## DEPARTMENT OF DEFENSE

### Department of the Army

#### Record of Decision (ROD) for the Final Programmatic Environmental Impact Statement (PEIS) on Transportable Treatment Systems for Non-Stockpile Chemical Warfare Materiel

**AGENCY:** Department of the Army, Department of Defense.

**ACTION:** Notice of Availability.

**SUMMARY:** This ROD has been prepared by the Department of the Army in compliance with the National Environmental Policy Act of 1969, President's Council on Environmental Quality regulation (40 CFR 1500-1508), and Army Regulation 200-2. This decision is based on the analyses contained in the February 2001 Final PEIS on Transportable Treatment Systems for Non-Stockpile Chemical Warfare Materiel, the associated public and other input received in response to coordination of this document, and other considerations. The primary decisions reached in the ROD on transportable treatment systems are to: (1) Proceed with development and testing of the Rapid Response System and the Explosive Destruction System and make these systems available for deployment and (2) suspend further development and testing of the Munitions Management Device Versions

One and Two (based on current program needs); however, the Munitions Management Device technologies were determined to be environmentally safe and subsystems could be used in the future.

**ADDRESSES:** Questions on the ROD or requests for copies of the document should be directed to: Program Manager for Chemical Demilitarization, ATTN: SFAE-CD-NP (Mr. John Giesecking/Programmatic Environmental Impact Statement), Aberdeen Proving Ground, Maryland 21010-4005 or via e-mail at [john.giesecking@pmcd.apgea.army.mil](mailto:john.giesecking@pmcd.apgea.army.mil).

**FOR FURTHER INFORMATION CONTACT:** Mr. John Giesecking at (410) 436-3768 or by fax at (410) 436-8737.

**SUPPLEMENTARY INFORMATION:** The PEIS was used to help the Army make this program-level decision with input from the public. The Army's Product Manager for Non-Stockpile Chemical Materiel has analyzed the potential environmental and socioeconomic consequences of two alternative courses of action in the Final PEIS with Respect to the Army's chemical demilitarization responsibilities. These alternatives are: (1) Completing development and testing of the transportable chemical treatment systems and making them available to be used where needed and appropriate to process non-stockpile chemical warfare materiel and (2) the no-action alternative, under which the Army would discontinue the development of the transportable treatment systems and continue to store non-stockpile chemical warfare materiel until other suitable technologies are developed.

Copies of the ROD can also be obtained by calling Ms. Louise Dyson, Public Outreach and Information Office, Office of the Program Manager for Chemical Demilitarization, at 1-800-488-0648 or (410) 436-3445; fax (410) 436-8737; or e-mail at [louise.dyson@pmcd.apgea.army.mil](mailto:louise.dyson@pmcd.apgea.army.mil). ## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**ACTION:** Notice of proposed information collection requests.

**SUMMARY:** The Leader, Regulatory Information Management, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** An emergency review has been requested in accordance with the Act (44 U.S.C. chapter 3507 (j)), since public harm is reasonably likely to result if normal clearance procedures are followed. Approval by the Office of Management and Budget (OMB) has been requested by July 12, 2002.

**ADDRESSES:** Written comments regarding the emergency review should be addressed to the Office of Information and Regulatory Affairs, Attention: Karen Lee, Desk Officer: Department of Education, Office of Management and Budget; 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) requires that the Director of OMB provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management, Office of the Chief Information Officer, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. ED invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner, (3) is the estimate

of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on respondents, including through the use of information technology.

Dated: June 20, 2002.

**John Tressler,**

*Leader, Regulatory Information Management, Office of the Chief Information Officer.*

#### **Office of Elementary and Secondary Education**

*Type of Review:* Revision of a currently approved collection.

*Title:* Indian Education Discretionary Grant Applications (KI).

*Abstract:* Application for funding for Indian Education discretionary programs of Demonstration Grants for Indian Children and Professional Development. The information is used to determine applicant eligibility and amount of awards for projects selected for funding.

#### **Additional Information**

An emergency clearance is necessary to enable the Department to allow potential grantees the opportunity to apply for funding this fiscal year under these discretionary grant programs and begin funded programs early in the coming school year. The regulations for the program are being published as a final rule with request for comments. This allows the Department to implement the programs without delay, but still provides the public with an opportunity to comment on the regulatory provisions. A delay in the clearance of these information collection requirements will mean that the program will be unable to make awards this year and funds would lapse. Further the selected funded projects will be unable to recruit the most qualified staff or training participants and successfully begin implementation of their programs early in the 2002-03 school year. In our view harm to the public would occur if this clearance is not approved.

Although OMB will provide provisional clearance of this information collection in order to get awards out this year, the public will have another chance to comment on the information collection requirements of the final rule when the final regulation is published in mid-July, 2002.

*Frequency:* Annually.

*Affected Public:* State, Local, or Tribal Gov't, SEAs or LEAs (primary).

*Reporting and Recordkeeping Hour Burden:*

Responses: 100.

Burden Hours: 5840.
