collection
burden will consist principally of
transcribing data from their internal
records to the survey instrument and
participating in personal interviews. In
addition, current data reporting
requirements will be evaluated to
determine if they can be modified to
provide improved economic data at a
lower cost to respondents and the
Agency. Similarly, it will be determined
if some of these data can be collected
more effectively and efficiently from the
firms that provide bookkeeping and
accounting services to participants in

West Coast commercial marine fisheries.
This data collection method would be
used only after obtaining permission to
do so from participants in the fisheries.

The surveys described in this Federal
Register Notice will be voluntary. The
North Pacific Fishery Management
Council is considering the development
of additional mandatory reporting
requirements for economic data. If such
requirements are implemented, the data
collected with voluntary surveys in
Alaska would be decreased.

III. Data

OMB Number: 0648-0369.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business and other
for-profit organizations.

Estimated Number of Respondents:
2,278.

Estimated Time Per Response: 2 hours
for a response from a catcher vessel; 1
hour for a response from a charter boat
operator; and 8 hours for a response
from a processor.

*Estimated Total Annual Burden
Hours:* 7,074.

*Estimated Total Annual Cost to
Public:* \$0.

IV. Request for Comments

Comments are invited on: (a) whether
the proposed collection of information
is necessary for the proper performance
of the functions of the agency, including
whether the information shall have
practical utility; (b) the accuracy of the
agency's estimate of the burden
(including hours and cost) of the
proposed collection of information; (c)
ways to enhance the quality, utility, and
clarity of the information to be
collected; and (d) ways to minimize the
burden of the collection of information
on respondents, including through the
use of automated collection techniques
or other forms of information
technology.

Comments submitted in response to
this notice will be summarized and/or
included in the request for OMB
approval of this information collection;
they also will become a matter of public
record.

Dated: January 10, 2002.

Madeleine Clayton,

*Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.*
