

facilitate matching organs with individuals included in the list.

Data for the OPTN data system are collected from transplant hospitals, organ procurement organizations, and tissue-typing laboratories. The information is used to match donor organs with recipients, to monitor compliance of member organizations with OPTN rules and requirements, and to report periodically on the clinical and scientific status of organ donation and

transplantation in this country. Data are used in the development and revision of OPTN rules and requirements, operating procedures, and standards of quality for organ acquisition and preservation, some of which have provided the foundation for development of Federal regulations. The practical utility of the data collection is further enhanced by requirements that the OPTN data must be made available without restriction for use by OPTN members, the Scientific

Registry of Transplant Recipients, the Department of Health and Human Services, and others for evaluation, research, patient information, and other important purposes.

Revisions in the 28 data collection forms are intended to clarify existing questions, to provide additional detail and categories to avoid confusion and be more inclusive, to remove obsolete data, and to comply with requests for more complete and precise data.

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Health Resources and Services Administration**

**Small Rural Hospital Improvement Grant Program**

**AGENCY:** Health Resources and Services Administration (HRSA), HHS.

**ACTION:** Notice of availability of funds.

**SUMMARY:** The Health Resources and Services Administration (HRSA) announces that applications are being accepted for grants to small rural hospitals to help them do any or all of the following: (1) Pay for costs related to the implementation of prospective payment systems (PPS), (2) comply with provisions of the Health Insurance Portability and Accountability Act (HIPAA) of 1996, and (3) reduce medical errors and support quality improvement.

*Name of Grant Program:* Small Rural Hospital Improvement Grant Program.

*Program Authorization:* Section 1820(g)(3) of the Social Security Act and the Departments of Labor, HHS, Education and Related Agencies Appropriations Act of 2002 (Pub. L.107-116).

*Amount of Funding Available:* Approximately \$15.0 million will be available for grants in fiscal year 2002.

*Eligible Applicants:* All small rural hospitals located in the fifty States and

Territories, including faith-based hospitals. For the purpose of this program, (1) small is defined as 49 available beds or less, as reported on the hospital's most recently filed Medicare Cost Report, (2) rural is defined as located outside a Metropolitan Statistical Area (MSA) or located in a rural census tract of a MSA as determined under the Goldsmith Modification, and (3) hospital is defined as a non-Federal, short-term, general acute care facility. A list of eligible hospitals, approximately 1265, can be found at <http://www.ruralhealth.hrsa.gov/ship.htm>.

*Funding Criteria:* To help facilitate the awards process, eligible hospitals are asked to submit a brief letter of application to their State Office of Rural Health (SORH) that describes their need, and intended use and expenditure of grant funds. In turn, the SORH will prepare and submit a single grant application (PHS Form 5161) to HRSA on behalf of all hospital applicants. An award will be made to each State based on the total number of applicants in that State. Grantee hospitals will receive their award from the SORH. If a State chooses not to join in this Federal-State partnership, eligible hospitals may submit a grant application (PHS Form 5161) directly to HRSA.

It is anticipated that all eligible hospitals will apply for this grant program, which would result in awards of about \$11,000 per hospital. It is expected that most of these grant funds will be used to purchase technical assistance, services, training and information technology. To help maximize purchasing power through economies of scale, eligible grantees are strongly encouraged to organize themselves into consortiums and pool their grant funds for the purchase of these services. SORHs may help their eligible hospitals form consortiums and also purchase the goods and services they need.

Funding will be available for a single year followed by yearly renewals, with funding contingent upon: (a) availability of Federal funds, and (b) satisfactory

performance by the grantee. The SORH may charge up to five percent to the grants to cover its administrative costs.

*Review Criteria:* Applications will be evaluated on the extent to which they: (1) Are responsive to the requirements and purposes of this program, (2) describe need and strategies to address those needs, and (3) propose an allowable use of the grant funds. Further description of the review criteria is contained in the program guidance.

*Requesting Applications:* The application and program guidance may be downloaded via the Web at <http://www.ruralhealth.hrsa.gov/ship.htm>. Hard copies of the application and program guidance are available from: HRSA Grants Application Center, Grants Management Officer, 901 Russell Avenue, Suite 450, Gaithersburg, MD 20879. All SORH applications must be submitted in hard copy and postmarked before 5 PM EDT on July 19, 2002 to the HRSA Grants Application Center, Grants Management Officer, 901 Russell Avenue, Suite 450, Gaithersburg, MD 20879.
