

email: [king\\_darrin@dol.gov](mailto:king_darrin@dol.gov). Send comments regarding this proposed collection of information, including suggestions for reducing the burden to the U.S. Department of Labor, GovBenefits Office, FPB, Room N-4309, Washington, D.C. 20210.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The President's Management Agenda for E-Government (February 27, 2002) sets forth a strategy for simplifying the delivery of services to citizens. The President's agenda outlines a Federal E-Government Enterprise Architecture that will transition the management and delivery of government services from a bureaucracy-centered to a citizen-centered paradigm. To this end, the Department of Labor serves as the managing partner of the Administration's "GovBenefits" (formerly Eligibility Assistance Online") strategy for assisting citizens in identifying and locating information on benefits sponsored by the Federal government. This tool will greatly reduce the burden on citizens attempting to locate services available from many different government agencies by providing one-stop access to information on obtaining those services.

From time-to time, the precise questions or content may require modification to accommodate addition to the GovBenefits portal as well as new or revised services. Furthermore, while the initial launch version scheduled for April 2002 does not "collect" information, to better serve citizens through website design, subsequent versions may need to collect user demographics such as "average age." Respondents answer a series of questions to the extent necessary for locating relevant information on Federal benefits. Responses are used by the respondent to expedite the identification and retrieval of sought after information and resources pertaining to the benefits sponsored by the Federal Government.

##### II. Desired Focus of Comments

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; including the validity of the methodology and assumptions used.

- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

##### III. Current Actions

This notice requests approval from OMB for the collection of information required for locating information on the GovBenefits web site.

*Type of Review:* Extension of a currently approved collection.

*Agency:* Office of the Secretary.

*Title:* Information Collection Plan for GovBenefits.

*OMB Number:* 1290-0003.

*Affected Public:* Not-for-profit institutions.

*Frequency:* On occasion.

*Number of Respondents:* 500,000.

*Number of Responses:* 500,000.

*Average Time Per Response:* 2.5 minutes.

*Estimated Burden Hours:* 20,000.

*Total Annualized Capital/startup costs:* \$0.

*Total Initial Annual Costs:* \$0.

Comments submitted in response to this notice will be summarized and included in the agency's request for OMB approval of the information collection request. Comments will become a matter of public record.

Dated: June 10, 2002.

#### DEPARTMENT OF LABOR

##### Employment and Training Administration

##### Workforce Investment Act (WIA) Section 167, the National Farmworker Jobs Program (NFJP)

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Notice of formula allocations for the Program Year (PY) 2002 National Farmworker Jobs Program (NFJP), request for comments.

**SUMMARY:** Under section 182(d) of the Workforce Investment Act (WIA) of 1998, ETA is publishing the PY 2002 allocations for the NFJP authorized

under Section 167 of the WIA. The allocations are distributed to the States by a formula that estimates, by state, the relative demand for NFJP services. The allocations in this Notice apply to the program year beginning July 1, 2002.

**DATES:** Comments must be submitted on or before June 24, 2002.

**ADDRESSES:** Comments should be sent to Ms. Alicia Fernandez-Mott, Chief, Division of Seasonal Farmworker Programs, Room N-4641, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Her e-mail address is [afernandez@doleta.gov](mailto:afernandez@doleta.gov).

**FOR FURTHER INFORMATION CONTACT:** Ms. Alicia Fernandez-Mott, Chief, Division of Seasonal Farmworker Programs, Room N-4641, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Her telephone number is (202) 693-3729. (This is not a toll-free number.)

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On May 19, 1999, we published a Notice of a new formula for allocating funds available for the NFJP (formerly referred to as the Section 402 Migrant and Seasonal Farmworker (MSFW) Program) in the **Federal Register** at 64 FR 27390 (May 19, 1999). The Notice explains how the new formula achieves its purpose of distributing funds geographically by state service area on the basis of each area's relative share of farmworkers who are eligible for enrollment in the NFJP. The new formula consists of a rational combination of multiple data sets that were selected to yield the relative share distribution of eligible farmworkers. The combined-data formula is substantially more relevant to the purpose of aligning the allocations with the eligible population than the allocations determined by the prior formula.

The realignments made by the new formula gave rise to significant changes in relative funding levels. The magnitude of the realignments was substantial for some of the state areas that are scheduled to experience decreases as a result of the transition from the original distributions to the distributions provided by the new formula. To provide a smooth transition to the realigned distributions, Part IV of the May 19, 1999, Notice provided a strategy for phased implementation of the new formula through four incremental "hold harmless" stages. The stages provide a graduated implementation of the formula

allocations by limiting the rate of reduction in relative funding levels to the four annual increments of 95 percent of the 1998 level in PY 1999, 90 percent in PY 2000, 85 percent in PY 2001, and 80 percent in PY 2002. Full implementation of the new (combined-data) formula will be reached on the 5th year allocation in PY 2003.

