

Alexandria, Virginia; Defense Supply Service—Washington, Army Material Command, Alexandria, Virginia; Defense Supply Service—Washington, Pentagon, Rooms 1E700 and 3C157, Arlington, Virginia.

This action does not affect current contracts awarded prior to the effective date of this addition or options that may be exercised under those contracts.

Deletions

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities.
2. The action will not have a severe economic impact on future contractors for the commodities.
3. The action will result in authorizing small entities to furnish the commodities to the Government.
4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the commodities deleted from the Procurement List.

After consideration of the relevant matter presented, the Committee has determined that the commodities listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

Accordingly, the following commodities are deleted from the Procurement List:

Commodity

Sheath, Ax, 8465–01–110–2078.

Commodity

Sheath, Brush Hook (Brush), 8465–01–136–4720.

Commodity

Tissue, Facial, 8540–00–900–4891.

Sheryl D. Kennerly,

Director, Information Management.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 5–2002]

Foreign-Trade Zone 61—San Juan, Puerto Rico Expansion of Manufacturing Authority-Subzone 61G IPR Pharmaceuticals, Inc. Plant (Pharmaceuticals) Carolina, PR

An application has been submitted to the Foreign-Trade Zones Board (the Board) by IPR Pharmaceuticals, Inc., requesting to expand the scope of manufacturing authority under zone procedures within Subzone 61G, at the IPR plant in Carolina, Puerto Rico. It was formally filed on January 17, 2002.

Subzone 61G was approved by the Board in 1995 at a single site (2 bldgs./135,552 square feet, on 6.78 acres)

located at Sabana Gardens Industrial Park, Main Street, Carolina, Puerto Rico, with authority granted for the manufacture of a range of human health products (Board Order 787, 60 FR 63499, December 11, 1995).

IPR is now proposing to expand the scope of authority for manufacturing activity conducted under FTZ procedures at Subzone 61G to include additional general categories of inputs that have recently been approved by the Board for other pharmaceutical plants. They include chemically pure sugars, empty capsules for pharmaceutical use, protein concentrates, natural magnesium phosphates and carbonates, gypsum, anhydrite and plasters, petroleum jelly, paraffin and waxes, sulfuric acid, other inorganic acids or compounds of nonmetals, ammonia, zinc oxide, titanium oxides, fluorides, chlorates, sulfates, salts of oxometallic acids, radioactive chemical elements, colloidal precious metals, compounds of rare earth metals, acyclic hydrocarbons, derivatives of phenols or peroxides, acetals and hemiacetals, phosphoric esters and their salts, diazo-compounds, glands for therapeutic uses, wadding, gauze and bandages, pharmaceutical glaze, hair preparations, lubricating preparations, albumins, prepared glues and adhesives, catalytic preparations, diagnostic or laboratory reagents, prepared binders, acrylic and ethylene polymers, self-adhesive plates and sheets, other articles of vulcanized rubber, plastic cases, cartons, boxes, printed books, brochures and similar printed matter, carboys, bottles, and flasks, stoppers, caps, and lids, aluminum foil, tin plates and sheets, taps, cocks and valves, and medical instruments and appliances. Materials sourced from abroad represent some 50%–65% of finished product value.

Zone procedures would exempt IPR from Customs duty payments on foreign materials used in production for export. Some 30–40 percent of the plant's shipments are exported. On domestic shipments, the company would be able to defer Customs duty payments on foreign materials, and to choose the duty rate that applies to finished products (duty free—14.2%) instead of the rates otherwise applicable to the foreign input materials (duty free—20%)(noted above). The application indicates that the savings from zone procedures would help improve IPR's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. *Submissions Via Express/Package Delivery Services:* Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or

2. *Submissions Via the U.S. Postal Service:* Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

The closing period for their receipt is March 11, 2002. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 5-day period (to March 18, 2002).

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address Number 1 listed above, and at the U.S. Department of Commerce Export Assistance Center, 525 F.D. Roosevelt Ave., Suite 905, San Juan, PR 00918.

Dated: January 16, 2002.

Dennis Puccinelli,

Executive Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

[A–588–854]

Certain Tin Mill Products From Japan: Notice of Initiation of Changed Circumstances Review of the Antidumping Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of initiation of changed circumstances antidumping duty review.

SUMMARY: In accordance with 19 CFR 351.216(b), Okaya (U.S.A.), Inc. (“Okaya”), a U.S. importer of subject merchandise filed a request for a changed circumstances review of the antidumping order on certain tin mill products from Japan with respect to certain tin-free steel as described below. Weirton Steel, the only petitioner producer in the underlying investigation, filed a letter with the Department of Commerce (“the Department”) stating that they do not

object to the exclusion of this product from the order. In response to the apparent lack of interest in this product from the domestic industry, the Department of Commerce (“the Department”) is initiating a changed circumstances review with respect to this request for all future entries of certain tin-free steel as described below.

EFFECTIVE DATES: January 25, 2002.

FOR FURTHER INFORMATION CONTACT:

Michael Ferrier, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482–1394.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930, as amended (“the Act”), by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the regulations as codified at 19 C.F.R. Part 351 (2001).

SUPPLEMENTARY INFORMATION:

Background

On August 28, 2000, the Department published in the Federal Register the antidumping duty order on certain tin mill products from Japan. See Notice of Antidumping Duty Order: Certain Tin Mill Products from Japan 65 FR 52067 (August 28, 2000). On December 3, 2001, Okaya, a U.S. importer requested that the Department revoke in part the antidumping duty order on certain tin mill products from Japan. Okaya also requested that the partial revocation apply retroactively for all unliquidated entries. Specifically, the U.S. importer requested that the Department revoke the order with respect to imports meeting the following specifications: Steel coated with a metallic chromium layer between 100–200 mg/mFD and a chromium oxide layer between 5–30 mg/mFD; chemical composition of 0.05% maximum carbon, 0.03% maximum silicon, 0.60% maximum manganese, 0.02% maximum phosphorus, and 0.02% maximum sulfur; magnetic flux density (“Br”) of 10 kg minimum and a coercive force (“Hc”) of 3.8 Oe minimum. The U.S. importer indicated that, based on its consultations with domestic producers, the domestic producers lack interest in producing this specialized product.

On January 16, 2002, Weirton Steel, the only petitioner producer in the underlying investigation filed a letter
