## DEPARTMENT OF AGRICULTURE

### Agricultural Research Service

#### Notice of Intent To Request an Extension of a Currently Approved Information Collection

**AGENCY:** Agricultural Research Service, USDA.

**ACTION:** Notice and Request for Comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995), this notice announces the Agricultural Research Service's (ARS) intention to request an extension of a currently approved information collection, Information Collection For Document Delivery Services at the National Agricultural Library (NAL), that expires September 30, 2002.

**DATES:** Comments must be submitted on or before August 16, 2002.

**ADDRESSES:** Address all comments to Wayne Thompson, Access Services Librarian, Document Delivery Services Branch, National Agricultural Library, Agricultural Research Service, Room 300, 10301 Baltimore Ave., Beltsville, MD 20705-2351. Submit electronic comments to [access@nal.gov](mailto:access@nal.gov).

**FOR FURTHER INFORMATION CONTACT:** Wayne Thompson, Access Services Librarian, phone: 301-504-6503, or Fax: 301-504-7593

#### SUPPLEMENTARY INFORMATION:

*Title:* Information Collection For Document Delivery Services.

*OMB Number:* 0518-0027.

*Expiration Date of Approval:* September 30, 2002.

*Type of Request:* To extend a currently approved information collection.

*Abstract:* In its role as both a preeminent agricultural research library

and a National Library of the United States, NAL (part of the Department of Agriculture's Agricultural Research Service) provides loans and photocopies of materials from its collections to libraries and other institutions and organizations. NAL follows applicable copyright laws and guidelines and standard interlibrary codes and practices when providing loans and photocopies and charges a fee for this service. To request a loan or photocopy institutions must provide a written request to NAL using either a standard interlibrary loan form, interlibrary loan protocol, or an email message formatted according to NAL provided instructions. Information provided in these requests include the name, address, and telephone number of the party requesting the material, and depending on the method of delivery of the material to the party, may include either a fax number, email address, or Ariel IP address. The requestor must also provide a statement acknowledging copyright compliance, bibliographic information for the material they are requesting, and the maximum dollar amount they are willing to pay for the material. The collected information is used to deliver the material to the requesting party, bill for and track payment of applicable fees, monitor the return to NAL of loaned material, identify and locate the requested material in NAL collections, and determine whether the requesting party consents to the fees charged by NAL.

*Estimate of Burden:* Average 1.75 minutes per response.

*Description of Respondents:* Respondents to the collection of information are those libraries or other institutions or organizations that request interlibrary loans or copies of material in the NAL collections. Each respondent must furnish the information for each loan or copying request.

*Estimated Number of Respondents:* 2500.

*Frequency of Responses:* Average 13 per respondent.

*Estimated Total Annual Burden on Respondents:* 963 hours (0.39 hours per respondent). Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have a practical utility; (b) the accuracy of the agency's estimate

of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, such as through the use of appropriate automated, electronic, mechanical, or other technological collection techniques. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: May 31, 2002.

**SUPPLEMENTARY INFORMATION:**

*Title:* Foreign Quarantine Notices.

*OMB Number:* 0579-0049.

*Type of Request:* Reinstatement of an information collection.

*Abstract:* The United States Department of Agriculture is responsible for preventing the introduction of foreign plant pests into the United States. Implementing this mission often requires us to collect information from a variety of individuals, both within and outside of the United States, who are involved in growing, packing, handling, transporting, and importing foreign plants, fruits, vegetables, roots, bulbs, seeds, and other plant products. Our regulations governing the importation of these articles are contained in 7 CFR part 319, "Foreign Quarantine Notices."

For example, many plants or plant products may not be imported until the person wishing to import them receives a permit from us. The person wishing to import these items must first fill out a permit application.

We consider the permit application process extremely important, since the information on the application enables us to determine whether the items for

import represent a potential pest threat to U.S. agriculture.

Under certain circumstances we also require importers to supply us with other types of information. We require, for example, that containers used to import various plants or plant products be marked in a certain way so that our inspectors can accurately identify them and match them to their accompanying documentation.

We require that certain shipments be accompanied by a phytosanitary inspection certificate, which is a document completed by plant health officials in the originating country.

This certificate attests to the plant pest condition of the shipment at the time it was inspected in the originating country. We use this important information as a guide in determining the intensity of the inspection we must conduct when the shipment arrives in the United States.

This and other information we collect is vital to helping us ensure that imported plants and plant products do not harbor plant pests that, if introduced into the United States, could cause millions of dollars in damage to U.S. agriculture.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.314877 hours per response.

*Respondents:* Foreign plant health protection authorities.

*Estimated annual number of respondents:* 92,457.

*Estimated annual number of responses per respondent:* 3.1305.

*Estimated annual number of responses:* 289,440.

*Estimated total annual burden on respondents:* 91,138 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of June, 2002.