Because it is the best available allocation tool, we continue to implement the new formula by applying the fourth implementation step of the formula described in the May 19, 1999, Notice to allocate PY 2002 WIA Section 167 funds. Section III of this Notice describes how the PY 2002 formula allocations are adjusted to account for the budget additions provided by Congress.

The Department of Labor invites comments on our decision to continue the phased implementation of this formula in allocating PY 2002 funds for the NFJP.

## II. Limitations on Uses of Section 167 Funds

In appropriating the funds for PY 2002, Congress provided in its Appropriations Conference Report 107-342, as follows: "That, notwithstanding any other provision of law or related regulation, \$80,770,000 shall be for carrying out Section 167 of the Workforce Investment Act, including \$74,965,000 for formula grants, \$4,786,000 for migrant and seasonal housing, and \$1,019,000 for other discretionary purposes \* \* \*."

## III. PY 2002 Allocations

The PY 2002 allocations and the details of how they are made are provided in the Table at the end of this Notice. As in the prior three program years, the base amount selected for

allocation under the formula is the PY 1999 allocated amount of \$67,596,408. (Refer to column "C" to see the PY 1999 State allocations without the "hold-harmless" adjustments.)

The fourth step (80 percent hold-harmless) allocations are given in column "E". For comparison with the figures in column "E", column "F" uses a spreadsheet formula to calculate 80 percent of the PY 1998 allocations.

Sustaining 100 percent of the PY 1998 levels: Additional funding is provided under congressional direction in each of PY's 1999, 2000, 2001 and 2002 that establishes the 1998 level as a minimum level for all states. This requirement is applied cumulatively in PY 2002 to sustain at their 1998 levels those state service areas that receive a declining relative share of funding by the progressively-phased implementation of the new formula. Column "G" shows the additional "make whole" amounts allocated under the congressional recommendation to bring to their PY 1998 levels those State service areas where the demographics reflected under the formula show a smaller relative share of eligible farmworkers. Column "H" shows the total allocations after applying the "make whole" allocations that sustain the PY 1998 levels as the minimum allocation amounts.

A total of \$73,120,657 is allocated as the result of applying this requirement. At this stage, the PY 2002 amount allocated is the sum of the fourth (80 percent) step's formula allocation (column "E") of \$67,596,409 and the "make-whole" amount of \$5,524,248, which brings all states to a minimum of their PY 1998 levels (column "G"). The total amount allocated at this stage is \$1,844,343 less than the \$74,965,000 minimum amount reserved in the Conference Report "for formula grants."

For informational purposes, column "I" shows what the allocation of the PY 2002 formula grants would be without adjustments of any kind. PY 2002 is the final step of the graduated phase-in of the new formula. To allocate this additional amount remaining from the amount reserved for the formula grants, the states with a higher amount in Column "I" than Column "H" are identified in column "J" by the entries, taken from column "D", of the unadjusted formula relative shares. Column "K" shows the calculation of the relative distribution among those states identified in column "J". Column "L" distributes the \$1,844,343 by using the shares determined under column "K". Column "M" (the sum of columns "H" and "L") provides the final NFJP allocations for PY 2002.

## IV. Rhode Island and the Minimum Funding Provisions

Part V of the May 19, 1999, **Federal Register** Notice provides that a state service area allocated less than \$60,000 could be combined with an adjoining state service area. As in PY's 2000 and 2001, the PY 2002 Rhode Island area allocation is combined with the Connecticut area allocation.

## V. PY 2002 Allocations

Column "M" of the "Allocation Table" provides the allocations for the NFJP in PY 2002. Grantees will use these figures in preparing the PY 2002 NFJP grant plans.

Signed at Washington, DC, this 31st day of May, 2002.

**Emily Stover DeRocco,**

*Assistant Secretary, Employment and Training Administration.*

**Explanatory Notes:**

Column G: Amounts required to bring all states to a minimum of their 1998 allocations.

Column H: Sum of:

- 1) the last hold-harmless provision for year 4 of the formula implementation, which is to allocate no less than 80% of the PY 1998 allocation to any state; and
- 2) the Congressional requirement to fund no state below its PY 1998 level.

Column I: The PY 2002 funding amount distributed by each state's relative share of the formula data.

Columns J - L: Computation of the amounts remaining to be allocated (\$1,844,343) after achieving the two requirements consolidated in column H.

Column J: Formula share for those states for which there is the higher amount in column I than in column H.

Column K: Relative share that each selected state's share in column J is of the sum of all selected shares in column J.

Column L: Column K relative share times the balance remaining (\$1,844,343) for allocation.

BILLING CODE 4510-30-C

**DEPARTMENT OF LABOR****Employment Standards Administration  
Wage and Hour Division; Minimum  
Wages for Federal and Federally  
Assisted Construction; General Wage  
Determination Decisions**

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice

is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

**Modification to General Wage  
Determination Decisions**

The number of the decisions listed to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.
