Bonneville Power Administration; Notice of Filing

April 26, 2002.

Take notice that on February 21, 2002, Bonneville Power Administration (Bonneville) has replaced Attachment D, Methodology for Completing a System Impact Study, to Bonneville's Open Access Transmission Tariff (OATT). Bonneville now seeks a declaratory order finding that its OATT, with the replacement Attachment D, continues to maintain its reciprocity status.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

[Docket No. EL02-78-000]

New York Municipal Power Agency v. New York State Electric & Gas Corp.; Notice of Complaint

April 26, 2002.

Take notice that on April 25, 2002, New York Municipal Power Agency (NYMPA) tendered for filing a complaint alleging that the New York State Electric & Gas Corporation (NYSEG) has failed to pay NYMPA members for oversupply of energy delivered under Schedule 4 of NYSEG's Open Access Transmission Tariff (OATT), during the period commencing on July 1, 1998 and concluding on November 17, 1999.

Copies of the filing were served upon the NYSEG and other parties who NYMPA knew may be expected to be affected by the complaint.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's rules of practice and procedure (18 CFR 385.211 and 385.214). All such motions or protests must be filed on or before May 15, 2002.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Answers to the complaint shall also be due on or before May 15, 2002. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance). Comments, protests, interventions and answers may be filed electronically via the Internet in lieu of paper. [Docket No. CP02-159-000]

Williston Basin Interstate Pipeline Company; Notice of Application

April 26, 2002.

Take notice that on April 15, 2002, Williston Basin Interstate Pipeline Company (Williston Basin), 1250 West Century Avenue, Bismark, North Dakota 58503, pursuant to Sections 7(c) and 7(b) of the Natural Gas Act and the Regulations of the Federal Energy Regulatory Commission, filed an application for a Certificate of Public Convenience and Necessity authorizing the construction and operation of three natural gas storage injection/withdrawal wells and for authorization to abandon three existing natural gas storage injection/withdrawal wells in the Cedar Creek (Baker) Storage Field, Fallon County, Montana. The construction of the three new wells and the abandonment of the three existing wells should not alter the field's capacity or deliverability. This project is a continuation of Williston Basin's gas storage well replacement program for the Cedar Creek (Baker) Storage Field, which began in 2001. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and

follow the instructions (call 202-208-2222 for assistance).

Any questions regarding the application should be directed to Keith A. Tiggelaar, Director of Regulatory Affairs, Williston Basin Interstate Pipeline Company, P.O. Box 5601, Bismark, North Dakota 58506-5601, telephone (701) 530-1560, e-mail: keith.tiggelaar@wbip.com.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before May 17, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties.

However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Secretary.
